

METHODISTS TO BE AT DETROIT

November 15 to 17 is Date of Conference for World Work

MILLIONS ARE PAID

Many Groups Representing Church Activities Will Attend Conclave

DETROIT, Mich., Oct. 20.—The Rev. H. J. Wade, D. D., Corresponding Secretary of the Committee on Conservation and Advance of the Methodist Episcopal Church, Chicago, Illinois, announced

Words He Would Like to Say

MUSIC can sometimes tell the "sweetest story" more truly than words, if you have a Brunswick to play for you.

Call at our shop and hear the Brunswick Phonograph and Brunswick Records (especially the new Super-Features) and learn about our convenient payment plan.

Then tell "dad" you want a Brunswick, and why. Come in today.

MOORE-DUNN Music Store

Masonic Building State and High Streets

DEAN OF SKIPPERS AT 87.

Captain "Johnny" Lyon, who has commanded the ferryboat between Nyack and Tarrytown, N. Y., for almost half a century, will celebrate his birthday by working. He has ferried many celebrities across the Hudson and has followed the sea since he was fifteen.

ces a national conference of the church to consider its world wide missionary and benevolent interests to be held in the church house of Central Methodist Episcopal Church, Detroit, Michigan, November 15, 16 and 17.

Dr. Wade said, "The purpose of the conference is to assemble representatives of the Methodist Episcopal Church for three days of thanksgiving, prayer and council, a realized need and the church's reply. The conference will be held for information, inspiration and deepening of the spiritual life of the Methodist Episcopal Church. It is expected that through this conference that America and all the world will hear the solemn voice of a church reiterating its loyal devotion to Jesus Christ as the hope of the world, at a time when the spiritual forces of the world are aroused."

Progress Reviewed
The conference will review progress of the world program outlined in the centenary period of five years. To finance this work Methodists of the United States pledged in the Centenary Campaign \$108,000,000 payable

in five years. Dr. Morris W. Ehnnes, Treasurer, recently reported that over \$33,000,000 had been paid in the first two years.

The committee in charge has placed the conference at the same time with regular meetings of the board of home missions and church extension, the board of education, the council of boards of benevolence and meetings of the bishops. All seats at the conference will be assigned and reserved.

All Groups Invited
The following groups are being invited: Bishops, district superintendents, members of the council of boards of benevolence, boards, the editors of Methodist members and staff of constituent papers, five pastors and five laymen from each episcopal area in addition to members of the boards.

The fund for expenses of the conference has been given by men and women as testimony of their devotion and interest.

Dr. Ralph E. Diffendorfer, secretary, Department of Education Committee on Conservation and Advance, Chicago, Illinois, is executive secretary of the convention.

Plan Large Assembly
This will be the greatest gathering ever held except the quadrennial conference of the Methodist Episcopal Church. Three thousand Methodist leaders from all over the United States are to assemble at this meeting of national and international importance, and at the same time Michigan Methodists will assemble in the church building adjoining, and have the privilege of hearing these national leaders on world-wide problems and their solution.

INSPECTION OF BUTTER URGED

Better Butter Campaign Is Aided by Recent Show At St. Paul

WASHINGTON, D. C., Oct. 20.—In the past butter makers have often been in the dark as to the real quality of the butter they put upon the market, and frequently they feel they have not been fairly treated by commission men and others in the markets. But the creamery man is not without friends, for the United States Department of Agriculture offers him an inspection service that stands almost as a court of last resort. Any person who wants this service may have it by applying for it. The government inspectors examine butter in cans, in storage, or in stores, and they certify that they issue stand in court, but they seldom get that far, as they are almost universally accepted.

At the National Dairy Show held in St. Paul, Minn., October 8 to 15, butter inspectors demonstrated how they do their work, and exhibits that were prepared by the department proved the great advantages that come from marketing butter of high grade. On the face of it butter that scores 88 would not seem to be much inferior to that which scores 92, showing that the spread of price between those two grades is very large, far greater than the difference in cost of manufacture. As Poor Richard might have said, "A little better butter makes a much bigger bank balance."

"Huh!" sarcastically ejaculated young Yancey Yaw. "You wouldn't never ketch me being bossed around by a mere woman!"

"Young feller," grimly returned Goo Johnson of Rumpus Ridge, "when you've been married to one of 'em as long as I have you'll sorter get the icy into your head that women ain't so darn mere as you might think!"—Country Gentleman.

ITALY MEETS LABOR BOARD

Government Works Out Problem of Unemployed by Civic Projects

RESOURCES DEVELOPED

Public Utilities Built up, Pontine Marshes Under Drainage Plan

ROME, Sept. 20.—The Italian government is meeting its problem of unemployment by setting the idle men to work to develop to the utmost the natural resources of the country.

The sum of 700,000,000,000 lire (equivalent to about \$28,000,000) has been devoted to public works and about another 100,000,000,000 (\$4,000,000) has been assigned to land reclamation. These works are being carried out largely by private initiative and by consortiums, to whom the government grants subsidies and concessions.

Funds for these enterprises are obtained from banks. Another 150,000,000 lire (about \$6,000,000) will be spent

on improving the telegraph and telephone systems. And in addition, the government has authorized the laying of a submarine cable so as to obtain direct communications with Spain, Greece, Brazil, Uruguay and Argentina. Thus rendering Italy independent of foreign cable companies.

Power Developed
Development of Italy's water-power is proceeding rapidly. Before the war, she obtained about 935,000 horse-power from that source. Since then the total horse-power has been increased to 1,750,000.

To make this possible, 59 reservoirs and artificial lakes have been constructed.

Another important industrial project is the reclamation of the Pontine marshes which cover about 150,000 acres between Rome and Naples. This land heretofore has been submerged for five months each year by torrents which poured down from the neighboring mountains and stagnating on the land, converting that area into a dangerous fever trap.

Marshes Drained
The company organized with a capital of 50,000,000 lire to reclaim this section has been in operation about one year and has reclaimed about 7,750 acres and made them fertile wheat lands or farms for growing tomatoes.

The first industrial plant, a tomato paste factory, has been established in the Pontine marshes and later wood-pulp and paper mill will be erected.

An essential feature of the work is an effort to control malarial fever in which the company has engaged the foremost medical experts who are making successful progress in the cure of chronic malaria by means of X-ray treatment.

New Students Honored At Kimball Reception

About 100 students and friends attended a reception in honor of the new students at Kimball School of Theology Friday night.

Devotions were led by David Hassell. Welcome on behalf of the Kimball faculty was extended by President E. C. Hickman. Miss Esther McCracken sang and an address of welcome on behalf of the students was made by Aubrey Clark and response was made by Ralph Thomas. T. M. Blenkinsop sang a solo. A violin and piano duet was contributed by Mrs. E. C. Hickman and Erwin

G. Ranton. An address on behalf of the Luella Kimball club was given by Mrs. Aubrey Clark. Ralph Thomas gave a reading and

Dr. E. S. Hammond read a letter of greeting from William Nicoll, a former student who is now in Boston School of Theology.

Ask Some One Who Was There!

No difference

On Wednesday, at Grand Theatre, the New Edison proved that there is no difference between its RE-CREATION of music and the original music. It was proof that would be good in any court of law.

If you did not attend, take the trouble to find out exactly what happened. Investigate all the details of this drastic test. It was given particularly for the music-lovers of Salem—so that they might know, through their own personal experience, that there is a phonograph which can give them the exact performance of the living artist.

Helen Clark, famous contralto, made the test. She stood on the platform, beside the New Edison. She sang. In the midst of her song, she stopped singing.

The New Edison took up the song, and continued it alone. Thus, they alternated—singer and phonograph.

The audience had to watch Miss Clark's lips, in order to be certain which was singing. The New Edison's triumph was complete and spectacular.

A similar test was made by Joseph Phillips with the RE-CREATIONS of his baritone solos. Again the same result—there was no difference between RE-CREATED voice and living voice.

Remember that no other phonograph can sustain this test! Remember that you want a phonograph which does! And remember that the New Edison did it—right here in Salem.

The NEW EDISON

"The Phonograph With a Soul"

You can have, in your own home, the exact kind of instrument used in the test. This was an Official Laboratory Model—out of our own stock. Select any Official Laboratory Model in our store, and we will guarantee it to sustain the test of direct comparison,

and to do everything that was done in the test at the Grand Theatre.

Ask us about our Budget Plan. It brings you this New Edison for a small payment. Any man or woman, who loves music, can make a gentleman's agreement with us.

"Used Car"

Only Refers to Ownership-- Not Condition

EVERY AUTOMOBILE that passed your house today is a Used Car and you will be just as satisfied as the most enthusiastically satisfied of those drivers if you buy your USED CAR from us.

NOT ONLY SATISFIED, but you'll be proud. When you tell your friends where you bought it, you won't have to apologize for buying it from us. Just answer "..." and that settles it.

"SECOND-HAND" only refers to its ownership and implies nothing as to its condition, but when you say "..." your friends will know it's a good car. It's "third-hand" in fact—"second-hand" with us, "third-hand" with you. And because it's passed through our hands, you'll deserve to be proud. Its pedigree is established.

PRIDE OF OWNERSHIP is the greatest joy of motoring. To be obliged to tell your friends that you dragged the cad off some vacant lot or "bought it for a song" from some stranger takes the edge off your keen sense of pride.

IF YOU BUY IT from some sidewalk vendor who speaks one word for the car and two words for his commission, you'll still be in doubt, and when something happens when you're out with friends, you'll apologize for your judgment.

BUT, IF YOU BUY a used car from us, you'll say "Never mind, the Gingrich folks are behind it. They are reliable people."

YOU WILL NOT PAY us more than it is worth—you won't pay a long bonus to buy it on time—and we will see to it that you won't go broke running it. We don't sell that kind.

WE HAVE A LARGE selection of used cars in all makes and models. Why not come in and let us show them to you.
