

### STOCK PRICES ARE ADVANCED

Lower Discounts Announced by Federal Reserves Sole Influence

NEW YORK, Nov. 3.—Comprehensive and substantial advance of stock prices today were influenced solely by the lower discounts announced by nine of the 12 federal reserve banks and carried in by the bank of England. Financial interests generally regarded this as evidence that de-

flation had made further marked progress and that easier credit conditions soon would prevail in the world's leading markets. Then local money market reflected these phases for a time, the five per cent opening for call loans soon being cut to 4 1-2 per cent. Later, however, on demand for funds, the rate rose to 5 1-2 per cent, that figure holding at the close. Bonds made a better showing relatively than stocks, most of the several liberty series recording highest prices of the year with victory 4 3/4's which rose to par on extensive accumulation. Oils, steels, motors and equipments, more or less as named, were in the forefront of the day's operations at net gains of one to five points, Mexican petroleum again being the feature. A dull boy must be a sharp disappointment to his parents.

### ACOSTA WINS BIG TROPHY

Field of Five is Defeated in Race With Heavier-Than-Air Craft

### HARTNEY IS INJURED

Harry Eibe, Chicago Parachute Jumper, Drowned When He Lands in River

OMAHA, Neb., Nov. 3.—Bert Acosta of New York won the annual Pulitzer silver trophy race for heavier-than-air craft here today, defeating a field of five other contestants, out of whom, H. E. Hartney of New York, was injured when his plane crashed near Loveland, Iowa. Circling the race course from Omaha to Loveland to Calhoun, Neb., and return five times, Acosta covered the route of about 150 miles in 52 minutes, 9.2 seconds, or at the rate of 176.7 miles an hour, compared with last year's record of 178 miles an hour, made by Capt. C. C. Moseley, representing the Aero club of Southern California on a Long Island field. Coombs Is Second. C. B. Coombs of New York was second, making the course in 54:07.6. Lieutenant John A. MacReady of McCook field, Dayton, Ohio, holder of the world's altitude record, was third. His time was 57:20.6. Lloyd W. Bertaud of New York was fourth with time of one hour, one minute and 31.6. Trouble with his machine forced James Curran of Chicago to abandon the race. Mr. Hartney, who is executive secretary of the Aero club of America, was injured when his plane

was wrecked on a forced landing in a field. His right hip was broken and he suffered some internal injuries, the seriousness of which could not be learned tonight. Plane in Nose Dive. Trouble with the gasoline pump of his machine forced him down from an altitude of about 5000 feet, the plane making a nose-dive. He was thrown 30 feet clear of the machine which afterward was burned when a southerly wind blew it into a field. A hunter accidental threw a match into the wreckage. Mr. Hartney cried when he learned of his machine's fate. Mr. Hartney was taken to Loveland, given medical attention there, and later was brought to an Omaha hospital. Trouble with the pump on Hartney's plane delayed his start until late in the afternoon after all of the other participants had finished. His wife, who was on the field, tried him not to attempt to enter. Accident Last Lap. He was on the last lap when the accident occurred. To Acosta will go the Pulitzer trophy with \$3000 in cash, while second place won \$2000, and the third \$1000. Harry Eibe, Chicago parachute jumper, was drowned in the Missouri river when he landed in the stream after making a jump of 2000 feet. Eibe evidently realized that he was going to drop into the river unless he changed his course and frantically maneuvered in an attempt to save himself. Efforts to Save Futile. After alighting on the surface of the stream his parachute supported him as he drifted for about a quarter of a mile. Fruitless efforts to save him by volunteers in a rowboat were made, the fact they were unable to find any oars for a time delaying their efforts.

### SPEECH HEARD 3,000 MILES

Apparatus Tested 'Out Will Whereby Harding Will Be Heard Across Continent

### EVERY SYLLABLE CLEAR

Enunciation as Distinct as if Spoken Not More Than Dozen Feet Away

WASHINGTON, Nov. 3.—The call of a bugle, the chime of bells and the voice of man were swept 3,000 miles across the continent from San Francisco today to be heard out over a wide stretch of ground about Arlington national cemetery with every note, every vibration of the bells and every spoken syllable as distinct as though sounded a hundred feet away. Yet the sounds originated in San Francisco, the speaker stood on the roof of the Civic auditorium there and the music came from a phonograph record played in the building on which he stood. President Will Speak. It was the dress rehearsal of the mechanism by which President Harding's voice, as he speaks the nation's homage on Armistice day over the casket of America's unknown dead from France, will be carried to an audience waiting before the altars in New York and to another gathering in San Francisco. Telephone wires by the thousands of miles, linemen by the hundred, telegraph operators by the score were needed for the test as they will be needed on Armistice day. High officers in the army and the officials of the American Telephone & Telegraph company which is making this contribution to the memory of the dead soldier had no doubts of success after the first sentence spoken at San Francisco was clearly audible to them at a half mile distance from the amplifiers at Arlington. Every Syllable Heard. Similarly, there was a long reading of speeches from the stage of the amphitheater here to be carried out over the wires to San Francisco. The voice of a reader went on and on and the few who witnessed the test, first listened to this from every point about the great marble structure to a distance of more than half a mile. Every syllable penetrated clearly to every nook and hollow. Then the voice announced that the next voice would be spoken in San Francisco. The faint whir of the mechanism rose to a higher hum and a new, deeper toned voice announced that comes played on a phonograph record in San Francisco would come next. As clearly as if it were not a dozen feet away, the click of the phonograph mechanism came as the needle dropped on the whirring record 3,000 miles away; the familiar introductory scrape began, then the bells boomed out waking echoes in the cemetery, pealing over the thousands of graves. Trumpet Call Clear. The deep voice took up the task again with the announcement: "Spoken from the roof of the Civic auditorium in San Francisco." It read out words of President Harding's inauguration address, then announced the bugle call records and the clear note of a trumpet in stirring army calls swept over the field more distinctly heard than the notes of the bugle at Fort Meyer, across the road where the garrison was at parade.

### MORE HONORS GRANTED FOCH

Doctor of Laws Degree Conferred on Warrior By St. Louis University

### PERSHING ALSO GREETED

Banquet Served by Chamber of Commerce—Sixth Infantry Reviewed

ST. LOUIS, Mo., Nov. 3.—Hailed as one of our "old boys," officially honored by two universities, welcomed and feted by the citizens of St. Louis, Marshal Foch of France today was shown American hospitality as exemplified in the middle west. Sharing these honors was General Pershing, introduced to his fellow "buddies" of the American legion as "Black Jack." From early morning until late tonight the city poured forth its hospitality to the two warriors. Both expressed keen delight at the reception. Honors Affect Warrior. Marshal Foch was visibly affected with the bestowal of the honorary degree of doctor of laws on him by St. Louis university, Catholic institution. A few minutes previously Archbishop J. J. Glennon had presented him with a commemorative medallion on behalf of the fourth degree, knights of Columbus. Twelve-year-old Elizabeth Fusse received a kiss on both cheeks from Marshal Foch when she presented him with a large bouquet on behalf of the International Federation of Catholic Alumnae. A banquet tonight by the Chamber of Commerce concluded St. Louis' welcome. The marshal and his party, which included Hanford MacNider of Mason City, Ia., new national commander of the American legion, was to leave after midnight for Indianapolis. General Pershing left for Nashville. Infantry Reviewed. A feature of the day's entertainment was a review of the

Sixth infantry, just completing a 900-mile hike from Camp Jackson, S. C., to Jefferson Barracks, Mo. The regiment reached East St. Louis two days ago, but was held there to be given the opportunity of passing in review before its French and American commanders.

### Another Effort is Made In Behalf of Jack Rathie

The American Red cross at Idaho Falls, through its secretary, has shown an interest in the case of John L. Rathie, now under sentence to be hanged. The secretary writes Red Cross headquarters in Salem, suggesting that the matter of a pardon for Rathie be taken up, and that efforts be made to secure a writ of

habeas corpus in order that the supreme court may pass on some legal points to be involved. The claim is made by the secretary of the Idaho Falls Red Cross, that the present law permitting executions in the state may not be constitutional, and that the law was not legally passed in the statute book. Reference is made to the constitutional convention of 1857 and also to the fact that certain legal points regarding executions have never been raised. Rookie Sentry: "Halt! Who's there?" Voice: "Private Stock, Company C." Rookie Sentry: "Advance Private Stock, and be sampled." American Legion Weekly.

### DEPOSITORY NOW BURGLAR PROOF

Electric Alarm System is Installed at Salem Bank Commerce

The yegg man with his burglar kit or the professional safe breaker with his acetylene torch and drills, may as well side-step the Salem Bank of Commerce, as the bank has just completed the installation of an electric device which will alarm half the town before the burglar has made even half a start. Besides electrifying the vault doors and soundings a loud alarm should any attempt be made to enter, the electric device gives physical protection by two heavy locks which will not open for six hours after the attempted robbery. For protection in case of daylight holdups, the bank is wired in such a way that a button may be pressed from different parts of the interior and the loud gong sounded. One gong is over the bank's vault and the other just outside the bank's entrance. As an addition precaution, each of the gongs is so wired that if any effort is made to tamper with it the alarm is turned on. The door of the bank's vaults are so lined that any attempt of a would-be burglar to burn through would immediately set off the loud alarms, which can easily be heard at night as far as the police station. Considering the great number of bank robberies recently, the Salem Bank of Commerce has installed this electric alarm as an additional protection to its patrons and especially for safety boxes. Hence with push buttons in different parts of the bank, and devices installed to ring the gongs should any attempt be made to enter the vaults, the yegg man or the high class safe blower will find himself in extreme difficulty. The United States death rate for the past year shows a slight increase. Whether or not this is due to prohibition or the habit of so many Americans drinking the deadly hooch is quite uncertain.

### TITLED WOMAN WHO IS AMERICAN'S BRIDE TO BE.

Princess Xenia, who will soon marry William Leeds, heir to tin plate millions.

### Bet your bottom dollar!

CHESTERFIELDS "satisfy" —fully and completely —like a long, cool drink "satisfies" when you're thirsty —but unlike anything you ever experienced in a cigarette before. A better flavor, yes; a more pleasing aroma, yes; but more than that, a rounded out "completeness" that is wholly satisfying. That's how Chesterfields "satisfy." And the blend—that's why Chesterfields "satisfy." A blend of Turkish and of Burley and of the choicest of other fine home-grown tobaccos in a new combination!
