UNION HEADS WILL CONFER

Concerted Action Against Wage Reductions Will Be Taken at Session

CINCINNATI, June 5.—(By The Associated Press)—Concerted action against reductions in wages of railroad workers recently made by the United States railroad labor board, will be the principal matter to be considered when head of 11 railroad labor unions go into session here tomorrow.

The conference was called by B. M. Jewell, head of the railway department of the American Federation of Labor, who will also preside at the sessions.

Leaders who arrived today held informal conference and discussed ways and means to bring the question of wage reductions before their memberships. Strike votes are expected in every organization, it was said, each union taking its vote separately.

It was pointed out that the matter of acceptance or rejection of the cut rates rests with the membership of each union.

Big Four' Not Coming Unions to be represented in the conference are the machinists, boiler-makers, blacksmiths, carmen, electricians, sheet metal workers, clerks, signal men, telegraphers, maintenance of way and stationary firemen and others.

Chiefs of the "big four" brotherhoods—the transportation unions—will not be present, it was said, because the present reductions of the railroad labor board have not affected members of their organizations.

Samuel Gompers, president of the American Federation of Labor was expected to arrive here tomorrow morning from Washington to take part in the discussions. Leaders tonight predicted the conference of the union officials will last for two and probably three weeks.
