

Farmer Youths and Girls Who Do Nothing in Particular Are Those Who Are Buying Marriage Tickets

Attention, girls. It is the farmer boy who is doing the marrying. The statement is based on marriage licenses issued during September by the county clerk's office.

Of the 58 licenses issued last month, 14 were applied for by men who gave their occupation as that of farming. That is, one out of every four men who wanted to marry, was a farmer.

Five of the men applicants gave their occupation as that of clerk, while four out of the 58, were mechanics.

Four men gave their occupation as that of salesman. Three laborers were given marriage licenses, and also three students.

Only two plumbers came to the marriage license counter, and only two bookkeepers were given license to marry.

Of the following occupations, there was only one each who applied for marriage license: teacher, surveyor, fruit grower, printer, garage business, stockman, mill man, gas engineer, assistant cashier, grocer, stage driver, auto mechanic, logger, traffic officer, draftsman, metal polisher, timber worker, general merchandise, and dentist.

It isn't the girl who is working that is doing the marrying. It is the girl who is staying at home.

BEARCATS ARE CLUB'S GUESTS

Willamette University Football Players Entertained Yesterday

Football players of Willamette university, guests at the Monday noon luncheon of the Salem Commercial club, were given to understand that the citizens of Salem are backing them and expecting great things of the team.

The boys were told that the great showing made in last Saturday's game was a source of satisfaction to the citizens of Salem, who are now looking to the team for good work the coming season.

Following the luncheon, Coach Bohler was called on for a few remarks. Referring to last Saturday's game, he felt that the home team made a great deal of work, especially as the University of Oregon coach used six men who were on the team last year.

Coach Bohler also expressed the opinion that the Oregon team was somewhat surprised at the showing that Willamette made.

T. B. Kay called upon by Manager McCroskey to respond, said that he was agreeably surprised at the fine showing the Willamette football team had made last Saturday. He said he was pleased to see the boys in the home field as that indicated the great interest the city is taking in the university team. With the people of Salem working with the university, Mr. Kay believed a great football team could be built up with the present Willamette players.

Captain Zeller of the team, said that the spirit of the boys was fine and that he hoped to build up a strong team, and that he expected to show O. A. C. a good time when the university and O. A. C. played Saturday, October 15.

Dr. Carl Greg Doney, president of the university, said the boys had done wonderfully well, considering the fact that they had no gymnasium for training. He complimented the team on having the right spirit and morale.

Coach Bohler said he hoped to play the Thanksgiving game on the home field. The next game will be October 15 with Oregon Agricultural college, then on November 5, with Pacific university and on November 11 at Walla Walla with Whitman college.

EVERYBODY ASKS ABOUT OREGON

W. W. Moore's Recent Trip East one Big Reception After Another

"They all want to come to Oregon, and if they cannot come next year they intend to make it during the big exposition year," declared W. W. Moore, who has just returned from a month's visit with his wife and family to Denton, and his old home town, Hutchinson, Kans.

In Kansas he found business conditions not very good, due to the fact that a drought caused a partial failure of grain crops.

Looking into the prices of merchandise, Mr. Moore found that in many respects retail prices are cheaper in Oregon than in Kansas and this was especially true of furniture.

But the only thing his friends wanted to talk about was Oregon. Mr. Moore said they inquired as to general conditions in business, whether people could make a living on a small fruit ranch and what the people thought about the 1925 exposition. There was also much inquiry as to paved roads and school facilities.

"We are glad to hold a reception, telling folks about Oregon, and from what I heard, every other person in Kansas whom I met, was figuring on coming out here some time," Mr. Moore said.

LANE LAWYERS ARE ACCUSED

Edmundson, Against Whom Disbarment Action Is Brought, Files Answer

Leon R. Edmundson, formerly a practicing attorney of Eugene, against whom the grievance committee of the Lane County Bar association preferred disbarment proceedings recently, yesterday placed his answer in the hands of the supreme court.

After alleging that the charges preferred against him were based on bias and prejudice rather than fact, the attorney accused certain members of the grievance committee and bar association with violations of the liquor statutes. Also he charges that some members of the bar association had committed more serious crimes against serious property.

Edmundson alleges that he closed his office at Eugene in 1917, and has since lived in Vancouver, B. C.

The proceedings asking for Edmundson's disbarment were based partly on the accusation that he had been convicted of violating the prohibition statutes. The supreme court has not yet set the hearing.

Electric Pump Will Fill Large Tank at Chemawa

The old steam driven pump for keeping the tank at Chemawa filled with water, and also for keeping water about the grounds, will soon be replaced by an electrically driven pump, equipped with a 20-horsepower motor. The power will be supplied by the Portland Railway Light & Power company from Salem.

The company will extend the line on the Pacific highway to Chemawa. To do this, 22,000 feet of wire will be necessary, for although there are already wires all the way to Chemawa, it will be necessary to use three wires to supply the required energy.

It is understood that the installing of electric service will be a great saving in operating expenses, besides being a greater
