RULES ARE ANNOUNCED

Better Health Project Has Approval of State Department or Education

The Oregon state board of dentat examiners is posting a total of \$140 in cash prizes to be distributed among Oregon pupils of the fifth, sixth, seventh and eighth grades for the best essays submitted on the relation between good health and good teeth. The contest has the approval of the state department of education, according to a letter which J. A. Churchill, state superintendent of schools, has sent to the teachers of the state.

This contest has the approval of the Oregon department of education," writes Mr. Churchill, "since we believe that the conser-

An Unexpected Call.

Mrs. Ticer solved the problem of mailing the letter promptly. As we were all sitting on the screened veranda after our return from dinner, silently admiring the wonderful effect of the full moon upon the waters of the bay stretched out before us, we heard the rattle of wheels, and then from the winding roadway behind the house came Sam Ticer's reedy voice in

and agree to whatever I saw tonight. I'll make it up to you." I was confident in making the appeal that it would be granted. for Dicky was in a particularly pologet'e mood, following, his em"estnous outburst of the after-That it was an unfair advantage to take of his repentance well bnew, but I salved my condence with the reminder that Mrs. Ticer deserved a far greater reward than a cordial welcome or the acceptance of her invitation to the cider making the next day. wondered apprehensively, however, whether Dicky's good nature would be elastic enough to assent graciously to the cider-making

Tired But Happy.

As it turned out, I need not have feared. Dicky's sense of the picturesque was captured from the first entrance of the Ticer family—wizened, ferret-eyed Sam Ticer leading the way, with his Amazonian wife close behind him. and Jerry bringing up the rear, grinning.

'We thought we'd come over and set a spell and meet the skipper." Sam Ticer said jovially, and Dicky promptly put such goodhumored cordiality into his conversation with them that when they left they were all evidently under the spell of "the skipper's" personality. I had observed even in my sojourn among them that it is the custom of the old-seafaring people of the east end of the isand to refer to the head of every

household as the "skipper" the "captain", regard'ess of whether he has anything to do with the sea or pot.

. It is never Dicky's way to do anything half-heartedly, and ne not only accepted with apparent delight the invitation to the oldermaking of the next day, but when the morrow came it was hard to tell which was the more delighted with the various processes of the ciffer making, he or Marion, who was literally dancing with joy du: ing most of the day. He piece t up apples with Jerry, helped Mrs. Ticer to wash them in big tubs, and under the tutelage of the elder Ticer fed them into the hepper ened the press and watched with boyish delight the onzing forth of the amber apple juice.

"I don't know when I've had Activity of Body Thoroughly such a bully time," is declared as he drove home I at the wheel. Dicky beside me with Marion perched on his lap, while Lillian and my father guarded from breakage two large jars of sweet

> Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail "Whoa there! Whoa, I tell to eliminate the uric acid which u!
