Would you have a woman come in

to bake the bread?

It is doubtful whether she would give you as good bread as you can have delivered to your door, fresh every day; she'd clutter up your kitchen; meals would have to be prepared for her, and there'd be picking up and cleaning to do after she had gone.

You wouldn't consider that a very good investment, would you? And yet it is just as unnecessary and expensive to have a woman come in to do the washing, when a phone call will bring our saving, modern laundry service.

More than 2,000,000 American women are having their washing done this better way, every week. Join these progressives with whom wash-day is a thing of the past. Have us send our representative for your bundle—just use the phone.
