

MISS LEITCH TO MEET AMERICAN CHAMPION AGAIN.

Miss Cecil Leitch, world's greatest woman golfer, and Miss Aiea Stirling, American champion, will have another opportunity to settle the question of supremacy when they clash at the Riverhead Golf Club of Ottawa, in the Canadian women's championship, which takes place during the week of September 18 to 24. These golfers met in the British title tournament last June, and the American was defeated. Both have entered the Canadian tourney. In the above picture Miss Cecil Leitch is seen on the left, while her sister, Edith, is on the right. They will play in Canada before coming to America.

RATES INCREASE ON PRESS MATTER

Raise of 20 Percent Announced in Tariff Filed by Western Union

Telegraph rates on press dispatches within the state of Oregon are increased 20 per cent by a new schedule of tariffs which has been filed by the company with the public service commission. Under existing rates the total yearly income to the company from its press service is given as \$10,225.19. Under the proposed increase the total is estimated at \$12,271.10, which would be distributed among all the newspapers of Oregon using press dispatches carried by the Western Union wires. The letter of the company to the commission says it is impossible to state the number of newspapers.

The new schedule will be effective in 30 days unless protested. The company explains that when the lines were under federal control the postmaster made a general increase of 20 per cent in rates, but exempted press matter, and the increases now proposed is to harmonize press rates with other rates. It is really hard to get excited over the Silesian question until after the summer's circus season is over.

BROCCOLI CROPS ARE DOING WELL

Growers Who Help Get Industry Started Here Make Encouraging Reports

A number of broccoli growers in the Salem district have been in the Statesman office of late, and all of them have reported that their broccoli crops are coming along fine. The only note of alarm has been over its rapid growth. Some of them think it is

growing too fast. Prof. C. I. Lewis, of the Oregon Growers' Co-operative association, was asked about this point yesterday—and his reply was that it could not grow too fast; that the cool nights now prevalent should make it come along still faster, and that the fall rains will hurry it still more. However, a letter was yesterday sent to A. G. B. Bouquet, professor of gardening at Oregon Agricultural college, the best authority on broccoli in the country—a letter asking that Professor Bouquet come to Salem and go over the broccoli situation here. Also, a request was made that the college funds provided for that purpose be drawn upon for the expenses of the trip. The Statesman will be glad to receive and print all the information that can be secured concerning the broccoli industry here.

Salem has become the broccoli center of the United States, all in one season—and it will increase its lead by leaps and bounds if the results prove as satisfactory as the present outlook promises. Interest is Growing in Tabernacle Meetings. Growing interest in the tabernacle meetings on the Willamette campus, near Twelfth street, have encouraged Rev. C. H. Coulters, the evangelist in charge, to look for great religious results. The attendance has been increasing steadily, so that the tabernacle is being comfortably filled. Services are to be held Sunday afternoon at 2:30 and evening at 7:30, and regular services at 7:30 every night next week, except Saturday night. Dr. W. T. Milliken, of Salem, is to conduct a series of Bible studies each afternoon of the week, from Tuesday to Friday at 2:30 o'clock. Rev. Mr. Coulters is to preach regularly at the evening services, and have charge of the music as well.

Nation-Wide Girl Hiker To Teach in Schools Here. Miss Myrtle King, daughter of Judge Will R. King, who with other young women has just completed a walking trip of four months from Washington, D. C., to Oregon, will teach in Oregon the coming year. She called yesterday at the office of J. A. Churchill, state superintendent of schools, to make arrangements for a permit. She has not yet procured a position. Miss King is a graduate of Goucher college, Baltimore.

Cohen Sells His Interest In Capital Bargain House

W. Cohen has sold his interest in the Capital Bargain House, 215 Center street to I. Saffron. It's former partner in the business, who now becomes its sole proprietor. Mr. Cohen has made many friends since he came to Salem. He established the Capital Junk company at 271 Chemeketa street nearly five years ago. For over a year he was its sole proprietor. In the fall of 1918, however, I. Saffron purchased a half interest in the business. During August, 1920 the business was moved to its present location, 215 Center street, and soon thereafter its name was changed to The Capital Bargain House. Through close attention to business and his natural ability to make friends Mr. Cohen has caused the Capital Bargain house to grow into a large institution. In speaking of his severance of his relations with the business, Mr. Cohen said: "I hated to sell my interest and I want to thank my friends for their patronage and tell them that I expect to remain in Salem and will probably be in business again soon. As to what the nature of my future business will be I am not yet prepared to announce."
