

**Discharged Officers Receive Other Honors**

TOKIO, Oct. 13.—Fate seems to be smiling on the military officers who have been discharged in connection with military re-

forms, many of them being appointed chiefs of villages, towns and some of them even of cities. The latest appointment reported of a general officer is the nomination of Lieutenant-General Shibamex, chief of the military af-

airs bureau in the war office, as mayor of Mito, in Ibaragi province. The general's appointment to the position, however, has given rise to a serious controversy between the general and the local

**SWITCH THROTTLE IS NEW FEATURE**

Device on Oakland Has Appeal to Motorist Who Likes Finished Car

A new headlight dimming switch and spark and throttle control, mounted in a small and compact housing on the steering column are among the most unique mechanical features on the new 1923 series of Oaklands.

The Oakland is the first automobile to have a headlight dimming device so placed—an innovation in the automobile world.

The dimming apparatus, and the spark and throttle control are each operated by a lever without taking the hand from the steering wheel. When the amount of light driving is taken into consideration, the value of such devices cannot be over-estimated.

The dimmer switch, which controls the dimming of the headlamps is simply an electric switch mounted in this control housing and connected across the resistance coil on the ignition and lighting switch, which is mounted on the instrument board.

The levers which respectively control the advancing and retarding of the spark and the opening and closing of the throttle are connected internally to small grooved pulleys to which are attached flexible braided wires. These wires are led down through the centre of the steering column and through flexible metal tubes to the distributor and carburetor respectively.

To provide for quick starting winter and summer, a new improved manifold and Oakland-Marvel carburetor have been adopted. This new carburetor has a heat control working automatically with the throttle, insuring a uniform mixture the year round under all weather conditions. A new Remy distributor with a semi-automatic advance and retard feature cares for all spark adjustments.

Gear shifting lever has been lengthened considerably to allow for shifting with a minimum of effort. Each of the models is powered with the Oakland overhead valve engine built in the Oakland plant, the only motor carrying a 15,000 mile written guarantee.

governor. According to the papers, the general was first approached by the governor with the offer of the mayoralty but he declined to accept the portfolio and the governor reported to the home department accordingly. Later, the general changed his mind and accepted the nomination. The local governor thought things himself insulted and the home department has been called upon to settle the matter.

**Theosophy—** Solves the problems of life. Send for free booklets on Thought Power, Life after Death, Reincarnation, etc. Theosophical Society, 826 Oakdale Ave., Chicago.—Adv.

**Minor Accident Reported—** Two slight motor car accidents were reported Saturday. One was on South Commercial street, when J. P. Sohn and some unidentified driver brought their cars together with little damage to either. The other was a collision between C. O. Johnson of Corvallis and H. W. Delaplaine of route 9, on South High street. In this latter case the very unusual condition is that both drivers reported the accident. Mrs. Gantenbein, of 696 North Cottage, reported that her car had struck a boy, Karel Steiner, who was riding a bicycle, at Church and State streets. The bicycle was badly damaged, but the boy was apparently little hurt. A. E. Peter-

son of 823 North Commercial deposited a \$10 bond for speeding, and forfeited it without appearance. Mrs. G. W. Thompson was arrested for driving without a license.

**Pied Piper Tea Room—** 346 N. Capitol Street. Luncheon, 35c; dinner, on reservation, 50c.—Adv.

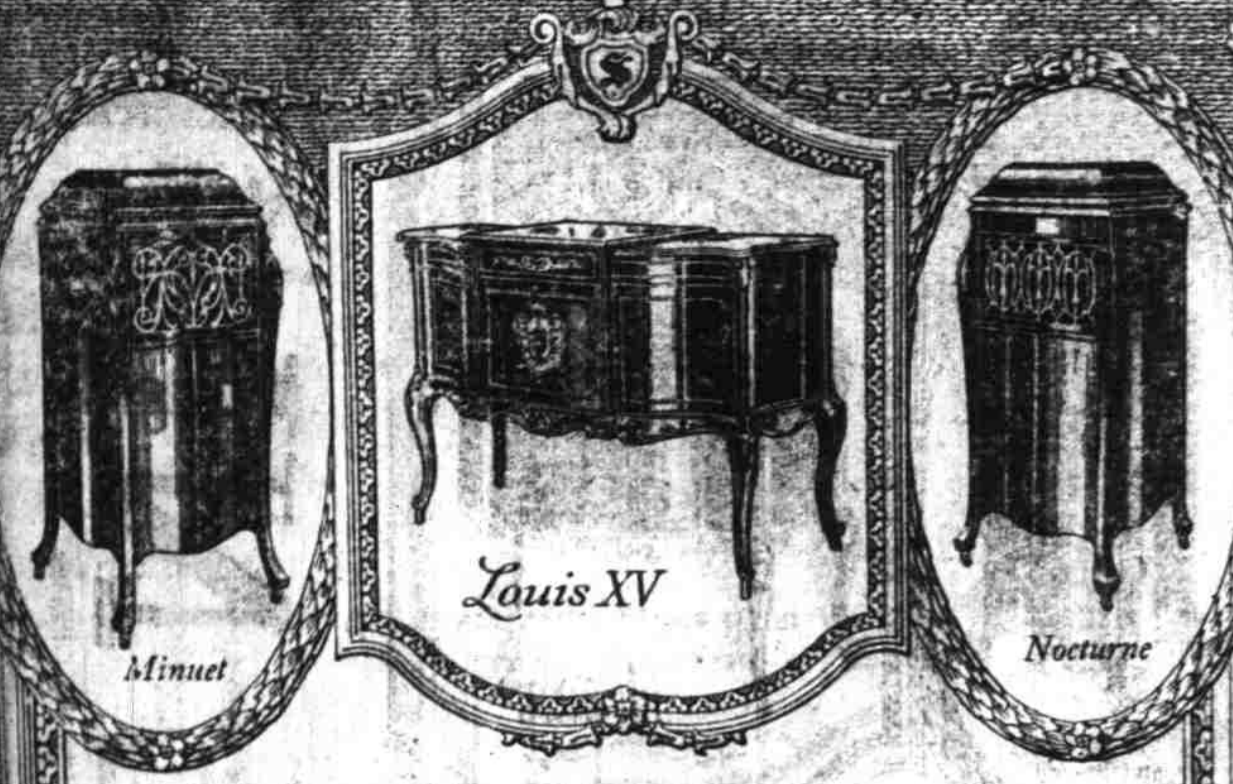

**Convicts Sighted—** That the two convicts who escaped from the penitentiary a week ago were seen yesterday near Brooks was the report made to officials. The theory that the convicts went south to Eugene has been abandoned by the authorities. It was said that a guard was to be placed between Brooks and the Willamette river.

**MacDonald's Farmer Almanac—** At Tyler's Drug Store.—Adv.

**Fried Chicken Dinner—** Served all day at the Gray Belle.—Adv.

Henry Ford has posted a notice in his Detroit factory to the effect that any workman who comes to the plant with whisky on his person, or whose breath indicates that he has been drinking whisky,

wine or beer, will be automatically discharged. Great love has made great sacrifices which it required a great love to accept.
