Whether Sessions of Disarmament Conference Will Be Open to Press is Yet to Be Determined.

PRESIDENT HARDING EXPRESSES VIEWS

Americans Not to Urge Opinions Upon Representatives of Powers

WASHINGTON, Oct. 12 .- The American delegation to the armament conference held its first meeting today, effected a permanent organization, made general survey of the data gathered for its guidance and began discussion of the questions of policy that are to characterize the position of this government in the coming negotiations.

One of the first specific subjects to be considered was the problem of open or closed sesence and discussion is said to have revealed considerable sentiment for opening the doors whenever the entire body of delegates meet to register important decisions. Second Consultation Soon

Other and broader questions of olicy also were given detailed examination during the three and half hour meeting of the delegation, and tonight the delegates continued their questions and heard the views of President Harding at a White House dinner, It was indicated another consultation was probable early next

None of those at the meeting would reveal details of the deliberations regarding publicity for the conference sessions, but impression was given that this government might lay before the delegates after they assemble here on November 11 a proposal that all full sessions of the conference be open to the press.

Strings On Proposal. The recommendation, it was gaid, would not apply to the meetings of individual national delegations, committees or other subordinate bodies where the read decisions of the negotiations may be made, but would give publicity to such gathering as that which will mark the opening of the conference and to the sessions where formal notes on pending questions are taken.

The question, however, is one which the conference itself must precaution not to appear to arge its opinions on the representatives of other powers. It is pointed out that the plan for open sesions for the full conference is in accord with a resolution by Sentor Harrison, Democrat, Mississippi, now pending in the senate.
