

CITY NEWS IN BRIEF

Time to Think of Turkeys—Thanksgiving day is only two weeks from this coming Thursday. The price of turkeys will be about the same as one year ago. According to the opinion of one buyer in Salem, the wholesale price this year will be from 43 to 47 cents for No. 1 turkeys. Live birds will bring 35 cents. It is thought that the market in Salem can be supplied by those living in the vicinity of Salem, or who will bring their turkeys to town.

Preparing for a Report—Members of the Marion County Realtors association who were appointed on a committee to investigate flax conditions, have not as yet found any farmer who ap-

pears willing to sign up flax acreage. It is thought this condition is due to the fact that those who did grow flax this year have received no money from the state, and have no assurance that they will be paid next year when the crop is delivered. Last year, at a meeting of farmers held at the Commercial club in November, 500 acres were signed up.

Woman, The Home Builder
Woman is the mistress of ideals and sentiment. On her depends the upbuilding of the soul qualities of the race. She cannot afford to let anything dull her health, her sensibilities or her refinement.
In the average run of the day's work in a home, the spine is subjected to many strains and jars and frequent spinal adjustments are a necessity if it is to be kept in healthful condition. They keep the bowels active, the kidneys functioning and the skin clear.
Chiropractic spinal adjustments remove the cause of diseases of the head, throat, lungs, heart, stomach, liver, kidneys and intestinal organs.

Here Is a Real Kick—Objections are being made to a statement recently published in a Portland paper. It seems that an antologist was assigned the duty of logging the road between Portland and Corvallis, 91 miles. When he approached Salem from the north, his log records that just before approaching the city there is a full half mile of bad gravel roads. It is acknowledged that the road between Corvallis and Southern Pacific crossing at the Daley Packing company to the Doe grocery store is bad enough, but it is not conceded that the distance is half a mile. It really is not much more than two average city blocks. Efforts have been made to have this bad strip of road paved, but resident owners have prevented. It is this short strip of road that will be left to itself should the viaduct be built on the Silverton road.

King Bing says it will be an interesting meeting.

DEVELOPMENT FOR OREGON
INDICATIONS point to unprecedented development in Oregon the next few years. The lumber industry is expanding into new channels, and new manufacturing interests are coming in.
If the 1925 Exposition goes through, Oregon will see an influx of new people to carry on this development, and occupy her vacant lands.
Let's work together so that the Willamette Valley will have its share of this coming prosperity. The United States National will do its part.
