

By MARGUERITE GLEESON

Mrs. Frank Andrae spent a few days in Salem last week and has gone to Agate beach for several weeks.

Mrs. Frank Miller of Aurora will entertain a group of Salem women at her home tomorrow. The party will include Mrs. William Kirk, Mrs. Zadoc Riggs, Mrs. L. T. Harris and Miss Mattie Beatty.

Col. and Mrs. E. Hofer returned Friday evening from their recent Alaska trip, and other members of the party arrived in Salem Sunday evening. Mrs. Anna Hofer and Miss Dorothy of Panama, who were among those making the northern trip, will stay in Salem for the next month. Mrs. A. Strong and Miss Nancy

Thielson are also home, following the trip. Mrs. Linnie Ballou of Bellingham was another member of the party.

The Modern Writers will meet for an outdoor meeting tonight in Bush's pasture, according to an announcement of the leaders. A picnic supper will be served at 6:30 o'clock.

Mr. and Mrs. James Linn left yesterday for Bend where they will spend several weeks. A. N. Pierce accompanied them.

Mr. and Mrs. Allan Bynon spent the week-end in Salem as guests of Col. and Mrs. E. Hofer.

Mr. and Mrs. W. J. Busick are home from a week's trip to Newport.

Mr. and Mrs. Herbert Barnett have gone to San Francisco. They are on their way to Mexico where Mr. Barnett will have charge of a paper mill. He has been with the local paper mill for some time.

Members of the Riggs family gathered for a picnic and annual reunion Sunday at the old Riggs

homestead near Salt creek. Those attending the reunion were Mr. and Mrs. Z. J. Riggs, Mr. and Mrs. Barton Riggs and son Lige, Mr. and Mrs. John Riggs, Mr. and Mrs. Scott Riggs, all of Salem; Mr. and Mrs. Ross Conner of McMinnville, Mr. and Mrs. Ralph Conner and daughter, Lois of Dallas, Mr. and Mrs. George Conner, Mr. and Mrs. James Campbell of Salem, and Mrs. George Starr, Mr. and Mrs. Wood of Salt creek district.

Dr. and Mrs. W. H. Lytle have gone north for an outing trip. They will visit in Portland with Mrs. R. N. Stanfield, later going on to Victoria and Vancouver.

Business Women Will Convene in Portland

Portland, July 17.—Due to effects of the Business Women's club of Portland, the 1922 national convention of Professional and Business Women's clubs is to be held in this city, according to a message from Miss Louise Hacker and Miss Adella Prichard, who are in Chattanooga, Tenn., attending this year's national convention. Members of Portland's club and also the Oregon Federation of Business and Professional Women's clubs have been working for two years to bring the 1922 convention to Portland, and although there were many other invitations, Portland won with a big majority.

Miss Prichard states that there are more than 5000 delegates attending this year's convention, and that Portland may expect more next year owing to many women wanting to visit the west and to the rapid growth of clubs due to women's entrance into the business world.

BERRY SEASON NEARING END

Canneries Flooded With Loganberries During Past Few Days

Loganberries have been fairly flooding the canneries the past week, at least, flooding them as far as pickers can be had to provide the flood. It is probable that the peak of the season has been reached, if not just passed; the continued dry weather has shortened the season by one or even two weeks, and there will be no very heavy production after the coming week.

The early price agreement of 1 1/2 cents has been generally maintained, by both growers and pickers. Some few growers who had poor picking conditions, or small fields, or other reasons that made their work less desirable have offered even higher prices rather than lose their crop entirely; but this has not had much disturbing effect on the general picking conditions, and contracts have been carried out in the best of spirit. The grower who has to pay 2 cents for picking, for berries that already have fallen in production to one-half of a crop, is a long ways out of luck.

Few food-products require as much care as does coffee -- it's the care in the selection and blending of the green coffees that makes GOLDEN WEST

WIFE OF ENGLAND'S LORD CHANCELLOR.

Lady Birkenhead, wife of Lord Birkenhead, whose daughter, the Hon. Eleanor Smith, is eager to appear on the films, despite paternal opposition.

to talking about business affairs, reported to The Statesman that while the crop and the price this year make it hard for the grower, the way out is in doing as California has done for everything she raises—make a market for it, and make people want it.

"They've sold the world their climate and their beans and their sunshine and their trees and their traditions; we can sell the world our loganberries, when we fairly get started and learn how to stick together and market things," is his verdict.

"The loganberry works splendidly with prunes, which are a natural crop for the Willamette valley. All we need to do is to grow more of both, and get and keep together in making the world want and buy them, and it's all going to come our way."

JERSEY CLUBS PLAN PILGRIMAGE

Second Jubilee to Be Held July 25—National Field Man is Coming

There is only one simon-pure Jersey jubilee in the Willamette valley each year and that was held back in May. But because of the coming of Frank B. Astor, field man for the American Jersey Cattle Club, who is to spend a few days in Oregon, this week and next a second pilgrimage is to be held in Marion county, July 25th.

It is to start from the Meadow View farm of Mr. and Mrs. B. J. Neal, near Turner, at 9 o'clock, July 25, from there it makes the following schedule:

9:40 to 10—Stanley Riches, about two miles southeast from Turner.

10:20 to 10:40—Pickard Bros, near Marion.

11 to 11:20—Warren Gray, about two miles south from Marion.

Arrive at Brewer & Gentry's about three miles southeast from Aumsville, as near noon as possible where a basket lunch will be held. After lunch an address by Frank B. Astor will be the feature of the afternoon supplemented by inspection of the Brewer & Gentry herd with a demonstrative talk by Prof. E. B. Pitts.

Leave Brewer & Gentry at 3:30 arrive at C. A. Hansons about 2 mile east of Turner on the Aumsville road at 4 o'clock.

Mr. Astor has a moving picture film, also a number of excellent slides, and arrangements are being made for showing them at night either at Turner or Salem. Complete announcement of this will be made later.

Yeomen Representative to Be Shown Land

At the Commercial club luncheon, Monday, President A. C. Bohrstedt of the Marion-Polk Realtors announced that A. M. Farmer, the representative of the American Yeomen for selecting their national children's home, is to be their guest at their Thursday noon luncheon at the Marion. We urge all who can do so, to join in the reception to the distinguished guest, and to help "sell" the Willamette valley to him and his order as the best place in America to establish their home. Mayor George Halvorsen will preside at the dinner, and it is open to all interested boosters for Salem and Oregon.

At least part of the tracts that are to be offered for Mr. Farmer's consideration, will be shown on paper, at the Commercial club, this morning. So it is understood that July half a dozen tracts of from 1000 to 1400 acres each, will be offered within the radius of six miles from Salem; some of them finely shown up in photographic and descriptive book, lets that should make a fine presentation.

Iron-Man McGinnity, 34 years in baseball, went out the other day and won his game in the box. But no wonder. Joe comes from Danville, Ill., the habitat of Uncle Joe Cannon, where the air is good to the old men.

CARLOAD OF TIRES VALUED AT \$30,000

Vick Brothers Receive Largest Shipment of Tires in History of Cherry City

What is believed to be the most valuable car of merchandise ever unloaded in Salem was trundled up to the Vick Brothers' warehouse Monday and by night they had it all unloaded and had turned the car over.

It was a car of more than 3000 Barney Oldfield auto tires, all the way from the "999" Ford tire up to the largest of the standard cord tires. They range in one of the biggest giant auto cars known to the trade; layered like a honey bee packs its cells, so that a rat or a snake couldn't have crawled up through. The shipment is worth close to \$30,000, and the freight bill alone was \$1450 from the factory at Akron, Ohio.

That freight bill was one of the rarest things in the history of Salem. The Vicks had their check ready written for paying the bill, and were even a bit anxious when the agent didn't come and take it off their hands—until they learned that the bill was prepaid and their Salem money was no good. Such behaviors on the part of any soulless corporation!

ly care for the valley trade. Of this one car shipment almost 1000 were of the 30-inch sizes, showing the proportion to which both cars and tires are sold and used.

MADE DADDY SMILE
Father came into the house the other evening decidedly cross. His bad humor accompanied him to the supper table and he proceeded to criticize everything on the table. Finally he took a

mouthful of potatoes, made a face and then demanded: "Where on earth did these potatoes come from?"

Three-year-old Dorothy looked up from her own food to answer his question before mother had a chance. "Why, daddy," she said sweetly, "out of the peelings of course." And daddy could not keep from getting in a better humor after that.—Indianapolis News.
