

HOSPITAL NEED URGENT HERE

Publicity Manager of Salem Association Cites Important Facts

Because of the rapidly growing industrialism of Salem, and the urgent need for more adequate hospital service, the Salem hospital board is just now setting itself to the task of completing the hospital plant that still awaits completion.

It is realizing that with so many people employed in the big industrial plants—more than 500 people have worked in single Salem canning plants at a time, this year, and the total number of cannery employes alone runs above 2000—there might at any time come a terrible accident that might send many people to the hospital; and there is no hospital! That is, there is not sufficient hospital accommodation for even a small disaster. A big disaster might mean the loss of many lives through the lack of hospital service.

Financial Benefit Important

The financial benefit of a really adequate hospital, in a state like Oregon that has so few cities with such accommodations or such an array of specialists who would bring in hundreds of thousands of dollars every year from outside points, is possibly a small item compared with the humanitarian service of being ready to care for people who suffer; but it isn't negligible at that, and the board hopes to use even this sort of argument for those who find it most appealing.

H. S. Gile, the newly appointed publicity agent for the hospital board, gives the following interview regarding the present status of the matter:

People Own Hospital

"It is doubtful if the people of Salem think of the Salem hospital as their own property in the same terms as they think of the Y. M. C. A. and the Y. W. C. A., the school buildings and other public institutions. But it is just as much one of our public charges though we are not taxed or called upon regularly for its support."

"If the history of the Salem hospital were published it would prove to be interesting reading, especially for those who have given little thought to the many years of splendid service which it has given to this community."

Record Is Good One

"Thousands of patients have been cared for and the records will show that of these thousands treated a remarkably small percentage were lost. Hundreds of competent nurses have been graduated and no doubt hundreds of lives have been saved because its doors have always been open in every time of emergency. A vast amount of work has been done at less than cost for patients who were unable to pay full charges, and a considerable amount of charity work has also been done."

"In a business way the Salem hospital has distributed here in Salem in payrolls and for current expenses an average of not less than \$20,000 a year. It has at all times promptly paid its way. All this has been done through the good business management of its superintendents, working under the direction of its board of directors, without calling upon the public for help. Starting in a very modest way with the gift of a small piece of property on Twelfth street, it has gone steadily forward, quietly performing a high grade of hospital service for this community. Possibly the people of Salem for this very reason are not awake to the pressing needs of the Salem hospital at this time and the individual responsibility which rests upon us just now to furnish ourselves with a new and up to date plant to meet the ever-increasing needs of our rapidly growing community."

Institution Pays Way

"While the Salem hospital occupied its old plant it was able not only to pay its own upkeep but made many improvements on its buildings and equipment, paved its streets, and in view of the demands of the state for part of its ground which the board of directors foresaw would eventually become state property, they gradually acquired additional land on their west line so that the present site is ample for any buildings which the requirements of the city of Salem might in the future make upon this institution. This record of service, which is open to all, should make it clear that, given a good plant with which to carry on its work, it will continue to be fully self-supporting, while at the same performing its functions throughout future years as it has in the past."

Dallas Workman Loses His Eye in Accident

DALLAS, Ore., July 28.—(Special to The Statesman.)—Samuel A. Kennedy an employe of the Southern Pacific shops in

this city, had the misfortune to lose his right eye while at work this week when the head of a blacksmith hammer flew off and struck him. He was taken to a specialist in Salem following the accident and later on sent to the company's hospital in San Francisco.

Millionaire Stokes paid \$126,000 for attorney fees in his divorce case and the income-tax collector listed the item of payment as a luxury. The lawyer testified that it was a necessity, all right enough, and the classification was removed. It seems that a divorce is a luxurious necessity.

THRESHER PASSES OVER BOY'S BODY

Homer Zalinski, 4 Year Old of Quinaby Taken to Local Hospital

QUINABY, Ore., July 28.—(Special to The Statesman.)—Homer Zalinski, the 4-year-old son of Mr. and Mrs. John Zalinski of this place met with a distressing accident Tuesday when he fell from a high seat on a threshing machine and the wheels

of the separator passed over his body, breaking an arm and a leg and inflicting internal injury. The child was immediately hurried to a Salem hospital where he was reported progressing favorably last evening.

Entangled in a barbed wire fence Monday night during the absence of his owner, a valuable farm horse belonging to Herman Hahn had one leg stripped of flesh for several inches in addition to severe injury to bone and tendon when the animal broke down heavy posts in his effort to free himself.

Loganberry picking is practically over in the large yards and only a few scattering berries remain to be cleaned up. Although no rain interfered with picking this year the workers have suf-

fered from intense heat and two deaths were reported from nearby yards. With the low price paid growers it was impossible to pay pickers sufficient to make the work attractive and many berries were allowed to spoil on the vines.

The camp meeting under the auspices of the Church of God now being conducted at Woodburn is having a record attendance, an especially interesting feature being the Divine healing demonstrations. A recent case of a Mrs. Evans, an elderly woman who was brought to the meeting in a wheel chair and who left it walking, is attracting much attention. There are hundreds of persons assembled there from various parts of the state.

The new prune dryer erected by Arthur Girod is about completed

and is one of the most substantial and attractive buildings in this section of the country as only first class workmanship was employed. The expense of building is about \$1,000 and it is expected that it will be in readiness for the big prune crop of the owner and several other growers in this section.

Threshing is well under way. John Zalinski having started out Monday with a new machine that is doing rapid and satisfactory work. The laws governing travel on the Pacific highway are proving especially hard on threshers as they are obliged to make long detours on poor roads to avoid pavement, for the digging of the ditches along the highway so close to pavement as to prevent a piece of farm machinery travel-

ing between, or to travel between ditches and the fence, seems practically to have eliminated the farm travel, although the road rightfully belongs to the farmers and not to the joy riders who frequent it.

Edward Matthers, Jr., who has been spending the summer with his grandmother, Mrs. Susan McMunn, has returned from an outing at Newport, where he found every thing flourishing and immense crowds enjoying life by the seashore.

The reason why men are so ready to laud the courage of bandits, while deploring the use to which such courage is put, is because they would like to prepare an excuse and a defence for

themselves in case they should be caught doing something wrong, which required "nerve" for the deed's accomplishment. It is true that it often does require courage to do the wrong thing, to commit an outrage against morality, order or decency. However, courage is not a virtue in itself, for it belongs to wild beasts as well as to men. Courage is never a virtue. It is the use to which it is put that makes it noble or ignoble.

DO YOU KNOW WHY GIRLS LEAVE HOME?

LASTING Will Be the Impression of these Wonder Values!

\$ DOLLAR DAY \$

When the People's Cash Store advertises Dollar Day there's something tonical about it, that inspires everyone to look forward to this event with keen buying enthusiasm. We speak knowingly and within bounds of reason when we emphasize this DOLLAR DAY SALE as the top notch in value giving. Our July Clearance Sale has ended. Only the remains that perhaps were overlooked are left. We have been out on the market since, ready cash has helped us do wonders, now we're going to do wonders for you. The brand of new merchandise now on hand for this sale will be so lowly priced that it will present a treasure trove of bargains such as only possible by great efforts on our part. Start checking off your needs from this list NOW.
