Local Grocery Dealer Has Tip for Housewives
For the benefit of the good housekeeper, the following ideas as suggested by one of the leading grocers of the city will be of special interest:
Flour is thought to be due for an advance of 20 cents a barrel. Spinnach may be rather scarce in the spring. This is the shipment sent out by jobbers, the shortage being due to the freezing weather recently in southern California.
The dried fruit market is short in apricots. It is reported that heavy shipments were made to Germany and that a large part of the California crop was bought. Already the wholesale price of apricots is up 7 cents a pound.
Stocks of canned tomatoes are rather low and an advance may be looked for until the new crop is in. This shortage is due to the small amount canned last year.
Rice and beans are getting scarce in the market. There has during the past 30 days been an advance wholesale of from 1 to 1 1/2 cents a pound on each.
Cooking fats are down, and getting back to the pre-war price. On account of the low price of corn, all corn syrups are now down to the 1914 price, and corn starch is now sold at the price of before the war.
There is some uncertainty as to what the freeze in southern California did to the lemon and orange crops and as yet there has been no material advance in the retail price.

NEW CORPORATIONS
The Coast Improvement company of Portland, capitalized at \$200,000, filed articles of incorporation yesterday with the state corporation department. The incorporators are J. H. Fitzgerald, Ray Barkhurst and L. F. Knowlton.
