

NEXT TUESDAY IS BANK ACCOUNT DAY

Birth Anniversary of Benjamin Franklin to Initiate Thrift Week

Tuesday, besides being the birthday anniversary of Benjamin Franklin who invented saving as a national and personal beneficence, is also to be "Bank Account Day." The urge is to be made to start saving even a little money, and put it in the bank where it can grow and become a community as well as a personal asset.

Money in the banks means money for every form of industry, with more wages, better homes, better markets for everything that is raised or sold, and prosperity for every body who wants it.

Wednesday is "Make a Budget Day" with its urge to systematize accounts so that one knows what he is receiving and how it is to be spent instead of taking it in and letting it go with the bars down and the sky the limit.

Thursday is "National Life Insurance Day," to promote the saving of resources through life insurance. This is recognized as one of the highest, sanest forms of savings, and is fast growing into a business necessity—putting the load of the unusual on society as a whole, and relieving the individual of the burden he can not fairly carry. The day when insurance was held by many to be a tempting of providence, a dare to the Creator to bump one off, has passed, and the insurance day has a conspicuous place in any thrift campaign.

Friday is "Own a Home Day," with its appeal to the primal instinct to have a permanent home that cannot be taken away, and is one of the most important of the series. The sickening statistics of rented homes, and the misgovernment that always follows the alien-owned community, whatever the size of the unit, makes this one of the biggest social problems of the day.

Saturday brings a thought that never in the world was more appropriate than now—"Pay Your Bills Promptly Day," with its appeal for fellowship, for friendship, for charity to those who need anything whatsoever that a neighbor can do or give. Monday, the last of the series, is "Make a Will Day," a business-like setting of the house in order for the coming of the dark.

With the cooperation of the many societies that have voted to take part in the movement, Salem ought to turn over a new financial leaf. The first public demonstration will be the Kiwanis dinner, Tuesday noon, he Realtors and the Rotarians, later in the week, are to discuss thrift at their regular weekly affairs.

OREGON LOWERS U. OF W. GAINS

Andrew, Zimmerman and Rockney Star in Futile Effort to Avenge

SEATTLE, Wash., Jan. 14.—A desperate attempt on the part of the University of Oregon basketball team to avenge the 76 to 15 beating administered by the University of Washington team last night resulted in the Oregon men holding Washington to 48 points to their 19, in the final game of the two-game series here tonight. New Peace Dollar is on Display in Local Store

The new "peace" dollar of which there has been so much discussion, is now on display in the windows of Harry T. Love, on State street.

One of the noticeable features is that Liberty looks a trifle more up-to-date in the coil of her hair and the fact that she has her ears covered, bringing herself right up to the correct mode. There are more spikes in her hair and there is the usual inscription "In God We Trust."

On the reverse side of the dollar is the American eagle which really looks quite peaceful with its wings calmly folded. Instead of clutching spears, the peace eagle grasps a wreath of flowers, under which is the inscription "Peace."

The milling or edge of the dollar is much heavier than the average silver dollar. For this reason it was reported that some change would be made in the coinage. With the present heavy milling, the dollars could not be stacked with any amount of ease.

Taking the appearance in general, the Peace dollar is not so militant as the dollar in the past. The eagle is resting calmly and the hair of the Goddess of Liberty has been more carefully combed.

Thrift Week Will Be Well Observed in Salem

"National Thrift Week," starting Tuesday, Jan. 17, with the birthday of Benjamin Franklin, the original thrifter of America, is to be observed in Salem with the cooperation of practically every civic organization that can consider thrift a part of its curriculum.

A number of interesting features are to be presented during the week. Thrift is to be taught in the school. One day the pupils are to be given the privilege of visiting the Salem banks, after banking hours, and seeing the wheels of finance revolve with all the covers and screens removed. They will see the vaults, the money, the bookkeeping systems, and whatever else the casual observer can see of the physical features of banking.

Receiver is Appointed For Vulcan Iron Works

SEATTLE, Wash., Jan. 14.—United States district court today appointed Clark P. Bisset, professor of law at the University of Washington, receiver for the Vulcan Iron works, owned by Frank Waterhouse & Co. The latter concern was put into the hands of Professor Bisset as receiver by court action Friday upon petition of the Northern Pacific railroad that a receiver be appointed.

Suit involving the alleged loss of \$500,000 by Frank Waterhouse & Co. in the purchase of the Vulcan Iron Works is now pending. The claim is made that the plant was misrepresented. That \$375,000 was paid for it, and that it was worth but \$75,000.

The difficulties of Frank Waterhouse & Co. as explained by Mr. Waterhouse Friday, were caused through investments made during the war which had proved unprofitable and for which the company had incurred considerable bank indebtedness.
