What Would You Do?

Roberts wants to borrow \$100 from you. You know he is minor, but you also know that he is married and needs the money to pay for groceries and other necessaries. The law states that contracts made by a minor for the maintenance of his family are binding, so you let him have the money, taking his note for payment. Were you safe in doing this?

We try to teach our students the things that are helpful in a practical way. A student in Commercial law would be able to tell you about the above

Court Room Cuspidor And Sawdust Box Are Absent From Public Places

CLEANLINESS NOTED

Feminine Sex Credited For Improved Appearance of Illinois Courts

CHICAGO, Sept. 14. - Woman's advent into public life is causing the gradual but sure exinction of the crock spittoon and the sawdust box in court rooms, according to the observation of Harriett Reid, first woman arbitrator of the Illinois Industrial commission, whose duties takes her to many of court houses in the state.

"The spittoon and its brother the sawdust box," said Miss Reid. "are becoming almost as scarce as the buffalo. Even the boldest and 'baddest' of men seem to have some hesitancy about exhibiting before women their fondness for the cud.

"My work as arbitrator, takes me the round of courthouses and city halls, and I note a decided change for the better. Public buildings are much cleaner than they were ten years ago. I attribute it to women's advent into public life.

"Women's clubs, interested in community service, are responsible generally for the women's rest rooms in courthouses. Women's influence is seen also in the better kept courthouse lawns and the settees scattered about.

"Frequency with which women visit city and county court buildings is also quite noticeable now. It is not unusual to come across women county officers, and at several of my hearings, women and girls from the various offices come in to listen to compensation

"I am often asked if I handle women's cases only. No, I handle all the cases in the particular vicinity to which I am sent, and the cases range from a pin scratch to a broken back, and from vaccination to seven year itch."
