Committee Members of Unemployment Conference Prepare Presentations

PUBLIC HEARING CALLED

Data Submitted to Show Causes Back of Present Industrial Conditions

WASHINGTON, Sept. 27.—Unanimous agreement on emergency relief measures on the part of the manufacturers to be recommended to the national conference of unemployment was reached today by the committee in charge of this branch of the employment problem.

The committee's report is to be submitted to the conference for adoption when it reconvenes October 5. It was understood, however, that the report would suggest some rearrangement of working time to permit of a more

numerous employment of workers by the manufacturers.

Committee Progress
The manufacturers' committee, the first to complete its emergency recommendations, includes in its personnel Charles M. Schwab of New York and Samuel Gompers.

Other committees were said to be rapidly completing their recommendations. The committees on state and municipal measures and public works was understood to have about finished a report which would suggest greater activity by communities and municipalities in public works with special attention to increased road construction as a means of giving employment.

Labor Largely Responsible
The first public hearing of the conference was held today on an employment statistics and witnesses presented data. Labor's unreadiness to accept work at reduced wages was assigned as a contributory cause of the unemployment situation by Russell F. Phelps, director of statistics of the Massachusetts labor department, while H. D. Jacobs, president of the ex-service men's employment bureau, declared the problem among former soldiers was to find positions for the great percentage of illiterate and unskilled men, too weakened from their service for hard labor.

Reggie—I'm off to Europe next week. Can I do anything for you over there, dear boy?
Tom Blunt—No, going 's quite enough, thanks!—Boston Transcript.

QUICK MOVING ARMY OBJECT

Rapid Mobilization of Four Million Men Possible According to Plan

ECONOMY CONSIDERED

Full War Strength of Officers May Be Assigned to Organized Reserves

WASHINGTON, Sept. 27.—Comprehensive plans for creation of the organized reserve of the army on a basis to permit quick mobilization of more than four million fighting men have been prepared by the general staff. An outline of the preliminary steps was made public today.

The scheme, which was developed under authority of congress, contemplates virtually no expenditures in its present stages, yet in the opinion of Major General Harbord, acting chief of staff, would furnish frame work for mobilization of the nation in arms in a matter of weeks.

Ample Reserves Provided For
Twenty-seven infantry divisions of the reserve are provided for, numbering from the 76th to the 104th, preserving both in number and geographical location where each originated, the 16 national army divisions. The same territorial distribution as to armies and army corps areas is followed as in the regular army organization and the structure of the na-

tional guard. The result will be to establish the three arms of the national land defense forces on an identical basis with control decentralized from Washington for all three into the hands of the corps area commanders.

Rapid Work Necessary
The first step perfecting the organized reserve will be assigned from the present officers' reserve corps to the 27 reserve divisions the full war strength complement of officers, in all more than 46,000. It is expected this can be completed by July when creation of the non-commissioned enlisted personnel, involving the selection of many thousands of men and their assignment to regiments, will be undertaken.

It was pointed out that the organized reserve can be employed only by specific act of congress.

Delays To Be Avoided
At present there is no thought that the divisions ever will be called out except in a national emergency and the plans were prepared only to prevent delays and huge emergency expenditures in mobilization. The active military force remains the skeletonized regular army backed by the national guard subject to constitutional limitations as to its employment as the second line of defense and with the organized reserve as the third and ultimate line.

MONEY MARKET IN CONFLICT

Erratic Condition Observed In Wall Street; Stocks Are Reactionary

NEW YORK, Sept. 27.—

Extremely conflicting conditions prevailed in the financial markets today. Stocks were dull and frequently reactionary, while bonds were active, some of the liberty and victory issues mounting to new records for the year. These contrary movements were rendered more obscure by stiffening of money rates. Further cross-currents in foreign exchange and industrial conditions, including the less promising labor outlook.

Heaviness of foreign bills, especially Mexican petroleum, and pressure against standard rails with Pennsylvania as the main objective, helped to unsettle the general list. Steels, equipments and various specialties which owe their rise or fall to pools, also were lower in the absence of support. Sales, \$35,000 shares.

Call money opened at 5 percent, but an unusually heavy inquiry forced the rate to 5 1/2 percent at midday, holding at that figure for the remainder of the session. Time loans running into next year were made at 5 1/2 percent.

The fall of marks to a level where they were represented at a value of 8-10ths of 1 cent, affected central European remittances. Austria, Polish and the Czech-Slovakian exchanges established minimum quotations. Sterling was firm, French, Belgian and Italian bills eased, but Dutch and Swedish rates rose substantially. Far Eastern exchanges again were noteworthy for other decline in the Japanese rate and the further advance of bills on Shanghai by 1 1/2 cents. All bonds were carried forward in the first half of the session by the extensive demand for liberty and victory issues, but the movement was checked later when realizing sales caused general reactions from best prices.

Rails and industrials became irregular and most foreign issues

New York Americans Game and a Half to Good, After Game Yesterday

NEW YORK, Sept. 27.—

The lead of the New York Americans over the Cleveland world champions was cut to a game and a half today when the Yankees lost while that of the New York Nationals was shortened to three and a half games through a Pittsburgh victory. The Yankees must win three of their four games to clinch the pennant and the Giants two of their four. If the Yankees break even Cleveland would have to win all its four games to finish first. Pittsburgh faces the task of winning all its five games while New York is losing four.
