**PERSONALS**—Mrs. M. W. Hunt of Berkeley, Cal., with her daughter, Miss Gertrude Hunt, are guests at the J. T. Hunt home in Salem. Miss Hunt is an instructor in home economics at Centerville, Cal.

Mrs. Clifton Irwin is spending a few days in Portland. Gordon Voojels of Medford was in Salem for a short time yesterday.

**PRATUM NEWS NOTES**—D. J. Steimer and family had the misfortune last Friday having their home and a lot of furniture totally destroyed by fire which started from the chimney. Mrs. Albert Lichty their closest neighbor gave the alarm over the telephone and in a very short time many neighbors arrived to give their assistance as the fire was too far advanced to save the building. Every effort was made to save as much furniture and clothing as possible but on account of a strong breeze in a very short time the house was a mass of flames, a large wood pile between the house and barn caught fire a number of times but by careful distribution of the meagre water supply the fire was finally subdued and the large pile of wood saved and the barn which was partly filled with hay had a much better chance of being saved although it caught fire several times but Melvin Lion who was on top of the barn used a wet sack on a large stick and by use of the hay rope had control of every fire that started on the roof.

The following day Mr. Steins, while handling the hay fork got caught in the rope some way and was pulled up some distance with the hay. Throwing him against

the barn when released from the fork, receiving several very painful injuries.

D. Kleen and family, Geo. Kleen and family, Oscar and Alfred Meyer and their families, Mr. and Mrs. E. Branch and sons motored to Portland last Sunday.

Mr. and Mrs. Fred de Uries and daughter, Olivia, and Miss Lyda Stauffe attended the North Marion County District Sunday School convention at Hubbard last Sunday. Mr. and Mrs. de Uries will go to Mehama next Sunday to the Santiam District convention.

Wm. McAllister is installing a 25-horse power Diesel engine which he thinks will enable him to furnish the community with a high grade of flour and also take care of chopping and cleaning for the farmers of this neighborhood.

U. M. Lambert is building one of the finest barns in this locality. 1925.

# COTTON RATE CAUSES SPLIT

## Twelve Republican Senators Oppose Committee Rate on Roll Call

WASHINGTON, July 13.—The first real split in Republican senate ranks over the administration tariff bill came today during consideration of the cotton schedule with a result that 10 committee amendments proposing increased rates on various kinds of yarns and on silver and roving, were rejected one after another as fast as they were reported. The majority opposition was led by Senator Lenroot of Wisconsin, and reached its maximum strength on the first roll call, 12 Republicans opposing the committee rate on a roll call by which the amendment was rejected, 32 to 24.

The 12 Republicans were Borah, Capper, Cummins, Jones of Washington, Lenroot, McCormick, Nelson, New, Norbeck, Sterling, Townsend and Willis. The lowest Republican vote against any amendment was nine with the average running at ten. With a single exception on each roll call, the Democrats voted solidly against the proposed increases.

With the basic duties on yarns reduced it was predicted that cuts in the rates on at least the lower grade cotton cloth of even greater proportions than recommended yesterday by the finance committee majority would be made as the senate progresses with the schedule. That probably will be some time next week, as the schedule is to be laid tomorrow in favor of dye embargo provision of the bill. A vigorous fight over it is forecast with Senator Moses of New Hampshire leading the Republican opponents, Senator King of Utah making the principal argument for the Democrats in opposition.

Several members of the Republican agricultural tariff bloc joined today in the opposition to the committee increases in the cotton rate, but a majority of the bloc voted to sustain the committee.

Senator Lenroot argued against increases in rates on yarns and cloth not coming into competition with American produced yarns and cloth. He declared that on the cheaper grades the United States was shipping to all the world. He contended also that the compensatory duties on fine yarns made from long staple cotton were too high considering that the duty on long staple cotton itself was only 7 cents a pound.

Senator Smoot of Utah, on behalf of the committee majority, supported the increases, declaring them to be necessary to protect the industry, particularly that in the east, which, he explained, was producing now high grade cloth almost exclusively, the cheaper grades being turned out in southern mills. He called attention that high grade cloth came in from England in large quantities.

railroad employes to enforce their own views through methods of industrial war," the resolution added, "should meet the condemnation of all who believe in orderly process of settlement."

The president also received today a letter from estimator General Work, stating that a survey just completed showed that 59,000 motor vehicles could be made ready on 24 hours notice to carry the mails in event the railroad found it impossible to do so. Supplementing this the Aeronautic Chamber of Commerce of America, with headquarters in New York, notified Dr. Work that it was prepared to mobilize into an aerial mail fleet all commercial airplanes in use in the United States, and that such planes would be capable of transporting eight million first class letters daily.

The bureau of aeronautics of the navy likewise came forward, stating that it had at its disposal

the barn when released from the fork, receiving several very painful injuries.

Mr. and Mrs. Fred de Uries and daughter, Olivia, and Miss Lyda Stauffe attended the North Marion County District Sunday School convention at Hubbard last Sunday. Mr. and Mrs. de Uries will go to Mehama next Sunday to the Santiam District convention.

# NEGOTIATIONS ON REFUNDING DEBT STARTED

## Washington, July 13.—Preliminary negotiations for the refunding of the French debt of \$3,500,000,000 to the United States were begun today at the treasury by Secretary Mellon, chairman of the world war debt funding commission, and Jean V. Parmentier, director of finance of the French treasury.

This was the first direct contact between this country and the allies on the subject of the war debts which aggregate \$11,000,000,000.

The meeting of the French representative with Mr. Mellon was confined to a general discussion of the financial condition of France. M. Parmentier was informed that the commission desired statements as to the French budget for the present, past and future years, the volume of exports and imports and the trend of her foreign and general trade. When the French statements are available M. Parmentier is to meet with the full debt commission.

Great Britain is expected to be the next of the allies to begin refunding negotiations. Although official advice is lacking, information has been received it was said today at the treasury, indicating that Ambassador Geddes, on his return here soon, would be accompanied by British financial experts authorized to treat with the debt commission.

# GLORIA SWANSON NOT TO BLAME

## Court Rules She Didn't Use Personal Charms to Get Step-Father's Money

LOS ANGELES, July 13.—Gloria Swanson, motion picture actress and Mrs. Matthew Burns, her mother, did not conspire to get Mr. Burns to make a will in favor of his wife and against the interests of other relatives. This ruling was made today by the judge of the probate department of the superior court, James C. Rives. Judge Rives also held that Miss Swanson and her mother had not conspired to secure the marriage of the latter with Mr. Burns. This disposed of two of

# GOVERNOR REFUSES TROOPS

## DALLAS, Texas, July 13.—State troops will not be ordered out to protect property of the Missouri, Kansas & Texas railroad in Texas, "at this time," Governor Pat M. Neff said here tonight, after reading the telegram of Secretary of War Weeks relative to the railroad strike situation at Denison.

# BOY SCOUTS SAVE FURNISHINGS FROM FIRE

The members of the boy scout council in Salem are scheduled to partake of a real feed as soon as Mrs. J. F. Jones gets her belongings suitably housed following the fire at her home yesterday.

Mrs. Jones says that she will have more things to house than she would have had "if the scouts had not pitched in and worked like majors to save their furniture and belongings."

Loss from the fire was about \$5,000 according to Mrs. Jones. The home which was burned was at 400 South 19th.

# That Flop Off His Motorcycle

That flop off his motorcycle was thought at first to mean nothing worse than some bruises and a few skin abrasions, but these were the surface indications only. The flop, as the boy called it, was a fall of great force, and it caused spinal joint displacements affecting the kidneys and stomach.

The wounds were slow in healing, the sores too, and there was loss of flesh from the failure of the stomach to function properly. A chiropractor was advised and the trouble soon disappeared. Without the chiropractic adjustments the boy might have been weakened in health the rest of his life.

Chiropractic spinal adjustments correct diseases of the head, throat, lungs, heart, stomach, liver, kidneys, pancreas, spleen, bowels and lower organs.
