

### FIRMER FINANCES ORCHESTRA PLAN

Associate Membership To Be Organized For Musical Organization

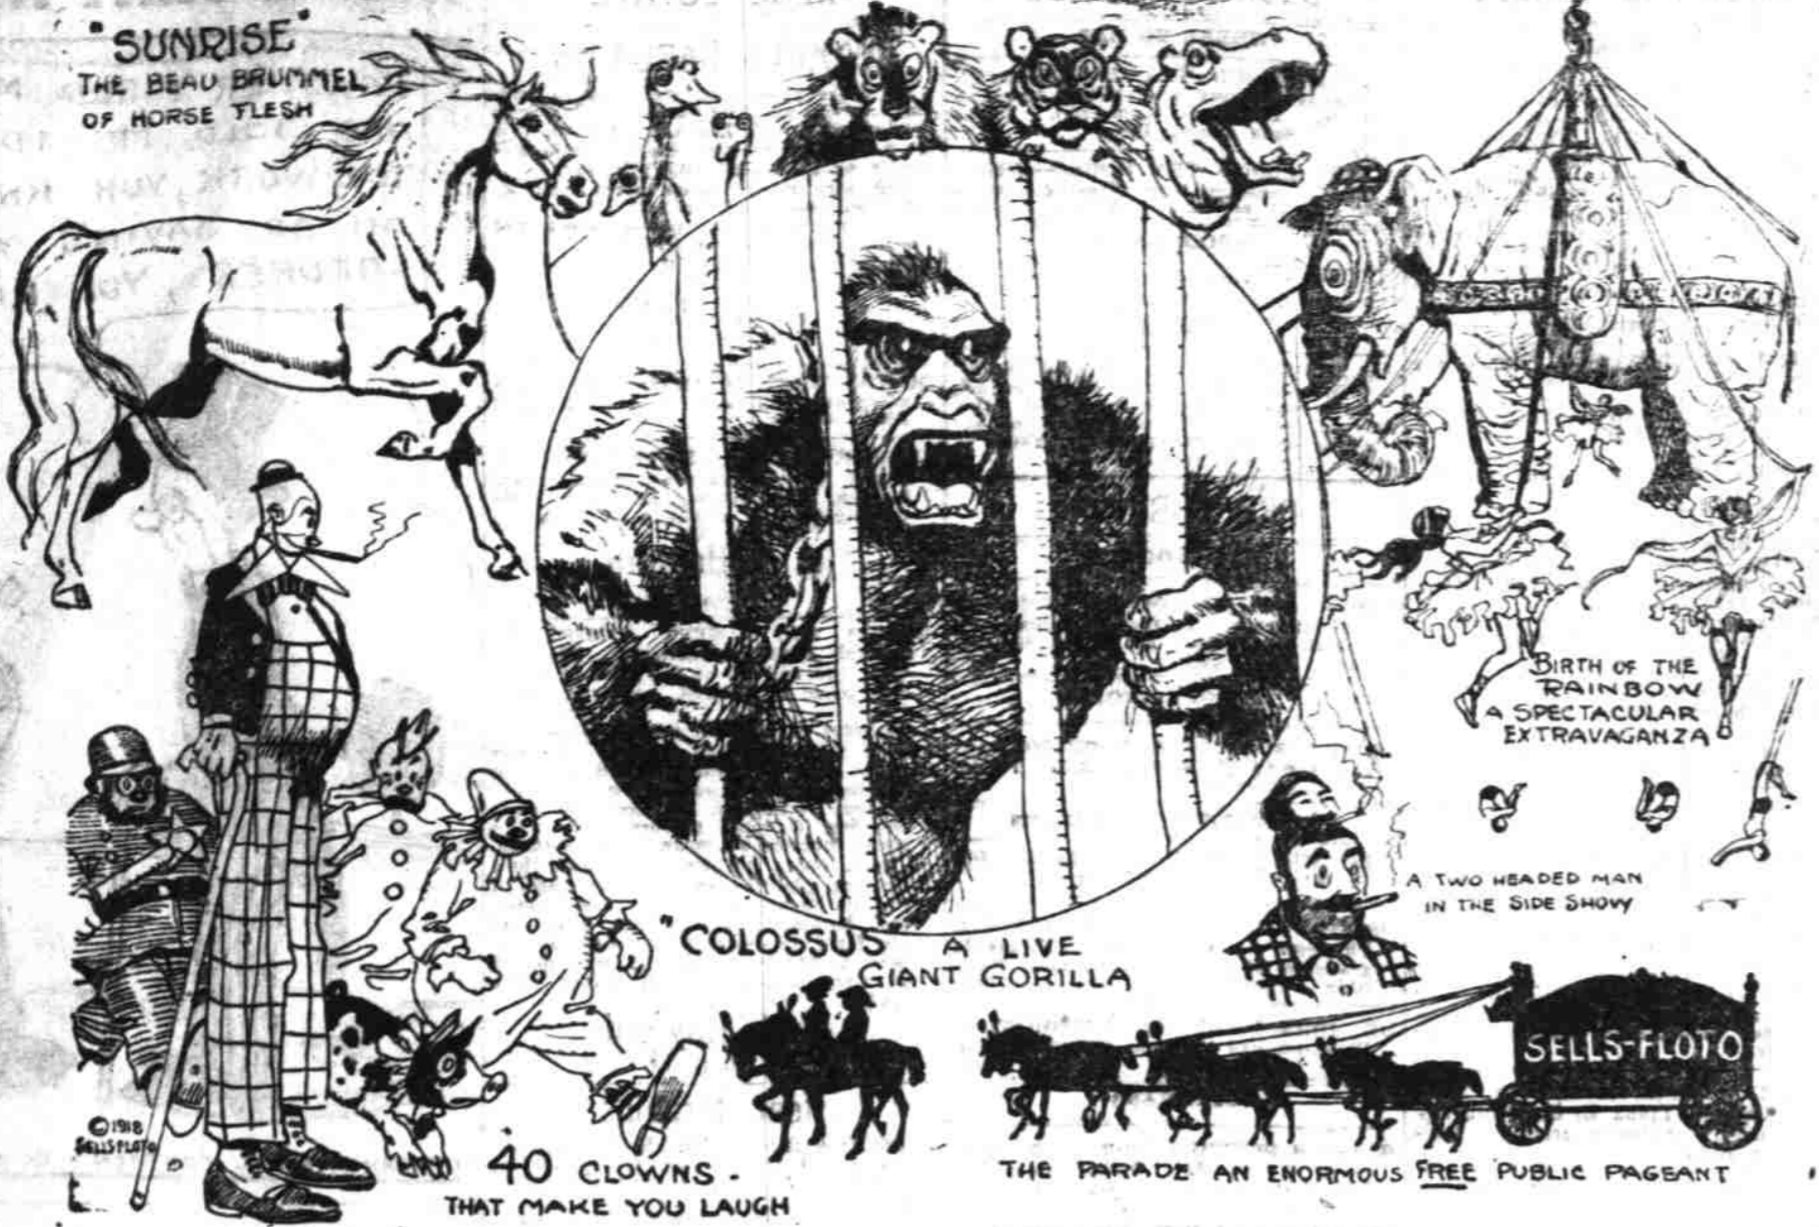

Friends of the Salem Symphony orchestra met last night at the Young Woman's Christian association to discuss plans for the organization of an associate membership of the orchestra for the coming winter season.

With the fine record and support the symphony orchestra received last winter its second season it is felt that the orchestra should be placed on a firm financial basis, and to this end, the meeting was held last night.

It was unanimously agreed that an associate membership should be organized, consisting of those who appreciate music and also appreciate the good work that has been done the past two seasons in presenting popular concerts.

This associate membership will aid in financing the orchestra, especially as it is now planned during the coming season to give

### SELLS-FLOTO COMES WITH CHICAGO COLISEUM PERFORMANCE

#### SELLS-FLOTO CIRCUS FEATURES IN CARICATURE

Sells-Floto comes to town on Wednesday, September 21, and this is saying all there is to say, circely speaking, according to well informed circus fans of six and six, four years and four score.

"The second largest show on earth" comes this season with its Chicago Coliseum opening spring performance intact—from the

great New York Hippodrome riding clown, "Poodles" Hanneford, to Bertha Beeson, the "Pavlova of the aerial wire," from Alfredo Codona, the triple mid-air somersault, to Victoria, lovely artiste on the longest aerial wire ever known.

The Sells-Floto advance men are responsible for our confidence in this year's Sells-Floto merits—they and the record of the show since it stepped into second place

in size and into second to none position in point of a corking good show. And there's a stage added this season, making three rings and two stages, an aerial maze and a hippodrome track. The tents, say the advance men, are bigger; the parade is six blocks longer, and there are more animals, including 15 elephants. In fact, the hosts ahead of this great organization claim the show is simply huge, but the Sells-Floto

pep, dash and brilliancy is still there.

There are more big features than in 1920, and that's making a large statement, as every big city in the country knows. There are 55 clowns and 400 performers, to say nothing of a large number of animal acts. Performances open with colorful and impressive pageantry, employing 1,000 people and 400 animals. The show travels on four trains.

### PICKING SEASON APPROACHES END

Harvest of Hops Progresses Rapidly In Big Yards of Wilamette

The hop picking season for this year is drawing to a close, according to reports from various hop yards. The Wigan Richardson & Company yard will be about all picked by Saturday of this week, and the same is true of Horst Brothers. Picking will be about

all over in one of the Livesley yards this week. Fine weather is responsible for quick picking and a season a few days shorter than usual.

Hops are being picked cleaner this season than for many a year, according to reports coming from and even two years ago, with the great scarcity of labor, picking was far from clean, conditions have been different this year.

With an abundance of labor and strict instructions that Oregon this year must have its hops picked absolutely clean, no laborers are permitted to stay on the job who do not live up to instructions.

Salem growers received letters before the picking season began, with information that hops as picked last season would not be acceptable and that it was up to the growers this year to restore Oregon in the estimation of the English brewers, who purchase practically all the Oregon grown hops.

Could Hardly Straighten Up  
When the kidneys are overworked and fail to throw out waste matter from the system, it causes aches, pains, lame back, swollen ankles, sore joints, dizziness, floating specks, etc. J. W. Seabock, Chester, Pa., writes: "My kidneys and back hurt me when I got out of bed in the morning I could hardly straighten up. Had to rub the small of my back before I could walk. I could hardly button my shoes. I haven't felt the soreness since I took Foley's Kidney Pills. Sold everywhere.—Adv.

### GOLD RESERVE IS UNCHANGED

Statement Issued From Imperial Bank of Germany For September 7

BERLIN, Sept. 12.—The gold reserve of the Imperial Bank of Germany, according to the bank's statement for the week ending September 7, remains unchanged from the previous week at 1,293,708,000 marks, although the note circulation was further increased by 654,805,000 marks to 80,727,526,000.

The gold reserve had stood at 1,091,542,000 since early in the year until August 31, when the payment of a billion gold marks to the allies forced the government to sacrifice part of the reichsbank's reserves and the bank statement accordingly then showed a depletion of 67,835,000 in foreign gold coin.

The whole bullion on September 7 stood at 1,040,135,000 or a decline of only 126,000,000 marks as compared with the previous week. The reichsbank has fixed the price for gold purchased in the week ending September 8 at 54,800 marks per kilogram fine with proportionate prices for foreign gold coin.

In addition to the reichsbank's notes there are 10,947,600,000 marks paper in loan bank bills in circulation which do not figure in the bank statement, but pass on equal footing with currency. They represent advances made by the government to loan banks and are covered partly by stocks of merchandise.

The foregoing shows that Germany possesses only one mark in gold to cover roughly ninety marks in paper circulation.

"To what do you attribute the success of your magazine?" "We don't print uplift stuff of any nature."—Louisville Courier-Journal.

### Mrs. Mary Fluke Host To Group of Relatives

INDEPENDENCE, Ore., Sept. 12.—(Special to The Statesman)—Mrs. Mary Fluke, of this city, has been hostess the past week to a large number of members of her family, who for the first time in many years have been together. Orville Fluke and wife left Detroit, Mich., June 29, making the trip in their car, visiting Yellowstone park, Rainier park and a great many other points of interest along the route.

west with the knowledge and recollection of younger days spent in Oregon that the climate here is much preferable to that in the east and his visit here again has only one purpose, and that is to remain permanently. Besides Mr. Fluke, Mr. and Mrs. B. M. Kins, of Kelso, Wash., and Mrs. Ernest Hampton of Tacoma, are being entertained this week at the Fluke home.
