

TEACHERS URGED TO MINGLE MORE

Too Much School Room Not
Good for Profession,
Says Dr. Sisson

In speaking before the Salem Commercial club yesterday, Dr. E. O. Sisson of Reed college said that teachers should not let their minds be shut up in school work, but that they should mix more with their communities in order

to know more of the outside world. He also suggested that unless the teacher takes joy in his or her work, very little can be accomplished. He thought the schools were suffering because they were not in touch with the practical world. There are too many books and bookish ideas in the schools and not enough teaching of the realities of life, he said.

Dr. Sisson advocated the visiting by pupils of all local industries, and thought that such a thing might have been done more often if there was not fear of objection from parents.

He recommended the sending of telegrams to President Harding and Secretary Hughes, endorsing their stand on the armament questions now coming before the conference in Washington.

He said he had no patience with those who talk about the good old times. History proves there were no good old times, he said, and that the really good times are coming in the future.

Dr. Sisson has had an interesting educational career. He was a professor in Reed college, Portland, 10 years ago, when he was chosen as state commissioner of education for the state of Idaho. The state was undergoing a renaissance in education from the old days when a "teacher" was

performed the state superintendent.

Dr. Sisson filled the place admirably for four years, until he was called to take the presidency of the state university of Montana at Missoula. He remained there for four years, but the work was so largely administrative, while he had a passion for teaching, that he finally resigned, to accept the chair of philosophy at Reed college, where he now is.

Dr. Sisson is the author of some text books and brochures on educational problems that have been held in the highest repute among educators. He is working now on a book that he hopes to have exemplify his whole educational theory, as tested by the sternest of practical experience.

"If things go well, I'll be able to work it out next summer," says the doctor, with the rapt smile of the zealot.

Piece of Bullet Removed After Twenty-Two Years

SILVERTON, Or., Nov. 21.—(Special to The Statesman)—For 22 years E. Heald, a resident of the North Side addition of Silverton, has carried a splinter in his leg from a bullet. Mr. Heald was wounded in service during the Spanish-American war. The greater part of the bullet was located and removed long ago, but a piece of metal three-fourths inches long and one-fourth inches wide remained and it was not until this week that it worked itself out.

HOUSE ADOPTS TAX MEASURE

Measure Goes to Senate,
Where Leaders Hope to
Pass it Wednesday

11 REPUBLICANS BOLT

Mondell Estimated Act Will
Will Save \$3,216,000,-
000 at Once

WASHINGTON, Nov. 21.—The house today adopted the conference report on the tax revision bill.

The measure goes to the senate where Republican leaders plan to pass it by Wednesday night. The vote was 232 to 109.

Democratic Move Blamed
Before adopting the conference report on the bill, the house defeated, 202 to 141, a motion from the Democratic side to send the measure back to conference with instructions to the house managers to accept the senate amendment increasing the inheritance taxes. Forty-two Republicans voted for the motion while four Democrats voted against it.

Only 11 Republicans bolted on the final vote while six Democrats voted for passage. The Republicans opposing the bill were: Beck, Browne, Lampert, J. Nelson, and Voigt, all of Wisconsin; James and Woodruff, Michigan; Michaelson, Illinois; Ryan, New York; Sinclair, North Dakota and Keller, Minnesota. The six Democrats were: Campbell, Pennsylvania; Lea, California and Dupeau, Favort, Lazro and Martin, all of Louisiana.

Total Yield Estimated
In the four-hour debate which preceded the voting, Chairman Fordney of the house managers, said the measure in its present form would yield a total revenue this fiscal year of \$3,216,000,000, or \$46,000,000 less than the amount the treasury department had estimated would be needed. He thought this deficit could be wiped out by further economies by the various federal departments.

Tax Reduction Object
Representative Mondell, Republican leader, told the house that best estimates were that the bill would reduce taxes by \$70,000,000 the calendar year and by \$335,000,000 in the next calendar year. He praised the bill as a "splendid measure" except that it did not reduce the maximum surtax rate sufficiently.

Representative Garner of Texas ranking Democrat on the ways and means committee who made the principal attack on the bill from the minority side, declared that at the present rate of federal expenditures the measure will not raise the required amount of revenue by from \$600,000,000 to \$700,000,000 a year.

Bill Cited as Monstrosity
He declared that the measure was a "monstrosity," adding that a prominent republican senator had announced it would have to be rewritten within a year.

"It represents statesmanship gone to seed," he said.

Mrs. Harvey Miller Dies Suddenly in Heppner

(From Corvallis Gazette-Times of November 10.)

Lois Irene (Howard) Miller, wife of E. H. Miller, died at an where she has been under the care early hour Monday morning at the home of Mrs. George Alken, of a physician for a week past. Death came to Mrs. Miller very suddenly, though she had not been well for a month or more, and a post mortem examination showed clearly that death was caused by intestinal trouble.

Mrs. Miller had been a resident of Morrow county for the past two years, residing with her husband on the Miller farm a few miles out north of Lexington. Just recently the young people had moved to a place of their own. Mr. Miller having purchased the Laurel place a few miles east of their former home and they were just getting settled down to begin a useful life together when this separation comes. The blow is indeed a hard one on the young husband, and to the many friends Mrs. Miller has made during her short stay among the people here. The funeral will be held at the Christian church in this city on Saturday afternoon at 2:30, it having been put off to this date awaiting the arrival of Mrs. Miller's mother from her home at Winterset, Ia.

Lois Irene Howard was born July 11 1893, at Corydon, Ia., and when but a little girl removed to Salem, Ore., with her family and grew to womanhood in that city. For a number of years she was a Red Cross nurse and during the great war served ten months in France. During this time her future husband was also with the A.E.F. in France but they never met each other while over there. She was married on December 31, 1919 to E. H. Miller at Salem and they immediately came to Morrow county to reside. She had been a faithful member of the

Methodist church for many years but since coming to Morrow county she attended the Christian church with her husband and had greatly endeared herself to the people there because of her many excellent qualities.

Besides her husband she is survived by her mother, Mrs. Blanche E. Howard, of Winterset, Ia., and a sister, Mrs. Jay King, of Butte, Mont.

Favorable Report Made by County Y.M.C.A.

Paul B. Wallace, Luther J. Chapin, John H. Rudd, Ed. Socolofsky and A. L. Lindbeck motored to Woodburn Sunday afternoon to attend the quarterly meeting of the county committee of the Marion County Young Men's Christian association. Reports submitted by various department heads indicate a most satisfactory condition in the progress of the county-wide program which is now being prompted in Marion county under the direction of

John H. Rudd, executive secretary.

Because of the inclemency of the weather the social feature of the quarterly meeting, including a basket dinner following the business session, was dispensed with.

The next meeting of the county committee, will be held sometime in February at a place to be selected later.
