## An Up-to-date Girl

No modern up-to-date girl likes to feel dependent. The average young woman wants to be self-supporting and self-reliant.

This is a wise attitude. With the expanding of woman's privileges has come an increase in her responsibilities. Few business men have much sympathy for the untrained, dependent woman when adversity overtakes There are too many well trained young women

Our business courses insure a training that will render the young woman capable of earning her own livelihood and assure her of indpendence and support. Write or call for information.
