

COLLEGE PAPER BIG SUCCESS

Last Issue of Collegian for This Year Distributed To Students

Yesterday the last Willamette Collegian for the year was distributed to its patrons, and the staff has gone on an everlasting vacation.

It has been a live college paper, one of the best real newspapers of the college world, east or west. There has been some discussion whether it should be a literary journal or a plain newspaper without a frill or justification save its veracity and industry. The latter idea has prevailed, at least for 1921-1922, and the editor and manager have come close to developing it clear up to the ideal of its class.

The Collegian has been well edited, eager to get and present the news, in an honest, unstilted manner. It is a real achieve-

ment to carry through the whole year, on volunteer, unpaid, working crews, so high a standard. Editor Sheldon Sackett and his capable volunteer staff will have something to remember for a long time, and the newcomers will have a hard and difficult mark to shoot at for a long time to come, if they hope to do anything better or even as good.

A woman has been elected for next year—Miss Helen Hoover. It's a hard grind, but she has established a reputation in Willamette for ability and industry, and if the Collegian for 1922-23 isn't a spectacular success, it will be because the printers or the post-office or the club reporters fall down on the job.

Good Help in Summer
Indigestion causes worry, nervousness, sick headache, biliousness, coated tongue, bad breath, bloating, gas, constipation and constant distress. Henry J. Thorne, 1002 Harrison Ave., Boston, Mass., writes: "Since taking Foley Cathartic Tablets I feel fine." They cleanse the bowels, sweeten the stomach and invigorate the liver. Cause no pain, no nausea. Not habit forming—just a good, wholesome physic. Sold everywhere.—Adv.

BUCHTEL NOT TO GO TO COURTS

Recalled Member of Service Commission Will Abide by Result of Vote

Fred G. Buchtel, member of the public service commission who was defeated in the recall election May 19 by Newton McCoy of Portland, expects to abide by the result of the official canvass of the vote without recourse to the courts.

Mr. Buchtel believes that many voters, because of a misunderstanding of the ballots, failed to record their true preference in the recall, and that some precinct officials, through misunderstanding of the law, threw out ballots that would have been favorable to him if counted, as they legally should have been.

"Within the next ten days the secretary of state will have completed the official canvass of the votes cast at the recent election and I expect to abide by that result, without recourse to the courts," said Mr. Buchtel.

"It is realized that the use of the several ballots throughout the district tended to confuse the voters; and that many unfamiliar with the involved form, failed to record their true preference. Numerous instances are also known where judges of election through evident misunderstanding, disregarded and disallowed ballots which legally should have been recorded in my favor; nevertheless, I have no desire to add to the turmoil already created, nor to delay future orderly procedure.

"For more than five years I have held the office of commissioner, during which time approximately 2000 decisions have been rendered, many of them of major importance, and all of them intimately connected with the welfare of the various towns, cities, communities, and the state at large.

"The war with the resultant effect on costs, federal control, involving jurisdictional questions, the period of reconstruction, and other contributing factors have tended to complicate fair and equitable regulation, making the position of commissioner for the past few years other than an enviable one.

"Having served as commissioner during the period when advancing labor and material costs required numerous rate revisions, it is but natural that one should also desire to serve at a time when the downward trend of op-

erating costs can reasonably be expected to permit of consistent rate reductions. However, this is not to be, and the final disposal of numerous matters and many complex problems must be left for solution to my successor and his associates.

"I believe the future will clearly indicate that the decisions rendered during my administration were in accordance with my oath of office, the law, and the facts, and in the interest of the state and the people generally.

"I wish to thank my many friends for their loyal support and confidence, as expressed orally and by letter during my term of office, and both before and since the recent election."

Will Surely Help Others
The condition of the human body is reflected by the condition of the kidneys and blood. If the kidneys are not functioning properly, waste products and poisons cannot be eliminated. Rheumatic pains, swollen, aching and stiff joints and muscles, dizziness and blurred vision are symptoms of kidney trouble. Mrs. A. Lechner, 1129 Main Ave., Clinton, N. J., writes: "Foley Kidney Pills have helped me and I will gladly give you permission to use this testimonial for they will surely help." Sold everywhere.—Adv.
