Men's religion likewise is but an expression of tarianism and bigotry.

Rabbi Lee J. Levinger, one of the twelve Jewish chaplains assigned to the 27th Division A. E. F., has recently published a book entitled, "A Jewish Chaplain in France." Writing of the four chaplains who shared his quarters, he says, "Every evening we gathered about our grate fire and relaxed from the grim business of the day. We sang, played checkers, argued on religion. Imagine us discussing the fundamental principles of Judaism and Christianity for several hours. The five of us were all of different creeds-Catholic, Baptist, Christian, Christian Scientist and Jew!"

As showing the respect the chaplains generally entertained for each other's religious beliefs and the manner in which they co-operated in their work, he writes, "A Catholic priest told us briefly what we should do in case we found a dying Catholic in the hospital or on the field, with no priest at hand. Then I was asked how best the others might administer to a Jewish soldier in extremity. I repeated to them the old Hebrew confession of faith: Shema Yisroel adonoi elohenu adonoi echod. 'Hear, O Israel, the Lord is our God, the Lord is One.' I told them to lead the boy in reciting it, or if necessary, just to say it for him, and the next morning quiet. when I brought down copies of the words I was deeply touched by their eagerness to know them."

Without toleration, without real respect for the religious convections of others, without that charity that covers a multitude of ignorance, error and sin no man can approach unto, no man is even in the way of reaching, the spirit of the Christian religion as taught and lived by Jesus and his to decide what trade or profes- energetic editor overstated disciples, if the New Testament record is true. No man was ever convinced of the error of his religious ways by force or by ridicule. Men can be led out of error only by leading them to embrace the truth. They can not be driven or forced. A man convinced against his will is of the same opinion still.

Besides, one does not need to be a narrow sectarian or a bigot in order to be loyal to his own religious convictions. We can respect another man's religion without embracing it. We may properly even help him to live the religion that meets his needs, when ours does not and we will do so if we have grown above that narrow, disgusting belittling manifestation of selfishness which we call intolerance.
