67 Women Take Smith Hughes Work This Year

Sixty-seven Salem women, housekeepers and business women have availed themselves of the opportunity to take class work in sewing and millinery under the provisions of the Smith-Hughes act this year. Mrs. F. E. Barker is in charge of the work in Salem.

The evening class in millinery will complete its work next week and another section will be organized, according to Mrs. Barker. This class is composed of business women and girls and meets in the high school. They have taken up the essentials of hat making, beginning with the making of a frame, the practice hat and then

on to the more complicated problems.

The class now meeting afternoons in the Y.W.C.A. rooms which is also under Mrs. Barker's direction, will complete its work next week and another section will be organized. Classes in millinery during the afternoon are also being considered. Mrs. Barker says.

One girl came in from the country to take the afternoon class work and is said to have taken particular interest in it. Women who are interested in helps for making children's clothes are being especially urged to get in touch with the work through Mrs. Barker.

Salem Heights women have one class in sewing which completed its work last Tuesday. Another section will be organized next week and there is a call there for a section in millinery. Miss Bertina Davis, state supervisor for home economics in Oregon, talked with the Salem Heights class at their last meeting and discussed the possibility of organizing a class in nutrition.

Fourteen women, during the season, having finished one unit, have enrolled for another. Several business girls were turned away from the evening classes for lack of room.

A display of the work done by the different sections will be made by the Salem Heights Women's club at their meeting in February, according to Mrs. Barker. The work done in this section has been more along the line of showing how to do the different difficult and new things rather than quantity of work. They have taken up the bound button hole, the set-in pocket and various forms of fancy trimmings.

One of the classes has asked

that the last two lessons be devoted to problems of house decoration. Mrs. Barker, who is employed to instruct these classes, is working under the direction of the state board for vocational education. Miss Bertina Davis is supervisor of the vocational work in home economics and has her headquarters at Oregon Agricultural college.

SEEK FRIENDS, IN HOUR OF NEED

"In the hour of need we quickly seek our best friends," writes Chas. Schridt Ward of Wet, 957 73rd Ave., Oakland, Cal., "our little boy and girl had a severe dry, rasping cough without phlegm, a cough that choked and flushed the face of the sufferers like unto convulsions. Foley's Honey and Tar was a wonderful emergency remedy." Cases like this give Foley's Honey and Tar its reputation as the best remedy for coughs and colds. Sold everywhere.—Adv.
