## FIRE DESTROYS JITNEY HOUSE

Silver Falls Timber Company at Silver Falls Small loss

SILVERTON, Or., Dec. 31.—(Special to The Statesman)—A fire that did \$1000 to \$4000 worth of damage and was believed to have been caused by a short circuit of electric wires, destroyed the Jitney house of the Silver Falls Timber Company plant here tonight. The fire was discovered about 11:45 o'clock and was extinguished within half an hour.

Each of four jitneys, a small car used in conveying lumber in the yards, was damaged to the extent of about \$200, and the building in which they were housed was destroyed.

Prompt action by the fire equipment of the plant and by the Silvererton department prevented more serious fire.

Practically all the residents of Silvererton, many of whom were in attendance at New Year parties, rushed to the fire. C. C. Woodward, manager for the company, was attending a function at the Ilwaco Country Club in Salem and was called to Silverton by telephone.

William Rodgers, W. O. Finson, Joe Yedick, Fred Huie, W. James, Frank Smith and Harmon Mowry were named in the secret indictments. All of these men are held in the Marion county jail.

Rodgers, Silverton logger, is accused of assault with intent to kill. On December 4 Rodgers shot Patrolman W. W. Hirtz when the officer responded to an emergency call said to have been caused by Rodgers' threats to harm a member of his family. ## SCHOOL TOSSERS TO BECOME BUSY

Salem Team to Begin Intensive Practice Under Direction of Sparks

They aren't all dead over at the high school basketball headquarters, as the suspicious soundlessness might indicate, but they have been waiting a lot for various reasons. However, the waiting will be over Monday when the team starts in for intensive practice under Coach Sparks.

The first game will be with the high school alumni, January 10 or 11. Salem high has had some flashy players in past years, who have not forgotten their cunning. They will set the youngsters a merry pace after this game, however, it is all dark, there is no schedule only to take all the scraps they can get, without knowing or caring in advance just whose they are.

The program of the year results from the taking over of the entire basketball business by the Oregon Athletic association, made up of the high schools of the whole state.

This association will make out the entire playing program for all the schools, but this assignment will not be made until about February 1.

Until that time, any high school may schedule games with any other in the association anywhere in the state, but at the February meeting, when the state is to be distributed, no team may go outside its own district.

Portland is not yet a part of the association, and the towns that will be in other districts are pretty far away to make these early games pay out. Any games played beforehand with the teams that are certain to be in the same district, may have to be duplicated when the schedule is announced, so there's a pretty small chance for other than irregular games until February.

All games have to be sanctioned by the association authorities. After the district series are run off, beginning in February, the winners in the districts will meet in the state tournament in Salem, to fight out the state championship. The plan as a whole is aimed to definitely locate the championships, and not leave rubber-like indeterminate limits for local champs to boast of and clutter up the air with loud titles and boastings.
