

# SHOP CRAFTS REJECTS RULE

## Railroad Labor Board's Elimination of Overtime Pay is Not Accepted

### HOLIDAY RULE IS HIT

### Thirty-Three Measures, Subject to Workers' Interpretation Adopted

CHICAGO, Jan. 24. (By The Associated Press)—Rejection of all railroad shop rules, recently promulgated by the railroad labor board, which cut time and one-half pay for extra work from the shopmen's wages was ordered today by the committee of 100, acting for the six railway shop crafts.

In a circular issued to the 500,000 shop workers, the committee ordered new disputes instituted with the railway managements immediately over the rules, and failing an agreement, the disputes were ordered taken to the labor board.

Of the seven rejected rules, the greatest dissatisfaction centered on rule six, providing straight time for regularly assigned work on Sundays and holidays. This work was previously paid for at time and one-half. The committee proposed a substitute rule reinstating time and one-half.

Rules Rejected

The board's new rules covering employees assigned to emergency

road work and to fill temporary vacancies at outlying points were also rejected by the committee because they took away certain pay provisions contained in the old national agreement.

The union committee directed institution of a dispute to reinstate time and one-half and double time to cover all time spent on the emergency assignment. Similar provisions will be asked in disputes to be created over rules 12 and 14 applying to men assigned to temporary vacancies at outlying points and to men on work who leave and return to the home stations daily.

Another Rule Under Fire

The board's new rule allowing the carriers to require a physical examination of all applicants for employment was also remanded on the system federations to negotiate with the roads.

Another important rule by which the board made it possible for the roads to hire any man familiar with the use of tools as a car repairer came under fire. A new rule was proposed over which the carmen are directed to open negotiations. The proposed rule would allow helpers and helper apprentices with less than four years experience to be advanced to the mechanics grade and if more men are needed, men with experience in the use of mechanics' tools could be hired.

Reinstatement Unlikely

Thirty-three other rules were accepted, subject to the interpretation which the committee placed on them, and the remaining rules were agreed to.

Railroad officials declared there was little likelihood of reinstating any of time and one-half provisions wiped out by the board.

It is estimated by scientists that the North Pole has shifted 60 feet to the south. At that rate of progress it ought to be in southern California by the time the Democrats elect another President.—Los Angeles Times.

### Labor Difficulties in Packing District Causes Arrests of Strikers

OKLAHOMA CITY, Okla., Jan. 24. Phelps today and were sentenced to life imprisonment. They are: Lee Whitney, 29; Charles Polk, 18; Elmer Yeara, 19; whites and Robert Allen, 27 and Nathan Butler, 40, negroes.

# INVESTIGATION AS TO HER FREEDOM.

Charged by Bernard Sandler, attorney for Nicholas Loresch, convicted in General Sessions last summer, that Mrs. Brooks obtained immunity in an improper manner for her part in the crime, has led to Gov. Miller of New York ordering the Attorney-General to conduct an investigation of the case.

# MOLOKAI ISLE LOSES LEPERS

## Chaulmoogra Oil Treatments Cause Steady Depletion in Numbers

### TONS OF OIL REQUIRED

### Children of Patients Are Healthy and Normal, Trees Planted

HONOLULU, T. H., Jan. 25.—The leper settlement on the island of Molokai contains fewer patients than at any time in the past 50 years, according to the statement of J. D. McVeigh, superintendent of the colony, on a recent visit here. The decrease, he said, was due to the treatments with the chaulmoogra oil specific evolved by Dr. A. L. Dean, president of the University of Hawaii.

All Are Treated

Practically all of the 485 patients at the colony now are taking the Dean treatment, Mr. McVeigh stated. In commenting on the popular belief that the children of lepers are afflicted with the disease, Mr. McVeigh, who has been superintendent of the Molokai settlement for many years, said that "both mentally and physically, the children of leprosy parents measure up well, if not better, than those of healthy parents."

"These children are not only normal, but they also have the advantage of the training that is given in the splendidly conducted homes for the children of lepers throughout the world."

Remedy Is Purchased

Permission to purchase 600 pounds of chaulmoogra oil, from which the Dean specific is derived, has been given by Governor Wallace R. Farrington to Dr. F. F. Trotter, president of the territorial board of health, in order that the territory's supply might not be exhausted. Dr. Trotter, in a letter to the governor, pointed out that Dr. Heiser of the Rockefeller Foundation announced recently that the Philippine government would purchase three tons of the oil and that this would virtually consume the world supply.

The territorial board of agriculture has established a chaulmoogra plantation at Waiahoie, this island, where several thousand saplings have been planted, in order that the increasing demand for the oil may be satisfied.
