You're Not Too Old To Learn
Many times we are asked this question—"Am I too old to learn?"
The will to "take hold" is not governed by age. The older person generally has a greater stimulus, a different outlook on life, and can see the usefulness of each part of our course.
We have had many older people and always find they are eminently successful in the field they ultimately choose. Call at the office and let us tell you about some of these older people.
