

BY ORDER OF THE COMMON COUNCIL OF THE CITY OF SALEM, OREGON, the Ways and Means Committee was authorized to sell the following list of lots at not less than the appraised value, such amount being opposite the description of each lot as listed below.

Sealed bids will be received by the Ways and Means Committee, at the City Recorder's Office, up to and including March 20th, 1922, for the purchase of any or all of the said lots. No bid will be considered for less than the appraised value thereof, and each bidder will be required to enclose with his bid, a certified check for five per cent of his bid. An abstract of title will be furnished to each purchaser without additional cost.

By order of the Ways and Means Committee, of the City of Salem, Oregon.

EDWARD SCHUNKE, Chairman.
HAL D. PATTON,
A. H. MOORE

PLATFORM ANNOUNCED BY SENATOR PATTERSON

(Continued from page 1)

error be reduced to \$5,000 and that the salaries of all state officials and employees be revised downward to the pre-war basis. "If elected I will request the next legislature to submit to the people a constitutional amendment preventing an increase in the salary of any official of state, county or municipality during the term for which such officer is elected or appointed.

Governor Bears Responsibility.

"Upon the governor rests the responsibility for imprudent or extravagant appropriations of public funds. Through the item veto, a practically unused power, he alone can eliminate any wasteful or imprudent items of appropriation. If elected I shall feel a personal responsibility for every appropriation of public funds, and will use the power of the item veto to relieve the burden of the taxpayer.

"The numerous boards and commissions of the state have become an increasingly expensive burden to the taxpayer. In some instances the work of these departments overlap. Some of them should be abolished, others should be consolidated. If elected I will present to the legislature a concrete recommendation for the elimination of superfluous boards and commissions and the consolidation of others that will reduce expenses to the minimum with increased efficiency.

Budget Law Fettered.

"I am the father of the budget law passed by the 1921 legislature, having urged the governor to recommend a budget commission in his message. I introduced and pressed to enactment the bill therefor. It is my purpose to see that the taxpayers benefit from the economy that can be effected by a rigid and intelligent application of the provisions of this law.

"The cost of maintaining most of the state institutions is too high. The state penitentiary is a striking example. With a state-owned farm to produce supplies, and the inmates to do the work, both in the prison and on the farm, it is costing in excess of \$39 per capita per month which is too much for the taxpayers to have to pay. Since September 30, 1916, the cost of the maintenance of the penitentiary has increased from \$15.93 per capita to \$39.084 per capita. I will make a personal survey of every money spending institution or department of the state with a view of reducing the number of employees to the requirements of necessity and placing the salaries of those retained at a point compatible with like employment in private work. A dollar's worth of service or merchandise for every dollar expended by the state is the taxpayer's right, and as the expense of government is ultimately borne by the consumer, every citizen is a taxpayer, directly or indirectly. I can and will give you a business-like administration of state affairs that will point the way to economy in county and municipal government.

State-Owned Autos Rapped.

"The eight or ten bus companies in Portland should be consolidated under one roof, thereby effecting a saving in rental and an added public convenience. No prudent business man would have the several departments of his business scattered as are those of the state in Portland.

"State owned automobiles now in excess of 200 should be reduced in number and used for state business only, not for pleasure, private business or by the families of state officials or employees.

"The present automobile license is inequitable and unjust to the owners of used cars. It includes the property tax as well as the license and yet the owner of an old machine pays the same amount as the owner of a new machine of like make. This tax should be equitably adjusted. I am opposed to any increase in the automobile license fees or gasoline tax.

Service Commission Target.

"The public service commission should be abolished by repeal of the public utilities act. A law should be enacted providing for an appointive commission to revise utility rates.

"I favor a system of public education efficiently and economically administered. Our public aided educational institutions should charge non-resident students a tuition equal to that required by similar institutions in adjoining states.

"Any administration in Oregon to be successful must, in my opinion, give careful and sympathetic consideration to the interests of the farmers. Farming is our basic industry, and it is a well-known fact that unless the farmer prospers, all lines of business and industry feel the ill effect. The organized farmer is only demanding fair and just treatment; this he is entitled to. Being a farmer I understand his problems and realize that a proper administration of the state government can be of assistance in bringing about better conditions for agriculture.

Cooperative Marketing Favored. "I believe in cooperative marketing. Properly carried out it is a benefit to both the producer and the consumer.

"Ex-service men should have preference in all public employment.

"I am a firm believer in and supporter of good roads. All primary, trunk or through roads should be completed this year. Thereafter more than \$1,000,000 over and above bond and road maintenance requirements will be available each year from the receipts of gasoline tax and automobile licenses. This money should be used in improving more remote country roads so the

farmers who are helping to pay for the main highways may be able to reach and use them.

"I am opposed to Oriental controlling land in the state of Oregon by ownership or lease.

Memorial Revivified.

"In the state legislature I introduced a memorial to congress, requesting submission of an amendment to the constitution of the United States denying citizenship to children born in the United States of alien parents not entitled to citizenship.

"I approve the work being done on the narcotic evil. The growth of the poppy is subsidized in foreign countries and introduction of its derivatives into this country should be controlled by international agreement, whereby the government alone may handle them in the first instance; the quantity may then be limited to medical requirement.

Bond Issues Held Too High.

"Millions of dollars of public bonds have been issued and are outstanding in the state of Oregon and no adequate provision has been made for their retirement. The state should authorize no more bond issues until a definite plan has been adopted for redeeming those now authorized. All future issues should carry adequate and definite redemption provisions. No more tax-free bonds should be issued. Let all property bear its just proportion of taxation. Many securities of doubtful value have been sold in Oregon. The laws protecting the public against loss from this source should be tightened and rigidly enforced.

"A recent press dispatch announced a saving of \$7,000 per month effected by the state industrial accident commission by discharging some 20 employees and 'speeding up' those retained. If I am elected governor this manner of saving will prevail in every state department and instead of the usual 6 per cent increase that we have had for the past several years, I pledge the people of Oregon that there shall be at least a 10 per cent decrease in state expenditures. The way to retrench is to retrench.

No Machine Is Promise.

"It is my purpose to effect for the state the best possible business organization for an efficient and economical administration. I do not propose to build up a political machine. An evidence of good faith if elected governor, I hereby pledge the people of Oregon that I will not be a candidate for re-election or for any other office, and that I will use all the power of my office honestly and faithfully to enforce all of the laws of the state of Oregon.

"In the event of my election I will consider the promises above set forth a binding contract between the people of the state and myself."

UNDERWOOD GRILLED BY HIS OWN PARTY

(Continued from page 1)

force and effaced dangers that threatened American interests in the Pacific. To reject the pact because it does not bind the signatories to employ force, he asserted, would be to revert to the reactionary philosophy of the past.

The Democratic leader conceded that the negotiations leading up to the treaty were carried on in "secrecy" but argued that such a course was necessary in view of the peculiar circumstances surrounding the effort of the American delegation to rid the world of the Anglo-Japanese alliance. In the main, he said, the arms conference was conducted more openly than any similar consultation in the history of the world.

Vote Not Forced

Senator Robinson insisted in turn, that the provisions for consultation, among the signatories to agree on a course of action in case of aggression by an "outside power" could mean only that the force of all four was to be united against the aggressor. "When any such consultation took place, he argued, and any one power signified that it was not able to meet the attack alone, the only means the others could suggest was united action. He asked that Mr. Hughes inform the senate why he had remained silent so long as to the method by which the treaty was drafted.

Because many senators desired to complete work on an appropriation bill, administration leaders did not force a vote today on the first of the proposed reservations, and the treaty was laid temporarily aside without action.

Senator Lodge of Massachusetts, the Republican leader, announced, however, that he would attempt Monday to obtain an agreement for a time for voting, and should he fail would hold the senate to "long sessions" until the debate had worn itself out.

Estimates Not Made

Although they cared to make no numerical estimates, both Republicans and Democratic floor leaders remained confident tonight that no reservation except that drawn by the foreign relations committee would be adopted and that the treaty would have a safe majority on the ratification roll call. They declared that more than the necessary two-thirds had pledged themselves to support it.

Oaks Addition Lots Are Put on Sale by City

For the time being, the City of Salem is going into the real estate business. The real estate the city is offering for sale is lots in the Oaks addition which the city has acquired through foreclosing of delinquent taxes. Title to the property will be perfectly good as it is passed to the city through an order of the Marion county circuit court.

Before offering the lots for sale, the city authorities appointed a committee to appraise each lot and this appraisal is the best price the city will accept. Bids will be accepted at the city recorder's office including Monday, March 20.

An advertisement to be carried in this morning's Statesman will give those interested the number of each lot owned by the city and the minimum price for which a bid will be accepted.

Numerous Affairs Planned At Silverton This Week

SILVERTON, Or., March 11.—(Special to The Statesman)—That Silverton has chosen next week as "Frolic Week" seems apparent by the amount of announcements already given out for affairs which have been arranged for by the various Silverton lodges, clubs and other organizations to be carried out during the coming week.

The Silverton firemen have arranged for a dance to be given at the armory the night of March 17. And this isn't all. The Marion county beekeepers will meet at Silverton the evening of St. Patrick's day.

On the evening of March 16 the Federated Marion Clubs of Marion county will convene at Silverton. On the evening of the same day Mrs. Gertrude Cameron has arranged to give her fundamental recital at the high school auditorium.

And these affairs many invitations are out for private dances and parties to be given March 13 and 15. These days see the coming home of some of the college students for spring vacation.

Good Blood—Good Health

Are what everybody wants, but comparatively few have. If you are tired and weak in the morning, have no appetite, have indigestion or dyspepsia, sleeplessness, scrofula sores, blood humors, pains of rheumatism, disagreeable catarrh in the head, your blood is not good.

Hood's Sarsaparilla is the medicine to make good blood and good health. It contains great curative virtue and promptly gives nerve, muscular and digestive strength. The small dose, three times a day, and the positive results, absolutely prove its merit. The reduction in price and the removal of the stamp tax make it by far the most economical of all family medicines. Get a bottle today.

"One bottle would be followed directly by another, painful and annoying. One bottle of Hood's Sarsaparilla gave such relief I never have had a bottle since." Mrs. Anna Cornwell, Bridgeton, N. J. Hood's Pills help as a laxative.
