Vindication Will Come—That principle of government on constituted authority then no longer exists when a conscientious service is rewarded by criticism and threats of political annihilation. A vindication will come in the course of time and I am satisfied to wait that day.

Abolition Means Chaos—Regulation of rates and service is the best solution that has so far been evolved for the public utility question and abolition of the commission would hurt all public utilities, public service corporations and railroads back into the old chaotic state that prevailed before regulation was established and will make the utilities and the people victims of unsavory practices which, I fear, most disastrous consequences.

Law Practice Is Lure—"I reserve only the greatest charity for those that in sincerity differ with me and maintain only the deepest and most profound gratitude for the loyalty of my friends."

"I love the state of Oregon, and Oregon will always be my home, and I intend at the close of my term to retire to southern Oregon and again engage in the practice of law."

Manchurian walnut, that has come in vast quantities into the American market. These nuts have sold at coast points as low as 5 cents a pound, after opening the season at 7 cents. We have been told that they can be delivered at the Chinese ports, at one cent a pound. They do not approach the Oregon nuts for quality, but at their low prices they are formidable competitors.

ADDED FUND IS GOAL

"He's working now to get this added appropriation. The nut question means millions to Oregon, and Senator McNary knows it. Senator McNary is a nationally commanding figure in the agricultural bloc, and his work for agriculture, and especially for the northwest, is a revelation in the senate."

I just went in to see how bad it was, but I will never go again," says Mrs. A to Mrs. B, who cannot resist going to see what was so dreadful, and so the endless stream goes to the movie which is "not just the best." The public gets just what it wants. Miss Lovely thinks, and scolding and preaching will not deter young and old folks too from going to what is not good.

Way Out Is Seen

Keeping in touch with the moving picture centers of distribution and knowing what films are recommended by the investigators and then mentioning them in the schools and groups, Miss Lovely believes, will tend to make these pictures popular and so eventually the public will want the better kind.

They were together in vaudeville when they came to the United States, later going into the movies. The company goes to The Dalles from Salem and then on to Seattle.
