Very Ancient.—W. Harbert, who is associated with the office of the P. R. L. & P. company, claims to have a sword that is older than anything possessed in Salem. The sword is of French manufacture and has engraved on the blade the date of 1414. Many years ago it was found by an uncle of Mr. Harbert, while strolling along the coast in the Plymouth region of Massachusetts. He noticed the handle of the sword just above the sand, and curiosity impelled him to dig it up. Mr. Harbert is of the opinion that with the date of 1414 the sword must have reached the eastern coast by traveling by way of Iceland to the North American shore. Anyhow, he challenges anyone to produce anything that was made

prior to that year. The figures 1414, he says, are plainly stamped on the sword.

Bits for Breakfast.—A little winter hang-over. All kinds of weather; take your choice.

The wonder is, how do the moonshiners dispose of their output? Who buys the stuff?

It is understood that the broccoli crop in the Independence district has been found to be about half injured by the three freezing spells. In other words, there will be about half a crop to harvest. It is thought that this will be about the rule throughout the Salem district—although it does not run throughout the patches. Some show little damage, while others show nearly a total loss. This is only a rough estimate. A number of districts are to be heard from yet. It is understood that the Douglas county crop fared about the same as the Willamette valley crop.

Lincoln's birthday tomorrow. The Salem Iron Works is getting more strongly into the running. Salem cannot have too many wage rolls.

It is not too late yet for an announcement in The Statesman annual. But it is almost too late. You will have to hurry. It will be out one day next week.

EDITORIALS OF THE PEOPLE

About Federated Societies. Editor Statesman.

I have been amazed by finding the following political statement in the Oregonian:

"Presumably, when the primary election is held, the Federated Societies—an amalgamation of many organizations—will have a complete ticket in the field. Behind this ticket the federation will be prepared to throw the voting strength of its component parts. What that strength is no one appears to know, but it is probably considerable.

The state end of the ticket has not been selected. In fact, according to report, no one has yet received the indorsement of the federation so that at this writing the federation is not backing any aspirant. The time for making indorsements is drawing near, however, and the county ticket, at least, is believed to be shaping up.

Twenty years ago the people of Oregon scrapped the convention system because of the power it was supposed to give to special interests to manipulate it for their own purposes, and a few years later some excellent candidates were defeated for high office for the sole reason that they had been endorsed by an "assembly." And the conventions and assemblies which were thus condemned were the affairs in which every citizen had an opportunity to participate.

Today, however, we are told in all seriousness that a secret, unknown body, operating in the dark and under oath-bound methods, are to name a ticket for Oregon—Oregon, the state of the open primary, of the initiative and referendum and of universal suffrage.

Wonder if liberty-loving citizens realize where this sort of thing is driving the ship of state? When the executive, judicial and administrative officials of state, district and county owe allegiance and responsibility to a secret, night-riding organization rather than to the general public, what rights will be left safe to the common citizen?—ANXIOUS INQUIRER.

POLITICAL POT BOILS IN POLK

Position of County Commissioner Attracts—Fletcher Candidate Again.

DALLAS, Or., Feb. 10.—(Special to The Statesman.)—During the past few days the political pot in Polk county has begun to boil and candidates for the various offices will be vacant this year have been declaring themselves as candidates for re-election and in others as first timers for the offices.

Probably one of the hottest fights in the election this year will center around the candidates for county commissioner. T. J. Graves' term will expire this year and it is understood that a number of men are seeking the office. Mr. Graves is to be a candidate for re-election. George Cecil-lough of Broadmead is said to be another candidate who will shortly cast his hat into the ring and C. J. Pugh of Falls City. George Stewart of Buell and William Tid-dell of Monmouth, a former commissioner, are also mentioned for the job.

D. F. Fletcher, joint representative for Polk and Lincoln counties in the last legislature has decided to enter the race for re-election. Mr. Fletcher is an attorney at Independence and was sponsor for a number of bills passed in the legislature both during the regular and special term. P. O. Powell, a prominent farmer of the Monmouth neighborhood who was representative for Polk county has not yet decided whether he will again seek office.

Acting upon the supposition that Senator I. L. Patterson of this county will announce himself as a candidate for the republican nomination for governor, C. E. Ingalls of Corvallis, editor of the Gazette-Times is expected to make an announcement that he will be a candidate for senator from Polk and Benton counties, the race held formerly by Mr. Patterson. No election will be held for other county officials other than the commissioner as by the law passed since last election their term of office is increased from two to four years.

Mrs. Hattie Sachter is Secretary for Polk Fair.

DALLAS, Or., Feb. 10.—(Special to The Statesman.)—The board of directors of the Polk County Fair association has elected secretary of the association Mrs. Hattie Sachter, assistant secretary of the Dallas Commercial club.

Mrs. Sachter takes the place of Josiah Wills, county superintendent of schools, who has held the position for the past two years but who finds that the work among the schools takes up so much of his time that he has no time for the fair duties. Plans were made at the meeting for the erection of a number of new buildings at the fair grounds to house the livestock and also for the enlarging of the present pavilion to take care of the increasing exhibits.
