

ANDREWS IS UNDER BONDS

Veterinarian Stated to Appear Tuesday Morning in Justice Court

Dr. A. R. Andrews, arrested at an early hour yesterday morning by the police on a charge of possessing and selling intoxicating liquor, was released under \$150 cash bond to appear in justice court next Tuesday morning to answer to the charge.

Ted Walling, who was also arrested shortly after he was said to have purchased the booze from Dr. Andrews, was given a suspended sentence until Wednesday, at which time he will answer to the charge of possessing liquor. His trial will be held in police court.

Held as Witnesses

Wallace J. Ehlert, R. Dunn, Elsie R. Struble, Irene Jackson and Alice Jackson, all arrested in the Walling car as they were crossing the inter-county bridge and after an unsuccessful attempt to throw away a bottle of liquor, are being held under bond to appear as witnesses in the case.

The district attorney's office is handling the cases against Andrews and Walling.

Dr. Andrews, a veterinarian, stepped into the limelight several weeks ago when a member of the city council made charges in open council meeting that Dr. Andrews had been shown favoritism by Chief of Police Moffitt in releasing the former when he was brought to the station in, what the alderman declared, was a helpless state of intoxication.

Committee Investigates

A special committee was appointed by the mayor to investigate the charges, but there was no evidence found to substantiate the councilman's allegations. Shortly after the last council meeting, at which Dr. Andrews and Alderman Vandervort had indulged in heated words, Dr. Andrews was shot in the hand by a mysterious stranger as he drove into his garage. Police investigated the shooting affair, but were unable to find any trace of Andrews' mysterious assailant.

TOOZE COMES TO ORGANIZE PARTY HERE

of the Hays plan is that of naming a legal committee to be composed of lawyers, whose duty it shall be to instruct voters as to the mechanism of voting on measures so that ballots will be marked correctly. It is emphasized that such a committee should not influence the voter for or against any measure or candidate.

Another part of the plan would allow the precinct committeemen to name the election clerks and judges for the precincts, the county court to appoint them on the recommendation of the committeemen.

Contest Unfounded.

T. B. Kay, in a brief address, referred to the present election contest instituted by Charles Hall against Governor Olcott, declaring that evidence already had shown that the contest was without foundation.

"I cannot believe that Republicans will ever bolt the party in favor of some secret organization," said Mr. Kay. "To do so would disrupt the party."

Frank Davey declared that he had been a pioneer in the woman suffrage movement, and that he was as proud of being a Republican today as he was 47 years ago when he aligned himself with the party. He praised the party for having carried the nation through every crisis. He sounded a warning against the poison that has been injected into Oregon politics through prejudice that arrays neighbor against neighbor, regardless of party affiliation.

Reynolds Asks Unity.

L. T. Reynolds, one of the Republican nominees for the legislature, pleaded for party unity.

P. H. D'Arcy declared that prejudice and religious differences that had entered the primary campaign had caused the main issues, such as the tax question, to be lost sight of completely. He predicted a victory for Governor Olcott in November.

Senator A. M. La Follett and Henry Nelson, both of whom were present, told the meeting that they cast their first presidential votes for Lincoln.

Religious Freedom Sought.

"When the first settlers came to this country," State Chairman Tooze said, in addressing the meeting, "they came here in search for religious freedom which could not be found in other parts of the world. They were here for over a hundred years before they first became active in seeking political freedom. The United States has ever stood for equality for political and religious freedom, and has acted as a guide in these matters for the other nations of the world."

Respects Constitution.

"The constitution was framed around a representative form of government, not a town meeting form, or a democratic form. There are doubtless many people here who are dissatisfied with the democratic form which has been operative in this state for some years, and by the word democratic I mean not only the initiative and referendum but the recall and the direct primary as well. The more I see of the results of this system, the more respect I have for the framers of the constitution who adopted the representative idea."

Patriotism Peace Duty.

"Citizenship is not only a right but a privilege and the greatest patriotism can be expressed in time of peace by doing our duty in the matter of government."

"Because citizens of a country differ on public questions, political parties are necessary and as there can be only two sides to a question it is plain that there should be two great parties. These parties should be supported and kept strong and virile in order that they will be a check on each other. What we need is not less politics but more attention on the part of all good citizens to political matters. I have no use for the man or woman who has no time for politics and less time for the man or woman who enjoys the privileges of citizenship but who will not go out and vote."

Must Organize Now.

"My purpose at the present time is to organize the Republican party as it should be organized in this state. Under the direct primary law, each citizen votes directly on all party matters. While some of us may not like the results it is up to us to stand by party or our registration. Any other practice will in time destroy a party and while for a time it may aid the opposing party it will ultimately result in the elimination of all parties which would be a disaster to this nation. This is particularly true of members of the state and county central committees. They have assumed the role of representatives of their party and if they do this and then refuse to follow their party they are guilty of gross hypocrisy."

We must look to the future in this matter. In two years the Republican party must enter a real contest and will need a perfect organization to do our best in that fight. The Republican party is the party of the future. It is born of a national necessity. It is a party of patriotism.

Not a Reactionary

"Some of you can call me a reactionary, an old-time Republican and say that I should be a progressive. What is a progressive? Newberry was elected to the senate of the United States after he spent \$195,000 for the nomination. There was a great outcry. He was called a reactionary. Gifford Pinchot was nominated for the senate in Pennsylvania, recently after he had spent \$220,000 to get the nomination. He is called a progressive. The difference between a reactionary and a progressive is about \$25,000. You cannot tell me that any citizen of this country, reactionary or progressive, is not behind any move that stands for national betterment and improved conditions."

Warns Against Intruders

"I am here to organize the Republican party in Marion county, to build up a working group, call it a machine if you will. Today the Non Partisan league is knocking at the door of this state. In my own county, Yamhill, a solid, conservative, Republican county, which has not voted anything else but Republican for years, the Non-Partisan league is gaining a foothold. A real live organization of the Republican and Democratic parties would soon quash this move."

All Factions Decried

"I am making a tour of the state in hopes of initiating the movement for party organization among Oregon Republicans. I belong to no faction, no clique, I am not anti or pro anything, except it that I am pro Republican and anti to anything that is against the Republican party. We have started our organization here and I am sure the local committeemen will carry out the plans that have been laid. We are going to admit women into our organization on an equal basis with the men and there will be a woman vice chairman of the county committee appointed in the near future."

Committeemen With Party

Mr. Tooze is starting out to cover the whole state by auto. He is accompanied by his wife and small son, by Miss Betty Ruby, a stenographer, by his regular driver, and in each district by some member of the state executive committee. For this district he is accompanied by C. E. Ingalls, editor of the Corvallis Gazette-Times, and secretary of the state committee, John S. Kendall of Marshfield will travel with him through Coos and Curry counties. State Senator A. B. Robertson will tour Crook, Jefferson, Gilliam, Wasco and Wheeler. Lloyd Riches of Vale

Tom was picked up in the local yards of the Southern Pacific Thursday afternoon by the police chief. "He had just 'blew in on a rattler' from Redding, Cal., and was not 'doublin' back over any trails." Tom declined to give the police any information concerning his parents, other than that they were both dead. His brothers and sisters, he declared, he knew nothing of.

CHICAGO CARMEN STRIKE NEAR END

Men Will Accept 70 Cent Wage With Eight Hour Day

CHICAGO, Aug. 4.—Union officials and executives of the Chicago surface lines agreed tonight to proposals, which, if accepted by the traction employees, would end the four-day strike of surface line and elevated employees.

Immediately following the conference, it was stated that the men's representatives had agreed to a 70-cent maximum wage instead of the 60-82 cents wage but that they retain the eight-hour day with overtime for all beyond the eight hours and also retained working conditions in effect before the strike. Ratification by the men, if given, would allow cars to begin operation by Sunday or Monday, it was said, thus running the strike into its sixth or seventh day.

DR. GEORGE IS LION DELEGATE

Local Club Addressed at Meeting Yesterday by Prof. Paul Sampson

If Prof. Paul Sampson had the lions to cut out even part of the eats yesterday, they'd have roared lots louder than they did. But he didn't he only urged them to eat more carefully.

He talked on foods and food values, and how to make 'em work instead of fighting one another when they are badly assorted and tramping on one another's toes and blowing smoke in each other's eyes for pure cussedness. He told them to eat a plenty, but to do it with discretion and reason. His address was heartily applauded.

The club voted to send Dr. Chalmers George, one of the members, to the district conference at Seattle, as a delegate. They also voted to support Lloyd Bates, president of the Portland club, as district governor. Mr. Bates was toastmaster at the big Lion banquet in Salem, a week ago, and made a great hit with the members.

The new charter was brought to the Friday meeting, and was signed by all the members present. The club will continue to hold its weekly luncheons, without let-up for the summer. Lions have no vacations.

ity to their contracts and in the interest of public peace and safety, we have prevailed on our members to continue at their posts. Constant aggravation of the above conditions, and the refusal of the railroad executives to accept the proposals of the president for a compromise settlement of pending questions are making the situation infinitely more difficult to handle. The plain intention of the railroad executives to smash the shop crafts union is resulting in more and more of the locomotives and equipment getting into disrepair, and the dangers of a most hazardous occupation are being daily increased.

Big Four May Enter.

"We fear that a continuation of these conditions will inevitably result in our members, as a matter of self protection, being drawn into the controversy, and we greatly deplore such a contingency."

"Continued refusal to accept the president's proposals for a compromise settlement of pending questions will place upon the railroad executives full responsibility for the increasing seriousness of the situation."

Henry Van Winkle, a well known minister of the Christian church on the Pacific coast, became the owner of the D. M. Shattuck property at Shelton and Clay streets. Rev. Mr. Van Winkle has been pastor of the Oakland, Calif., Christian church for the past six years but recently decided to take up evangelistic work and decided to buy property in this city where the family has friends. The home is one of the most modern in the city and has been built but a few years.

Wheat Crop Only 60 Percent of Last Year

THE DALLES, Ore., Aug. 4.—The wheat crop of eastern Oregon is only 60 percent of that harvested during 1921, according to E. R. Jackman, specialist in farm crops at Oregon Agricultural college, who has just completed a tour of most of the eastern Oregon counties in wheat and potato certification work. The average yield for Umatilla county this year is about 23 bushels per acre, Jackman estimated.

"In Sherman and Morrow counties, where the wheat ran from 30 to 35 bushels per acre last year, from 15 to 25 bushels are being harvested this year," Jackman asserted.
