

PARLEY SCOPE TO BE DEFINED

Chilean-Peruvian Conference at Washington Has Several Ramifications

WASHINGTON, May 11.—(By The Associated Press)—The problem of defining the exact scope of the Chilean-Peruvian conference here is developing some interesting ramifications as the preliminary discussions of the two delegations near a conclusion.

One factor which promises at once to center attention on the question of Tarapaca is the presence in United States of a dele-

gation of native Tarapacians who are expected to come to Washington in advance of the conference opening to present President Harding a memorial declaring void the treaty of Ancon by which their province was ceded by Peru to Chile.

Bolivia Watched
Another undetermined question is whether the government of Bolivia which once sought unsuccessfully to make a party to the Washington negotiations will find an opportunity before the conference is over formally to press its plea of interest in the disposal of Tacna-Arica.

The possibilities of these and other elements, which are, strictly speaking outside the conference proper, are being borne in mind by the Chilean and Peruvian delegations as they complete their preparations for the secret meetings which are to follow Monday's open session. Again today the delegations held separate meetings

with their advisers and the ambassadors of their governments here, going over minutely the points of negotiations which are expected to come first to the attention of the conference. The two delegations were brought formally together for the first time today at a luncheon given at the White House by President Harding in which the Chilean delegates were accompanied to the luncheon by the Chilean ambassador and the Peruvian delegates.

Harding is Cordial
Although the White House visit was said to be purely social in character, it is understood that President Harding took the lead in giving the occasion an air of the greatest cordiality, expressing informally and impartially his hope that a satisfactory solution of all Chilean-Peruvian difficulties would result from the negotiations here.

Dr. Vigilio Beteta of Guatemala and James W. Brown, of New York, representing the World Press congress offered the assistance of the newspapers of the world in making the conference ask and asked that "open diplomacy" and a broad policy of publicity characterize the conference sessions.

Press is Admitted
They were told that arrangements already had been made for the admission of newspaper correspondents to the plenary sessions, and it was indicated also that daily communiques might be issued covering the secret meetings.

The possibility that the problem of Tarpa might come prominently into the negotiations at their outset has aroused liveliest interest in Latin-American diplomatic circles generally.

Another trouble about the radio broadcasting, we may not always be sure that we have the right number.

LUMBER TRADE ABOVE NORMAL

Increase in Business Observed by Lumbermen of West Coast District

One hundred and twenty-seven mills reporting to the West Coast Lumbermen's association for the week ending May 6, manufactured 84,570,028 feet of lumber; sold 95,915,471 feet; and shipped 92,773,137 feet.

Production for mills reporting, was 2 per cent above normal. New business for the week was 13 per cent above production. Shipments were 13 per cent below new business.

All New Business
Thirty-two per cent of all new business taken during the week was for future water delivery. This amounted to 30,335,471 feet, of which 22,261,958 feet will move coastwise or intercoastal, and 8,073,513 feet will move export. New business for delivery by rail amounted to 2,186 cars.

Thirty-one per cent of the week's lumber shipments moved by water. This amounted to 25,813,137 feet, of which domestic clearances accounted for 18,709,487 feet, and overseas clearances, 7,103,650 feet. Rail shipments amounted to 1,932 cars.

Rail Trade Heavy
Unfilled domestic cargo orders total 104,241,096 feet; and unfilled export orders, 81,842,815 feet. Unfilled rail trade orders total 6,636 cars.

The 18 weeks' production was 1,403,241,096 feet; new business, 1,407,232,232 feet; and shipments 1,338,047,191 feet.

LACKAWANNA BOUGHT BY BETHLEHEM INTERESTS
(Continued from page 1)

the Lackawanna, was one of the party of independent executives on board the "billionaire's special" which returned to this city yesterday after a 10 days' inspection of the physical properties of the various plants.

Directors of the Bethlehem and Lackawanna companies will hold meetings in their respective offices next Tuesday to confirm the merger, which is regarded as a foregone conclusion. On the same day, the executives of the independent companies will meet with representatives of Kuhn, Loeb & Co., bankers, to arrange the financing of the independent merger, which will involve an exchange of securities and cash and the formation of a new holding company or the enlargement of one of the existing companies.

West Is Not Goal

Mr. Grace, in a talk with newspapermen, declared that the Lackawanna purchase has absolutely no connection with the independent merger, and he likewise denied the report that the Bethlehem corporation after absorbing the Lackawanna, would unite with the others mentioned in the seven company combinations. He explained that the Bethlehem corporation felt that its proper sphere of development lay in the east and that it had no thought of going into the west.

In this connection he mentioned

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

ed that discussion and correspondence had been entered into last fall for the acquisition by the Bethlehem company of the Inland Steel company of Chicago, but that the project was dropped because of the uneconomic feature of its location in the west.

UNION LEADERS ARE INDICTED BY JURY

the crime record of the past 24 hours.

"That should prove to Chicago that the sluggers and thugs we rounded up yesterday in raids on union offices are responsible for the nightly outbursts of crime," he said.

"With the fellows in jail, there was not enough crime last night to startle a town of 25,000 people, and the only crime in the day was a jewelry store robbery that looks now like a fake."

Prisoners Deny Crime
In the meantime, flat denials of any knowledge of lawlessness were made by several of those held. Mader declared his innocence and offered a reward of \$1000 for any information leading to the arrest and conviction of the slayers of the two policemen.

Murphy Declared:
"Chief Fitzmorris had me pinched for carrying concealed ideas. I think there is a charge of foolish larceny, too," he added with a smile.

Murphy Appeals to Public

In a formal statement Murphy, who is out on bail following his being sentenced to seven years in the penitentiary in connection with \$400,000 mail robbery, declared he had no knowledge of any act of violence and appealed to the public for fair play and to suspend judgment pending the hearing of "these charges, of which I know nothing, against me."

Associated Charities Vacates Headquarters

The Associated Charities Wednesday gave up the rooms they have been occupying at the Red Cross building on State street, and officially cast themselves out into the street to be the object of charity that may or may not now look after the homeless.

The association still owes about \$75 on money already spent or guaranteed, for the relief of indigent cases that funds or no funds simply had to be cared for to prevent inhuman suffering. There are a few new cases coming along all the time, especially aggravated by the continued cold weather that makes the suffering more acute, and diminishes the chance of work for the women and children who usually get cannery work during the summer. With the fruit season almost a month later than usual, and the intervening time so cold and with so few other jobs, those who have had to wait for the fruit picking and canning season are suffering, in some cases acutely.

W. C. Wright Committed to The State Hospital

W. C. Wright, auto top repairer and frequent inmate of the city jail, according to police, discovered Wednesday that two Salem judges can keep their promises.

Wright, who has been arrested several times on a charge of

drunkenness, is regarded by the police as one of the products of open saloon days. Wright, until some one gives him liquor, is a quiet and industrious citizen. When he can get moonshine or some other alcoholic tonic, he is a source of annoyance, according to the police.

Recently, after four appearances at the city jail, Wright had a conference with Judges Race and Bushey at which time it was agreed that Wright should be sent to the state hospital for the insane if his alcoholic weakness got him into trouble again.

He was arrested Tuesday night by Patrolmen Victor and Branson and after a short sobering up period in the city jail was committed to the state hospital yesterday.

Every business that continues to exist must make a profit. This profit is determined by the number of cents of every dollar of sales it takes to pay the operating expenses of the business. The science of merchandising is constantly developing and one of the developments has been the odd cent pricing of goods. This is as it should be as every article sold should be priced at its actual cost plus a profit and if it happens to be an odd figure that figure should be the price. A NEW MAN AND A NEW DEAL

WHY WE ARE FIGHTING FOR GEORGE A. WHITE FOR GOVERNOR

HE STANDS FOR immediate action in cutting down the overhead cost of state government at least \$1,000,000.00 at the next legislative session.

He stands for immediate action in taking ALL THE BOARDS, COMMISSIONS, AND SCATTERED FUNCTIONS OF GOVERNMENT that have been springing up for the past quarter of a century, and welding them all, INCLUDING the public service commission, into NOT MORE THAN TEN RESPONSIBLE AND EFFICIENT DEPARTMENTS accountable to the Governor who is responsible to the people.

The state of Washington did this last year, clearing up the governmental debris of thirty years, and the saving to date has been more than \$4,000,000.00.

He will battle to a finish against the OWNERSHIP OR LEASING of our lands TO THE JAPANESE OR OTHER ORIENTALS.

HE OPPOSES adding to the state's crushing bonded indebtedness at SPECIAL ELECTIONS.

HIS RECORD as an executive GUARANTEES ACTION on the pledges in his platform.

An incident of his good faith in rigid economy in public affairs: He had \$140,000.00 of the public's money for use in mobilizing the state's manpower and resources for the World War in 1917. In those days when wild extravagance was the rule the country over

he put OREGON FIRST of all states in every emergency and when the job was done five months later instead of asking a deficiency appropriation HE TURNED OVER \$90,000.00 IN UNEXPENDED BALANCE. Oregon's per capita cost for the state war census and draft organization in Oregon before he volunteered for overseas service was the lowest of any state in the Union, except Minnesota.

Upon resuming his duties as a public official after the war he declared the Naval Militia, as it then existed, an unwarranted expenditure of the taxpayers' money, disbanded it at once and TURNED ITS APPROPRIATIONS BACK TO THE STATE.

HE HAS NEVER CREATED A DEFICIENCY and last year operated the state's Military Department for \$79,975, an amount which is less than the sum appropriated for the year, and in return brought into the state \$199,052.00 in federal funds for distribution among 2400 members of the National Guard of Oregon.

George A. White is a candidate for Governor on the urgent demand of thousands of Oregon's best citizens throughout the state. He is fearless of, and unfettered by, trusts, corporations, or any influences adverse to the interests of all the people.

A Vote for White for Governor Is Your Chance for a New Deal, a Square Deal, and an Economical Reorganization of the Governmental Affairs of the State
