As for prices, while it has varied from 91 cents to \$1.05, Mr. Geiser says that he considers 95 cents a fair average for the season. Government reports, heavy orders coming in to Portland shippers and bears and bulls in the wheat market are responsible for varying prices, he says.

**Age Must Be Given**—Although some prospective bridegrooms are rather reluctant to give the ages of their prospective brides when calling for marriage licenses, County Clerk Boyer has ruled that the age must be given and that the term "legal" does not comply with the law. He cites the law on those who attempt to hold back on giving ages referring them to the general laws of Oregon for 1919, in which it is plainly stated that in making out marriage licenses, all blanks must be filled as furnished by the county clerk by the state board of health. One space is left for the age of the bride, and the return cannot be made legally unless this space is given, wherein it calls for the age of the prospective bride.

**Revenue From License**—The county of Marion derives a fine revenue from marriage licenses issued. Every prospective groom who steps up to the marriage license counter, provided he secures the license, pays \$3.25 before he is handed the permit. So far this month there have been 52 licenses issued, and the revenue amounts to \$169 for the county. Incidentally, it might be said that business was never better, and that while the month of June has heretofore held the marriage license record, the present month promises to break all June records.

**For Rent**—Front office room. Apply Gray Belle.—Adv.

**Boys Permitted to Hunt**—Boys between the age of 14 and 18 years are given legal permit to hunt, provided they secure a hunter's license from the county clerk and are able to pay the required amount for a license, \$1.50. So far this month hun-

**To Hold Moot Court**—James Crawford, who was recently appointed supreme court reporter, will preside at the moot court of Willamette university to be held Tuesday evenings of each week in the circuit court room, beginning in about two weeks. Although Crawford will make his home in Portland, on account of the supreme court handing down its decisions on Tuesday of each week, he will be obliged to be in Salem on those days, and will stay over to preside at the moot court.

**Card of Thanks**—We wish to thank those who so kindly sent the floral offerings, and also those who so willingly helped in other ways, in connection with the burial of my husband, Cyrus Harvey Green. Mrs. Mary E. Green, Mabton, Wash.—Adv.

**May Form Rifle Club**—In the interests of a Winchester boy's rifle club, C. D. Bartlett was in the city yesterday, to be referred to T. E. McCroskey, who has for several years conducted a rifle club in connection with the Christian church Sunday school. Mr. McCroskey figured out several years ago that a boy might attend Sunday school with more zest if he had some other inducement besides attempting to memorize a lot of Biblical names of old time warriors. He organized a boys' rifle club in the Christian church Sunday school and solved the problem. If the boy doesn't attend his Sunday school class regularly, there is nothing doing for him when it comes to the rifle club. It works fine, Mr. McCroskey says.

Mrs. Alden—Did you see anything cheap at the bargain sale? Miss Seymour—Yes; a lot of husbands waiting around for their wives.

# WHEAT MARKET IS SHAKEN UP

## Fresh Declines in Chicago Attributed to Conditions in Europe

CHICAGO, Sept. 28.—Uneasiness regarding European conditions had much to do today with bringing about fresh declines in wheat. The market closed heavy 2-1-4 to 2-5-8 net lower with December \$1.20 7-8 to \$1.21 and May 1.25 1-4 to 1.25 1-2. Corn lower 7-8 to 1 7-8 and oats 1-2 and 5-8 to 3-4. The provisions outcome varied from 5 cents decline to \$1.75 advance.

With a spectacular new break in the value of the German mark and further evidence of a great strain in the British unemployment situation, wheat traders showed apparent lack of confidence in the buying side. Reports were also current that Switzerland had decided to obtain all her cereal supplies henceforth from Rumania instead of this country because of the difference of exchange rates. Then, too, the cut in ocean freight was said to have depressed quotations. A 2 hard winter wheat, at Liverpool 11 cents below the cost of replacing. After the close, gossip was circulated that 2,000,000 bushels had been worked to Europe including presumably 1,300,000 bushels of Canadian wheat for Greece.

Corn fell with wheat and September touched the lowest level since 1912. Oats followed the downward slide of other cereal.

Exhaustion of stock of pork here led to continued anxious bidding from shorts, and to a sharp new jump in pork quotations. Other provisions, however, were easy.

ment. Weak lines which have shown their inability to "live" under rate schedules profitable to stronger roads, would be attached to systems more advantageously situated, but it was announced that in every case the effort was made to maintain the identity of existing strong systems. Hearings will be called by the commission to discuss the proposed consolidations. Since, under the law, no plan can be adopted which has not been given approval of the individual lines affected as well as that of the commission, it was expected discussion would be prolonged and that a number of modifications from the plan would be suggested.

In the main this plan follows the line of consolidations worked out under the direction of the interstate commerce commission by professor W. Z. Ripley of Harvard, but some changes were made and alternatives proposed.

**Liberty Issue Trading Dominates Bond Market**

NEW YORK, Sept. 28.—Trading in Liberty issues and particularly in Victory notes, again dominated the bond market today. Dealings approximated \$12,000,000, or almost three-quarters of the day's total operations on the stock exchange. Heavy transactions in private sale also were reported.

Most of the liberties closed at trifling losses, but Victory 4 1/2% repeated their recent maximum of 99.50 on sales aggregating \$5,800,000 par value.

Included were individual lots ranging from small amounts to \$200,000, \$500,000, and one block of \$1,100,000 which sold at 99.48.

Private dealers in United States bonds claimed much of the renewed demand for these securities came from investors of moderate means.

**Public Buying Power to Increase, Says Meyer**

CHICAGO, Sept. 28.—Buying power of the people of the United States will advance, and may reach a normay but not a post-war level within six months is the opinion of Eugene Meyer, F. I. of the war finance corporation. Mr. Meyer conferred with representatives of eight states called today by the farm bureau federation. He is returning to Washington from a trip extending to the Pacific and in which he has met the business men of practically every state of the middle west, the coast and a part of the south.

His statement came after a two-hour session in which Mr. Meyer presented the financial conditions of the country to his auditors, the possibility of increased credit where needed, and the lines, which if followed, might result in the largest industrial advance.
