

TRACTOR AND POWER-FARMING SCHOOL IS CONCLUDED HERE

A three-days tractor and power-farming school closed Wednesday night at the Valley Motor company salesroom on North High street. That it was a success may be guessed from the attendance 137 the first day, 125 the second, and close to 160 for the third and last day.

The school was a joint production of the Ford Motor company, the Standard Oil, the Oliver Chilled Plow company, O.A.C. and the American Seeding Machine company. All these manufacture power plants, or machine or implements, or the human intelligence to install and direct the machines in the field.

Jordan in Charge

J. Jordan of Portland, assistant manager of the Oregon Ford company, was in general charge. This is only one of a number of similar schools that are to be put on in the state. Others will be staged at Eugene, Roseburg, Medford and Hillsboro, and perhaps yet at other points.

MARCH VICTOR RECORDS

other points. Oregon Agricultural college sends one or more of its best field men to assist in all the shows.

In part, the demonstration consisted of daily addresses and questionnaires conducted by each of the representatives. Charles Harrison for the Oliver plow company, told more things about plows and plowing than most men ever dreamed there could be in the subject. For one thing, his own company makes 10 kinds of plows especially adapted to the Ford tractor, though of course some of them will also fit other power plants. It is vitally important, he says, to have implements that will fit the tractor. He said that he would start out by first buying his farm, then his implements, and then the tractor that would fit the tools that he knew he ought to have for the soil he had to work.

Ford Makes Tests

"Henry Ford spent more than a million dollars in testing out the implements that would work best with his new power machinery," he said. "He bought and tried everything, threw out the hopeless stuff, found out all the weak spots in those that were partly good and made them strong to match the good ideas, and now one can get implements that really work."

Mr. Harrison is an enthusiast. It is not a "crank," on a sub-soilist. He urges it as the great salvation for the Willamette Valley farmer who has his crops first down and then burn in the fields. To subsoil the ground and then break up the surface clods into a fine dust much to save the water for summer use, is his ideal of good farming. Some form of fine harrowing, or preferably packing with a corrugated roller, their own cultipacker, is his short cut to prosperity. Mr. Harrison is a ready speaker, who knows plowing clear from the crooked stick of Egypt to the most brilliantly red three-gang orchard plow ever made.

Use of College Urged

Prof. W. G. Gilmore, of O.A.C., urged the farmers to make more use of the three branches of their service—the extension bureau, the resident instructor, and the experimental division where they aim to try everything that promises to be of benefit to the Oregon farmer. He said that the college used to send out its bulletins to a blanket list of more than 34,000 people, but lately this list has been curtailed, and the bulletins go to the discriminating inquirers who ask for special lines of investigation.

Prof. Gilmore brought out some interesting statistics showing that Marion county has approximately 13,000 dairy cattle, and about 11,000 or 12,000 horses. The dairy production of the county last year was estimated at \$1,014,000 in value. Assuming what is believed to be a fair or even a low estimate, that the horses cost \$90 a year or 25 cents a day for upkeep, the county is practically spending on its farm horses, every dollar it takes in for its cows.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

GROWERS MAY CONTROL MARKET THROUGH POOL

OREGON WINS

EUGENE, Or., March 2.—A University of Oregon affirmative team arguing that the United States should impose a tax on manufacturers' sales won a two to one decision over debaters from the University of Washington here tonight in the coast triangular series.

FOUND GUILTY

MARSHFIELD, Or., March 2.—The first jury composed partly of women was quick in returning today a verdict of guilty against Orval Anderson of North Bend, who was charged with a statutory offense. They were five women on the jury.

DEMOCRACY'S CADMAN'S TOPIC

eloquent Brooklyn Preacher Lyceum Speaker at Armory Last Night

Dr. S. Parks Cadman, of the Central Church, Brooklyn, N. Y., was the speaker of the Salem Lyceum course at the armory last night. About 500 people listened to the eloquent, appealing, magnetic speaker as he dwelt upon the subject of Democracy.

TRAIN CUTS OFF FINE CAT'S TAIL

Persian Feline of Mrs. Helen Southwick Injured on S. P. Tracks

This is a tale of a cat's tail. "Jinks," a flossy-furred, spotted Persian cat owned by Mrs. Helen Southwick, of 1079 Marion street, was the owner of the tail.

Forty-Two Destroyers Will Be De-Commissioned

SAN FRANCISCO, March 2.—Orders from the navy department designating the 42 destroyers from the Pacific fleet to be de-commissioned by June 25 in accordance with the naval economy program were received here today at fleet headquarters on the battleship California.

Golden Wedding Celebrated By Mr. and Mrs. Torgerson

SILVERTON, Or., March 2.—(Special to the Statesman)—The golden wedding anniversary of Mr. and Mrs. Andrew Torgerson was celebrated at Trinity church today. The church parsonage was beautifully decorated in gold, white and green. A huge wedding cake was by Miss Una Henjum was perhaps the chief feature of the decorations. Gold and white streamers were used. Forns furnished the green color to the scheme.

Turnover to Treasurer Is Reported by Brown

G. G. Brown, clerk of the state land board, announces a total of \$131,043.72 turned over by his department to the state treasurer during February. The turnovers were as follows: Common school fund principal, \$1,000,000; university fund interest, \$4627.87; common school fund interest, \$4627.87; common school fund interest, \$4627.87; common school fund interest, \$4627.87.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Back Ache or Have Bladder Trouble

Meat forms uric acid which ex-cites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull pain in the kidney region, sharp pains in the back or stomach, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often will not drain, obliging you to get up two or three times during the night.

Laxative Bromo Quinine

The first and original Cold and Grip Tablet, the merit of which is recognized by all civilized nations.

Be sure you get **BROMO QUININE** The genuine bears this signature **C. H. Groves** Price 30c.
