**Girl Scouts Efficient Homemakers**

CANNING fruits and vegetables is just one way that the Girl Scout shows her ability as a homemaker. Unless you happen to be a parent or teacher of one of the 110,000 Girl Scouts in this country you probably don't know that homemaking is the favorite indoor sport of the Girl Scouts.

What is the most economical way to buy flour, sugar, cereals, butter and vegetables? How should they be kept in the house? What is the law in your community concerning the disposition of trash, ashes and garbage? How should you care for these things in the house? If there is no law what will you do with them and why? Under what conditions do germs thrive and remain in food? How can both be kept away? How should rugs, mattresses,

pillows, upholstered furniture, papered walls, and windows be cleaned? These are a few of the questions the Girl Scout must answer if she is to win the merit badge with the crossed keys which is the symbol of the homemaker.

As a canner she must submit specimens of her work showing the cold pack method, six jars of preserved fruit and six glasses of jelly. If she wins the laundress badge she must know how to remove stains of all kinds; how flannels should be washed; how to make starch and how to wash colored garments.

Besides all this there are badges to be won as hostess, as needlewoman, as milliner, as home nurse, child nurse and cook. By the time the Girl Scout has won all of these she can make her own hats and dresses, take care of babies and invalids and make pies "like mother used to make."

to justify the error is human. An angelic mind is exhibited by the person who rolls discarded chewing gum in a round ball and fires it into the street instead of cropping it on the sidewalk.

It is an amazing fact that 1,000,000 hats for women, no two alike, can be made for the same price as men's, which are all alike.

Sunny dispositions are delightful if they aren't artificial.—St. Louis Globe-Democrat.

**AN INSPIRED SUGGESTION**

A Hoosier traveling man had a hotel room next to one occupied by two teachers during the teachers' convention. He was very tired and turned in early. But hardly had he closed his eyes when the two teachers came in from the evening session. They discussed it, one of them partic-

larly being endowed with a voice commonly termed strident. Finally they finished with the subject and he, thinking they were through with conversation for the night, turned over again and once more began to think of slumbering. But after a little pause the loud talking began on another theme, namely, the hard life of a teacher. After she had discussed it from all angles, she said "If I only knew where I could succeed I would leave the teaching profession. Now what could I really do as well as I can teach school?"

Before the second teacher could answer her the long-suffering man rose to the occasion. "Madam," he shouted through the wall, "you could be an auctioneer."—Indianapolis News.

**Most Ailments Due to One Thing**

That is, impure, impoverished, Devitalized Blood.

Probably 75 percent of the ailments of the human race are due to an abnormal condition of the blood—thin, poor, anaemic.

This fact and the further fact that Hood's Sarsaparilla purifies, enriches and revitalizes the blood, by creating a healthy appetite, aiding digestion, promoting assimilation and thereby securing in full all the benefits of complete nutrition, must impress the thoughtful with the wisdom of giving this great medicine a good fair trial.

Hood's Sarsaparilla is greatest merit plus greatest economy, the most for the money. Get it today.—Adv.

**APROPOS OF NOTHING.**

When there isn't much else to do with money, you can save it. A farmer becomes accustomed to solitude—and it isn't so bad. A soft answer may turn away wrath, but it usually invites another question. Men notice that most men—in-

cluding themselves—are homely and wonder why. One is never too old to learn the things he was too conceited to learn when he was younger. Everyone reveres what is old except the man who likes to cut down big trees. To err is human, and to seek
