## G. X. FIRES A VOLLEY OF QUESTIONS

#### Editor Statesman:

I have wondered whether my fellow farmers might mistake my attitude on the Non Partisan League.

It has been said to me that only a "positive program' can lead us to the political light-like, for instance, perhaps, the career of Jesse James or the Kaiser, who said they were being oppressed or menaced, and were only striking in self The League platform, plank six, would tax war costs to "sur- congested calendars caused by defense! And yet their "positive program" righted no wrong, established no moral principle; chiefly it established them as colossal egotists, drunk with mistaken argument. And we know what the disgusted world did to them.

To be helpful, any "positive program" must be honest. I do not believe that the Dakota plan, in practice, is honest or admirable even in what it intends to do; for it was conceived in swinish selfishness, and when born was nursed to gigantic nog-hood by an incredible swarm of leech-like lackeys and Was not Ananias, the master-liar and thief of history, slain No judge, with the machinery of flunkeys and political wolves who saw easy picking in the multitudinous state jobs. The reason the failure was not more colossal, and a national disaster, rests in the fact that the people at large wouldn't stand it all. They rebelled against its intolerances and blood-sucking officialism, far more strenuously than men rebel against the prohibition enforcement; so while the League was nominally in control for a few years. in actuality it never dared go one-quarter its intended length. And yet its potential destructive powers were there-powers that we do not want here in Oregon.

Personally, I do not desire to give up my own farm, which I have worked hard to pay for and own. I believe that Editor Statesman: form of land ownership is desirable for the good of humanity. Perhaps the later comer, after the land is all appropriated, is out of luck; but he may be compensated by an ncreasing state responsibility to look after him. Maybe he does not appreciate this alms-house attitude; yet the perpetuity of the food-producing industry that keeps mankind alive, could hardly be trusted to miscallaneous tenancy. So I must believe in land monopoly, that may make me rich and my neighbor a starved shadow or derelict. And yet, to be honest, I must recognize that a thousand other lines of human endeavor stand on an almost identical footing. How can I, with a monopolistic, profiteering farm deed in my pocket, point the finger of suspicion, the sword of execution, against my nieghbor who unfortunately owns only a railroad or a mine or a creamery? If the League is to be honest, it must make a clean sweep, and proscribe every monopoly, including its own. If it is not honest, and proposes only a brutal robbery of other men while keeping its own spoils, then that's that! And yet I do not believe so ill of any class of good Americans, as to llow that they are following this League understandingly If they knew that the League program, honestly interpreted honestly enforced, should mean the instant extinction of every private land title, including their own farms, they rould hardly be Leaguers! If they understood that, once the League is formed, it would be possible for the majority who are not farmers to combine and instantly deprive them o' their own farms, by the very legal processes they invoke, and the moral argument they adduce, they would not be shouting for a League! I venture to put some of my League observations into questionaire form; believing that, with each point definitely esented, it will be possible to reach a definite judgment of what the League really is:

Can man live without the products of the soil?

- Does not "land ownership" presume the right to control, for use or for disuse, its products, and perpetual control of its title by sale or bequest?
- Can later generations, coming after the land is once appropriated, create or discover or develop other lands, even though mankind must have land products, or starve?
- Can humanity insure itself against the starvation of a land strike, any more than the annoyance of a railroad or an electrical or a coal strike, without taking absolute control of the land?
- If you do not trust the "monopolist" or the "profiteer" in other lines of production, could you honestly trust a monopolist in land which is infinitely more vital to life? Is not land ownership a "profiteering monopoly" under the
- terms of the Non Partisan League interpretation? If "monopoly," meaning the control of any article necessary or desirable in human life, is ever bad and rightfully subject to state control, should not the most pernicious

Imagination is a excitement over an airship. He good thing, but needs to be controlled.

It seems to me that my friend is unnecessarily harsh in rally of an irascible and petulant his designation of those who may not see things from his nature. Te thinks it is some viewpoint. I would suggest that it might be well to re- huge tsetse fly that is about to member the words of the New Testament relative to calling sting him. When the airmen take another a fool. Again, is it not just possible that one might to hunting big game from their differ with G. X. and still be honest?

G. X. says: "I hold that he is a fool who believes that learn to fear and respect them. the announced program outlined by Mr. Slaughter is the full program intended." The program quoted was in full and not a mere outline. It is the full program and will continue in its present form until such time as it shall be changed by the members of the League, who are citizens of Oregon. No one expects the Republican platform to remain unchanged in its present form. Then why rave about possible changes in the Oregon League program? Why not discuss the present program without rancor, vituperation or misstatements of fact? Asserting that something is a lie, or that some one is a liar, proves nothing unless evidence is submitted to prove the truth of the assertion.

So far as I have been able to learn, The Non Partisan League state government of North Dakota has robbed no one. "of as good title to the earth's products as the farm land owner's." If G. X knows of any who have been so robbed. he should produce the evidence. The members of the Non Partisan League in North Dakota claim that they have nothing to hide and court the fullest publicity. Why not take them at their word?

Nothing of the kind has happened in North Dakota, and neither will it happen in Oregon; and I have confidence in the intelligence of G. X. to believe that he knows this to be true.

G. X. asks: "Would the gentleman argue the question?" If he will word his question so as to make it clear and make it pertinent to the issues involved, I shall be pleased to discuss it with him or find an exponent of the League to do so.

No doubt "it would be wasteful to discuss every proposition brought up by Dr. Slaughter for wonderment." Yes, almost as wasteful as to attempt to name the various things discussed by G. X. that are not the issues under discussion. My friend asks questions so involved and complicated
