Many College Students

Have found that a term spent in business college, immediately after graduation from high school and before entering university, is an invaluable aid to them in their university work.

For the numerous class notes and lectures, shorthand and typing are most useful, while a thorough knowledge of bookkeeping is a logical preparation for the business administration and courses.

Summer courses begin next Monday, June 19. Write or call for information.

GOOD BUSINESS

To probide for emergencies before they occur is one of the signs of a wise man. Maybe nothing will happen, but if it does, you're ready for it.

That's why we rent so many Safety Deposit boxes to business men and women. They realize that after the light office safe, or the tin box at home, has been broken into, and important documents taken, it's too late to do anything but call themselves names.
