

MONEY PROVIDED FOR RECALL VOTE

North Dakota Emergency Board Doesn't Let Lack of Funds Bother

BISMARCK, N. D., Sept. 20.—Lack of funds for compliance with the constitutional provision requiring printing of publicity pamphlets was eliminated as a possible obstacle to the recall election called for October 28, when the state emergency commission here today appropriated the necessary \$10,000.

The pamphlets, which are to be mailed to every voter in the state, will carry a complete text of the proposed constitutional amendments and initiated laws, to be voted on with the attempted recall of three state officials, elected with Non-Partisan league endorsement. Failure to issue the pamphlets would have left an opening for court action to prevent the election.

Replying to a published charge that many interest payments on farm mortgages, assigned to the state treasurer by the bank of North Dakota, had not been paid, Governor Frazier today said the industrial commission last fall authorized a lapse of interest payments upon many loans as provided by law in case of crop failures.

fashion as to relieve the problem. In Marion county's own limits there has been a grist of bootleggers, rapists, petty thieves and road transients who have served out the sentences in tedious but worklike manner. The county court holds that the Marion county jail would be even less popular if a good prescription of toll accompanied such sentences.

Would Enlarge Scope In providing a solution of the problem, the county officials state that this would not reduce the amount of labor needed for the road building program but would simply enlarge the scope of work by providing extra hands for the gravel bunkers or paving plants, according to the plan adopted.

Evelyn Nesbit Outwits Officers at Her Home

NEW YORK, Sept. 20.—Evelyn Nesbit, a central figure in the celebrated Thaw case, forestalled city marshals who attempted to evict her today from her tea room for nonpayment of rent and then treated a large crowd of Broadway habitués who witnessed the proceedings, to ice cream and coffee.

A dispossession warrant was issued on application of the Trebhubs company, controlled by the Shubert theatrical interests. When the marshals appeared, the former actress begged them not to disturb patrons then eating.

While the marshals waited, Miss Nesbit, hatless and coatless, fled in a taxicab to the Shubert offices. She returned triumphant, having obtained a stay until Saturday.

MASONIC LEADER DENOUNCES KLAN

Johnson Resents Impressions That Masons Are Associated Body

ST. LOUIS, Mo., Sept. 20.—The Ku Klux Klan was denounced as a destructive of free government, peace and harmony, by W. F. Johnson, grand master of the Centennial Grand lodge of Missouri, Ancient Free and Accepted Masons, in an address at the lodge's annual convention today.

"As the impression seems to prevail in some sections," he declared, "that the Masonic fraternity is directly or indirectly associated with this (Ku Klux Klan) secret organization, it is well that the seal of disapproval be positively placed by this grand lodge upon this secret organization.

"We cannot as Free Masons and good citizens recognize the right of any secret society or combination of men to assume the right to administer law and to inflict punishment on their fellow men. Such an assumption is subversive of our republican institutions, contrary to the great principles of Free Masonry.

"An organization that practices censorship of private conduct behind the midnight anonymity mask and robe, and enforces its secret decrees with whips and feathers must ultimately merit and receive the condemnation of those who believe in justice, open justice and good citizenship."

Half Million is Sent To Starving Russians

RIGA, Latvia, Sept. 20.—The American representative who was announced in a Moscow dispatch to the Rosta Agency Monday to have arrived in the Bolshevik capital with a half million dollars for the starving people in the Volga region is named Gilman or Hillman, says a Moscow dispatch today. He represents the garment trades, the dispatch adds.

NEW YORK, Sept. 20.—The American representative of the Garment Trades reported to have arrived in Moscow with half a million dollars for famine relief is believed to be Sidney Hillman, president of the Amalgamated Clothing Workers of America, who left two months ago to investigate conditions in Russia.

Joseph Schlossberg, secretary-treasurer of the organization, said tonight he received a cablegram from Hillman yesterday asking the clothing workers to raise \$200,000 to buy flour for the starving Russians. Hillman tried no relief organization funds with him.

General Cargo Offerings Are Reported Improved

It will be recalled that paving on Fair Grounds road was begun during the year Harley O. White was mayor of the city and that several conferences were held with property owners before sufficient signers were on the petition to enable the city to go ahead with the paving.

Change in Price Claimed It is also understood that a number of property owners owning property abutting on Fair Grounds road have a grievance to the extent that the paving costs were exactly as agreed upon at the time they signed the petition for paving.

With the city employing special attorneys to begin foreclosure proceedings on fair grounds road property as well as other property for delinquency in payment of street improvements, it is hoped that within a short time there will be a solution of this vexing city problem.

Should the petition be corrected and presented at this meeting there would be the usual delays in advertising and calling for bids, and before all this could be done the paving season would be over. However, those interested in paving have not as yet determined whether to present a corrected petition to the city council at the

CONDITION QUIET IN STRIKE AREA

Developments Lacking in Industrial Trouble at Bakersfield, Calif.

BAKERSFIELD, Cal., Sept. 20.—Actual developments in the strike of the workers from the oil fields of Kern county were scarce today but interest centers on the approach of a committee from the newly formed Oil Producers' association reported to be on the way here to confer with Sheriff Newell and other county officials about the actions of the "law and order committee" which has been for the past 10 days exercising the functions of sheriff and constables in aid about the oil fields.

Sheriff Newell said today that he had taken no steps to end the "law and order" patrol that has been covering the fields and their approaches. No complaints have been made to him, he said, and as it was his understanding that the patrol members were deputized by the constables of the districts in which they were working and were therefore legally constituted officers, he did not feel that he should interfere in the absence of formal complaint.

Statements that the strikers had taken over all functions of government in the strike districts were denied absolutely today both by strike leaders and by officials in the various cities and towns affected. The latter said the statement was "absurd," and that all functions of local government were moving unchecked, the law defined as "men, who had been deputized as constables, merely adding their labors to those of the regular officials."

Two Men Overcome By Fire and Gas in Mine

FLORENCE, Colo., Sept. 20.—Two men were overcome by flames and gas while attempting to quench a fire in the Nushait coal mine of the Colorado Fuel & Iron company on Coal creek, near here. Mine officials say a miner fired a dynamite charge which broke into an oil well. The miner's torch is said to have ignited oil and gas from the well.

Two hundred miners were said to have escaped the mine today. Tonight the flames were reported making headway against the fire fighters, only five helmets being available for use in combating the flames. Call for additional equipment has been sent out and the United States mine rescue car has been requested.

CITIZENSHIP OF JAPANESE IS UP

Washington Case Will Be Tried Out in United States Supreme Court

OLYMPIA, Wash., Sept. 20.—Attorney General L. Thompson was notified today that the supreme court of the United States had set for October 17 hearing on the petition of Takiji Yamashita and Charles Hoi Kono for a writ of certiorari in a case involving Japanese citizenship rights.

The case grew out of the refusal of Secretary of State J. Grant Hinkle to issue incorporation papers to a Japanese real estate holding company on the ground that the incorporators were not citizens. The two Japanese brought mandamus proceedings in the state supreme court, declaring they had been naturalized in the superior court of Pierce county. On May 20 the supreme court ruled that Japanese could not become citizens.

The attorney general said the state would not be represented at the preliminary hearing in Washington, but would wait to find out whether the highest court would try the case on its merits. If the matter is reviewed, he added, the supreme court will be passing on the question of Japanese citizenship for the first time.

PLAN RUMORED TO ATTACK AUTO CONTEST

CECIL WITHDRAWS MANDATE DEMAND

South Africa Representative Thinks American Claims Can Be Satisfied

GENEVA, Sept. 20.—Lord Robert Cecil, representing South Africa, after indicating to the political commission of the league of nations assembly today that he thought the American claims an mandates could be satisfied, withdrew his demand that the terms of the A and B mandates be fixed at once.

It was pointed out that the A mandates were so tied up with the treaty of Sevres that it would be impossible to proceed immediately to adopt them. But Lord Robert insisted that the B mandates concerning the former German-African colonies could be fixed at once.

H. A. L. Fisher of Great Britain said that the council could not accept a suggestion by the assembly to adopt the mandates as proposed while negotiations were going on between the United States and the four mandatories. Lord Robert replied that it was a question of taking into account the suggestions of the United States. The council could boldly modify the mandates, he said, in the sense indicated by the United States and give the territories the status of which they were so much in need. Mr. Fisher insisted that the council would refuse such a suggestion.

After Mr. Fisher, Great Britain, M. Raynal, France, and M. Boulet, Belgium, had assured the commission that their governments would give the mandates commission every facility for scrutinizing the administration of the territories under mandate, Lord Robert withdrew his resolution, and the commission adopted the recommendation that the assembly ask the council to insist that the powers push negotiations with the United States and reach an agreement at the earliest possible moment.
