Miss Marguerite Cook of Willamette university is in Portland for an over-Sunday visit.

Ben Sheldon of Medford, fruit grower and legislator, was in the city yesterday, appearing before the state highway commission.

Z. J. Riggs and F. G. Brock went to Portland Saturday evening to attend a session of Al Kader Shrine.

C. H. Grossett of Portland, a member of an engineering firm of that city, was in Salem yesterday.

Closing Hour Discussed By Business Men's League

The closing of retail stores in Salem at 6 o'clock every business day in the week was advocated at a recent meeting of members of the Salem Business Men's league. In order to secure a general expression of opinion, a committee was appointed to interview merchants. This committee consists of P. B. Keamy, S. K. Kafoury and J. W. Chambers, Jr. The special object in bringing up the matter of closing is to secure uniform closing among retail stores for Saturday evenings. As to the hour of opening stores, it is understood, this will be left to each individual merchant and no effort made to secure uniform opening hours.

The question as to whether retail stores will close Armistice day, Friday, November 11, was discussed at the meeting but no definite action taken. The day is a legal holiday declared so by the last legislature. This closes all banks, state institutions and county offices. No school will be in session in the county on Armistice day.

VOLIVA DECRIES MODERN LORE

Leader of Zion City Asserts That Earth Has No Motion and Is Flat

SCIENCE CALLED FAKE

Instances Cited by Religious Head in Effort to Substantiate Views

CHICAGO, Oct. 16.—The story of "The Village that Voted the Earth is Flat" has an earnest adherent in Wilbur Glenn Voliva, overseer of Zion, the religious community that Alexander Dowie founded at Zion City, a little to the north of Chicago. Declaring that there is no proof whatsoever of the sphericity of the earth or that the earth has any motion, Overseer Voliva says he is "prepared to refute modern astronomy, scientifically as well as from the standpoint of the Bible." Here are some of the points he advances: "All standing water is level. Let any one disapprove it if he can. They cannot disprove it. This is conclusive evidence that the Pythagorean-Copernican system of the sphericity of the earth is false.

Light Visible Many Miles. "A man stood at Kingston, Jamaica, and saw the lighthouse at Havana Harbor 82 miles distant, which is another conclusive proof that the sphericity of the earth is a fake.

"The midnight sun has been seen hundreds of times, but it would be absolutely impossible to see it on a sphere. You would have to look through hundreds of miles of earth and rock. "There is a railroad in South America 2000 miles long which is almost perfectly level. The Suez Canal is a hundred miles long without locks and with scarcely any rise at all. Where is your curvature of the earth? There is none.

"No higher critics and modern believers in the Copernican system of astronomy laugh at the flood and say that such a thing as a flood could not occur on a globe or spherical earth—and I agree with them. They are perfectly right. That is what the devil intended when he invented the modern astronomical theory—to destroy the Word of God. "They say that eclipses are caused by the earth passing between the moon and the sun, causing the shadow; but how can you have an eclipse with both the earth and the moon above the horizon? It is a matter of record that there have been a number of eclipses with both the moon and the sun above the horizon. No one knows what causes eclipses.

"Did God Almighty create the earth and then create a light to light it up and put it 92 million miles distant and make it a million times larger than the earth? What kind of a fool would build a house up in Kenosha and erect a light a hundred miles from it to light up the parlor? "They say that science is not speculation; but if science is true, then there can be no conflict between it and the Word of God—but when it comes to the Word of God, they have not a leg to stand on. I will take the Word of God and down any modern astronomer on the face of the earth and dispose of him in less than 30 minutes."

Church Workers to Give Home Products Banquet

SILVERTON, Or., Oct. 22.—(Special to The Statesman)—D. C. Freeman, manager of the Oregon Products association, of Port Yoke Bearers class of the Christian church to give an address at the banquet to be given next Thursday evening from 6:30 to 7:30. products and all the foods served have been given through the local stores. The proceeds of the dinner will go toward the expenses of the new parsonage for the Christian church.

Third Market Day at Silverton is Success

SILVERTON, Or., Oct. 22.—(Special to The Statesman)—The third market day at Silverton occurred today and was as much of a success as the second. The streets of Silverton were crowded with cars and the stores with shoppers.

Dallas is Defeated by Silverton High School

SILVERTON, Or., Oct. 22.—(Special to The Statesman)—Silverton high school football team won a game over Dallas today with a score of 2 to 0. The game was played on the local gridiron.

THE WINDUP.

At the school examination the examiner asked one child:

"What are the products of our Indian empire?"

The unhappy infant began nervously to reel off the list she had got by heart:

"Please, sir, India produces curries and pepper and rice and citron and chillis and chutney and—and—and—and—"

"Yes, yes," said the examiner, impatiently. "What comes after all that?"

Another infant's hand was raised.

"Well, you tell her what comes after that?"

"Please, sir, India-gestion."— Tid-Bits.

The recent advance in prices of Liberty bonds is pleasing to the holders of the government securities. And it is approaching the point when the declaration that he "could get it back any time he wanted" employed in the bond selling campaign, is about to be made good. Until they reach par the investor can get back only part of the money he invested.

Applied Science. Miss Perkins, the Sunday school teacher, besides having little Willie Donn among her pupils, is also a friend of his mother. One day, while calling on the mother, Miss Perkins asked why William had not attended Sunday school for several weeks.

Much to her astonishment, the mother replied, coldly: "I have kept him away from your class, Miss Perkins, because he learns wicked things there."

"Wicked?" gasped Miss Perkins. "Why, whatever do you mean?"

"Well," explained Mrs. Donn,

"the last time Willie went to Sunday school you taught him that we are made of dust. When he came home he nearly frightened the life out of his father and myself by trying to draw his baby sister into the vacuum cleaner. Exchange.
