BITS FOR BREAKFAST

Has the flu bug got you? We are to have a great merchant marine. The term ship subsidies does not scare Americans like it used to.

Yes; George Washington was a farmer, but he could not qualify today as a "dirt farmer."

Senator France looks forward to the time when senators will be able to illustrate their speeches with moving pictures. Presumably the Congressional Record will then have a supplement of films for readers to use on their home machines.

Prof. Albert Bushnell Hart's statement that George Washington was red-headed raises the question whether the American Revolution was not the work mainly of red-headed men. It is well known that Thomas Jefferson was red-headed.

Last year it was drouth and this year it is flood, but whatever the cause there are still millions of Chinese threatened with famine. Relief organizations cannot yet disband.

The Hollywood which a day or two ago boasted of the lowest temperature in the United States is a very different Hollywood from the one in California; the latter might benefit by a little refrigeration.
