### Burton Brown -a Brown bilt Shoe

EN desire real comfort in their shoes. So we build comfort into Burton Brown Shoes, just as surely as we put in good leather, good shoemaking and good style.

Burton Brown Shoes are lasted and re-lasted until every wrinkle is smoothed out—until the shoe fits like a glove. Oak-tanned soles are sewed to uppers by Goodyear Welt process giving them added comfort and greater wear - while rubber heels give them elasticity.

You can always get your particular model - with the outer appearance changed to meet the prevailing fashion, at \$8, \$9, and \$10 - year after year. Come in and see them today.

The troubles of a man 90 years

ld and his 55-acre farm were circuit court yesterday in a suit entitled Christian Daniel-Hans Danielson, Mary E. Palmer and Lena Peterson against lens Danielson and Emil Daniel-In the complaint it is alleged

that Jens Danielson is 90 years of age: that on August 24, 1921 he deeded to his children his 55-5 south range 1 west, with the provision that he should have a life interest in the farm. Theconsideration in one part of the deed was given as \$1 and love affection, and in another part of the deed just love and af-

As there is some discrepancy in he consideration named in the deed, the sons and daughters of the old man ask the court for an order to correct the deed. Their special reason for asking the order to confirm the deed given in 1921 is from the fact that the 90-year old Jens Danielson is now claiming that he gave no such deed and that he is the owner in fee simple of the farm and has a right to do just as he pleases

The plaintiffs also allege that son, Emil Danielson, who is lving with the father, is exertng an influence on him to ob-

tain possession of the farm. Hence the plaintiffs ask an order from the court declaring that the deed given and filed for record by Jens Danielson be declared valid and that his interest in the farm be limited, as provided by the deed, to a life interest.
