George Kraft, Montana,

Is Crowned Wheat King

CHICAGO, Nov. 30.—America wrestled the wheat championship from Canada tonight when George Kraft, Bozeman, Mont., was crowned 1921 wheat king at the International Grain and Hay show for which \$10,000 in prizes was awarded by the Chicago board of trade.

Kraft takes the title from J. C. Mitchell of Dahinda, Sask., who had held it for two years. Mitchell was runner-up this year. Kraft's wheat tested 63.6 pounds to the bushel and Mitchell's wheat tested 64.7 pounds, the smaller kernels giving greater weight.

The winning wheat was grown in the Gallatin valley of Montana from part of a prize sample grown by Seeger Wheeler of Canada. John W. Lucas, Cayley, Alta., again is holder of the grand champion oats sweepstakes. His new variety is called "victory". The oats weighed 46.4 pounds to the bushel. J. W. Workman of Maxwell, Ill., won the grand champion corn sweepstakes.

The international livestock exposition announced winners of the cups and ribbons offered by the Institute of American Meat Packers for the "best bred" carloads of livestock. ROTARIANS HEAR
NEWSPAPER TALK

John H. Miller of Chicago Says Pictures Big Asset for Dailies

Rotarians were given some information about newspapers yesterday noon at the Marion hotel. The speaker was John H. Miller of Chicago. He spoke on "Newspapers as a Public Institution." Papers with the greatest number of pictures are coming into a large circulation, he said. The picture daily of New York City has an especially large circulation and an English paper published by Lord Northcliffe, devoted almost entirely to pictures, has a record circulation. As to what could be done by example, Mr. Miller said the leading daily paper at Harrisburg, Pa. had flower boxes in all its windows, and this was followed by all the large buildings in the city doing the same, all in the way of beautifying the city.

Newspapers are now giving more attention to news for farmers, the speaker said. Many are devoting one special issue a week to matters of interest to farmers. The man who asks to keep something out of the paper is usually wrong, Mr. Miller declared.

FOCH GREETED
BY TACOMANS

Rain Causes Ceremonies to Be Transferred to Armory With Space Short

TACOMA, Wash., Nov. 30.—Thousands of Tacomans who had hoped to pack the Tacoma stadium this afternoon to welcome Marshal Foch of France, were disappointed through a downpour of rain that transferred the ceremony to the national guard armory with a limited capacity of 3,000 persons.

The other thousands, however, surrounded the union station as the train pulled into the city and lined the streets through which the parade marched, greeting the distinguished French soldier with cheers and waving hats and flags.

In addition to the city's welcome, Major General Charles H. Muir, rode with Marshal Foch as representative of Camp Lewis.

In addition to his address, during which he expressed gratitude to Hugh Wallace of Tacoma, former ambassador to France, the feature of Marshal Foch's visit was the planting by him of a memorial tree.

The special train left Tacoma at 5 p. m. scheduled to reach Portland at 9:30 p. m., it being announced that the stop at Centralia, Wash., would be curtailed to 30 minutes.

Harding Urged to Address Congress Next Week on Pending Legislation

WASHINGTON, Nov. 30.—President Harding has been urged to take a strong stand in his address to congress next week in behalf of pending tariff legislation. Confidence was evidenced among many congressional leaders today that the power of the executive would be put behind the bill now in the senate finance committee.

The suggestion was said to have been made to Mr. Harding that he recommend, in the interest of speedy disposition of the measure, elimination of the American valuation plan from the house bill and the writing of a tariff law on the basis of the method of invoice prices. He was understood to have been urged to ask congress then to include a provision empowering the executive to apply American valuation basis of assessing duties where, after surveys, it is shown added protection is needed in helping Japan and China to compose their differences.

The suggestion accepted by the Japanese and Chinese, was made after China had indicated her intention to bring the subject before the conference.

Meantime, in spite of the growing pressure of opposing views, American spokesmen declared their confidence that both the naval and Far Eastern questions would be brought to an amicable solution adhering to the principles laid down in the "5-5-2" ratio and the American "four points."

The Last of the Twelve

THE end of the year 1921 brings a sigh of relief from most of us. It has been rather hard sledding, and we look forward with anticipation to better times in 1922.

But whatever the season, or the weather, thrift is always in order, and the co-operation of a good bank always helpful. It is a valuable co-operative service offered you by the United States National.
