on health

by O. L.

Scott, D.

Bring out the physical side of your nature. Give your body its due reverence. The body is controlled by impulses travel the nerve lines of the body from the brain down the spinal cord and out into the body through the spinal

nerve openings in the spine. To take ordinary precautions toward keeping each joint of the spine in alignment with its neighbor is the first law of health. Frequent analysis of the spine and adjustment of misaligned vertebrae is a common ense measure of prevention. In event of sudden illness, going to the chiropractor first, is taking the short cut

to health. Chiropractic spinal adjustments remove the cause of disease in the eyes, ears, nose, throat, lungs, stomach, liver, kidneys and lower or-
