This recrudescence of hostility toward the Catholic Church may appear to some unusual and extraordinary, but those slightly acquainted with the history of the Church know that it is only a coumon and oft-repeated incident in her life. The principal and fundamental reason of this opposition is found in the avowal of Christ, who said: "My Kingdom is not of this world." The history of religious strife is the mistery of that enduring combat between the Kingdom of God and the kingdom of this world. There has dwelt in the world for time immemorial a spirit of infidelity or un-God and the kingdom of this world. There has dwelt in the world for time immemorial a spirit of infidelity or unbelief. It was this spirit which har assed our Lord and eventually led to his death. It was our Lord who said. "You seek to kill Me because My word has no place in you." As Christ then preached the hisden and mysterious, things of God, man was driven to the last excess of fury and resolved to put Him to death. The Church of Christ, the Catholic Church then appeared in the world to preach the same dectrine by which har Divine Master had scandalized the proud, and are resolved to the world, and and aroused and provoked bitter and relentless enemies. She hecame an object of hatred to the world, and it is almost incredible what she suffered for three hundred years under pagan emperors. She was so malismed that many with men who did not hesitate to accesse her of all the disorders in the world. If rain was wanting in due season, if the barbarians made a raid or invasion; if the Tiber overflowed its banks, the Christians were blamed for it all and it was agreed that there was no better was a noneass the wrait of the god.

Sometimes After Effects of Measles Are Worse

SUNDAY HEALTH TALK NO. 47-

Sometimes the atter effects of measles are worse than disease itself. This is particularly true of the condition in which the disease often leaves the eyes. Measles patients must be protected from light, otherwise blindness may result.

Of course, those who suffered from an under supply of nerve impulses to the eyes were in position to suffer most from an attack of this disease. When the eyes are weakened by subnormal nerve supply, the only correction is to restore a full degree of nerve freedom by chiropractic spinal adjustments. Those who suffer in this way from measles after effects can do nothing better than to arrange for chiropractic spinal adjustments.

MEASLES BLINDNESS IS NOW OVERCOME

"When I was six measles left me blind in both eyes for about a year, then I began to see out of my right eye, but was still blind in the left. This was my condition when I began chiropractic spinal adjustments. After about a week of adjustments I could see again with the left eye. Today I have discarded my glasses and can read fine print without strain. I certainly feel grateful to chiropractic as it has done for me what could not have been done by any other kind of doctor." -Roy E. Dougherty, Chiro-Research Statement No. 1274.
