PRICE: FIVE CENTS

W. M. PIERCE IS ELECTED

CIESY IS MAYOR

MARION GOES FOR DEMOCRAT BY BIG COUNT

Pierce Has Lead of About 2000 Over Olcott in Local Returns With Consistent Vote Everywhere.

SCHOOL BILL BEHIND IN THIS DISTRICT

Hoff, Churchill and Campbell Easily Run Away from Opponents

Complete returns received from 48 precincts and incomplete returns received from five precincts, indicate that Walter M. Pierce, Democratic candidate for governor, has carried Marion county in yesterday's election by a majority of not less than 2000 votes over Ben W. Olcott, Republican incumbent.

Mr. Pierce polled a consistent vote throughout the entire county, with the exception of the Mt. Angel, Sublimity and St. Paul precincts. These precincts went to Governor Olcott by almost a unanimous vote. Governor Olcott also carried two Salem precincts, but the majorities were small and failed to dent the Pierce margin.

The compulsory school bill, around which was waged the most bitter fight in the campaign, apparently has been defeated in Marion county by a slight majority. Latest available figures tabulated early this morning showed that 2335 voters had cast their ballots in favor of this measure, while the opposition had assembled 2311 votes. In case the missing precincts return majorities against this bill consistent with the results at hand, the measure probably will lose by 500 votes.

Hoff Has Big Lead
O. P. Hoff, Republican, for state treasurer, has carried Marion county by an overwhelming majority over his Democratic opponent. Mr. Hoff's vote, based on incomplete returns, was 5652, as against 3995 for Mr. Touvelle, J. A. Churchill, Republican, was leading S. S. George, his independent opponent, for state superintendent of schools by a majority of 5036 votes. When the complete returns are received it is likely that Mr. Churchill's lead will be increased to approximately 6,500 votes.

Gram Far Ahead
C. H. Gram, Republican, probably will defeat his Democratic opponent in Marion county by

BIRTCHET WINNER BY BIG MAJORITY; POULSEN ELECTED

Incomplete returns, at 2 o'clock this morning, give the following general results for Salem; with about 500 votes yet to come in:
Giesy, mayor, wins over Vandevort, 2682 to 2096.
Poulson, for recorder, has 2402 to Frazier's 2098.
Birtchet, for chief of police has 3153 to Motfitt's 1697.
The measure for the apportionment of the chief of police by the mayor has 2136 for to 2086 against. It has the precarious majority of 50. It requires only a bare majority.
The fire apparatus measure for \$13,500 bonds for fire equipment, is safe, with 2932 for and only 1288 against. It requires a two-thirds majority.
Almost every precinct in the city gave a decided majority for Pierce for governor.

HAWLEY TALKS ON NATIONAL ISSUES

Industrialism and Trade Discussed at Chamber of Commerce Luncheon

"I met a man over in Marshall field who said, 'Now I don't like this man Bump they're running for congress—I shan't vote for him at all. There are too many of that kind already, back in Washington.'"
That was the first part of congressman W. C. Hawley's address at the Chamber of Commerce luncheon Monday noon. The rest of the time he spoke on more serious things than Andy Gump, on the government going into industrialism and trade, and into business in the ship subsidy bill.
"I do not believe in imperialism," he said. "The people should have a large part of the powers of government. The state government is easily controlled. The National government at Washington is too far away for control. The general government, therefore, should have only the larger problems, affecting the people as a nation."
Elaborating this problem, the speaker told of the Ford proposal to lease the Muscle Shoals power in the Tennessee river, the government finishing the enormous expense of building, and guaranteeing the Ford company 8 per cent on its nitrate manufactures. He held that this was a kind of personal monopoly, taking the taxes of the whole people to build up a private business that would come into direct competition with many of them, and giving the one contractor a great advantage, that the people needed to consider carefully.
"Once you enter into such a program, who shall say how far it is to go? If the government furnishes capital and plant for one, why not for another, or for all? We get back into the Socialistic state along this road. We need to know what's ahead of us on this dangerous road."
Mr. Hawley spoke at some length on the ship subsidy bill, explaining first some of the difficulties in getting the \$4,500,000.00 worth of federal ships off the government's hands. Most of the ships were built suitable only for war use. A Coos Bay lumber shipper, Mr. Owen, who went back to look over the shipping board vessels in a six months' search found only two that could be adapted at all to his use, and even these cost half as much to change as the ships cost in the first place.
The matter of untaxed federal and state securities was brought up, the speaker saying that there is close to \$25,000,000,000 of

Taximeters in Mexico Are Cutting Down Fares

MEXICO CITY, Nov. 1.—The rainbow is well represented in the veritable flood of taxicabs that has descended on the capital during the past few weeks.
Displacing the small cars which hitherto have been the only means of motor transportation, one may now ride in a taxi of almost any hue—yellow, blue, white, brown, green and variegated. The original colored taxicabs were operated by organized companies, but their competition became too great and several chauffeurs met it by painting their cars. The new taxicabs have fare meters, something new in Mexico, and the result has been a general decrease in cab fares.
