Three Baseball Games for Willamette This Week

Willamette is to play a pretty strenuous series of baseball this week. Early in the season it was thought the university might not even put a team into the field, but so much good material showed up that a rather pretentious non-conference schedule has been adopted. This includes a game on Wednesday with Albany college, at Albany; one on Friday, with Pacific university, here in Salem; and Saturday, with Linfield college, at McMinnville. Next week there will be one game, on Friday May 5 with Chemawa, and the general track and field meet with Chemawa on the day following.

BASEBALL IS ANALYZED BY SIR ARTHUR CONAN DOYLE

NEW YORK, April 24.—Sir Arthur Conan Doyle, creator of Sherlock Holmes, and general authority on things supernatural, saw the big leaguers in action at the polo grounds last week. Today after due consideration of the psychic phenomena of the diamond, he announced he had made the following deductions concerning the greatest American pastime: "No. 1—The average fan is not satisfied without the spiritual presence of Babe Ruth. The game lacks excitement unless the king of swat is there in person. "No. 2—Baseball didn't originate in America. It is simply a re-creation of the old Egyptian game of rounders, considerably elevated and glorified. Is Fan Hence? "No. 3—Sir Arthur will henceforth be a baseball fan instead of a cricket enthusiast. "No. 4—The way the Giants followed the ground balls was wonderful. The way they judged the flies was remarkable. Outfielders are more in-er-sive than infielders. Continuing his deductions, Sir Arthur said there really was nothing to prevent him from spiritualizing in professional baseball, as he had been taught the game years ago by his American author friend, Hamlin Garland. Any-who could star at cricket could star at baseball, he declared, and since he enjoyed somewhat of a reputation as a cricketer in his youth, equal fame as a "baseballer" should be easily attained with a little practice, he thought.

Merits Pointed Out. The principal merits of the American game, as seen by Sir Arthur are that it is livelier and quicker than cricket and does not require such an expensive outfit. On the demerit side, he places the tendency of baseball to become a sport for specialized professionals played almost entirely by the young, while in England most men continue their cricketering until they are well past middle age. "As far as the English are concerned," he continued, "there seems to be something in the national temperament that is attracted to cricket. For this reason baseball has never achieved the same popularity in England that cricket enjoys in this country. There are, nevertheless, quite a number of baseball clubs spring up in England and in the future I think there will be more. Game For Sport's Sake Urged. "I think the reason why men in this country do not keep up baseball as the English keep up their cricket is that here the sport is so highly specialized, the great object being to win, rather than the mere enjoyment of the game. On this account, a man of middle age might feel he was making a spectacle of himself to indulge in baseball. "Competition is undoubtedly much more intense in this country and that is probably why, in the various sports, you concentrate to an extent that is unknown to us. We play far more for the sake of the game than for the victory. cellent support, Kopf being especially brilliant. Score: R. H. E. Brooklyn 7 10 2. Boston 8 10 0. Batteries—Mitchell, Mameaux and Hungling; Watson, McQuillan, Marquard and O'Neill.

New York 3, Philadelphia 2. PHILADELPHIA, April 24.—(National)—Bunching five hits in the third inning today enabled New York to score three runs, which were sufficient for a 3 to 2 victory over Philadelphia. Groh's double, followed by singles by Young, Meusel, Shinniers and E. Smith did the damage. Score: R. H. E. New York 3 8 3. Philadelphia 2 10 5. Batteries—Douglas, Causey and E. Smith; Hubbell and Henline.

COMMITTEES FOR CHERRINGO NAMED

All Forms of Entertainment to Be Provided on Three Big Gala Days. An imposing list of committees and committeewomen will serve on the Cherringo, Cherringo, to be staged at the army the three days of May 4, 5, and 6. They bring almost every kind of financial, fun-making, business-getting influence in the city, to bear on the one problem of getting a little more money for the Salem hospital—a man daren't get good and sick in Salem without taking a desperate chance until the city has this new hospital to care for him. The pleasures of "operations" as social diversions and topics for conversations, are frightfully restricted until there's room to operate on all comers. And anything like a big train wreck, or fire, or explosion, would absolutely swamp the city hospital facilities. The Cherringos plan to laugh a hospital into being through this Cherringo fund. The committees appointed are: Publicity—Carle Abrams, Paul Stege, Charles Knowland, William McGilchrist. Arrangements—E. Cooke Patton, Paul Stege, William McGilchrist. Finance—J. C. Perry, William Busick, Oliver Myers, Fred Mangis, Dave Eyre, Dr. H. H. Olinger. Solicitors—C. S. Hamilton, Leo Unruh, E. A. Kurtz. Dancing—P. E. Fullerton, L. W. Gleason. Polar concessions—P. M. Hubbard Diplomats Will Contain Their Own Name

Hubbard school graduates will have their own home town names on their diplomas, when they get them, according to the vote taken at the Parent-Teacher association there Friday night. It had been proposed to Hubbard residents that the district join in the big union high school project at Woodburn, also that they go in with the Aurora district in a similar consolidation. The meeting Friday night, attended by the taxpayers and school patrons generally brought out a unanimous vote to stick to their own row and make the Hubbard diplomas stand for as much as anybody's parchments anywhere.

SAGE TEA TURNS GRAY HAIR DARK

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold. Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready to use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.
