

# U. OF W. BEATS STANFORD 12-8

### Victor in Doubt Until Last Quarter—Both Teams Put Up Dogged Fight

STADIUM, STANFORD UNIVERSITY, Cal., Nov. 18.—Washington's hard fighting Huskies outbattled an equally hard fighting Stanford football team in the Stanford Stadium here today and left for home tonight on the long end of a 12 to 8 score.

The contest was the best seen here this year and the lead swung back and forth, with Stanford on the top side of the score part of the game.

Washington's famed forward passing offense failed to make the gains expected but a powerful backfield did what the aerial attack could not do and gained when gains counted. Leonard Ziel, described as the best player in the Pacific northwest lived up to his reputation and played a strong game, scoring all of Washington's tallies.

Only one touchdown was made during the game, both lines holding particularly well when battling near their own goal posts. Each team made two place kicks. The first, secured by Washington, came in the first period. Stanford tied the score when Cuddeback sent over a kick, and took the lead when the same player booted across in the same period. Ziel booted another across in the third period for the three points that tied the score. In the third period Stanford worked the ball to Washington's eleven yard line where Cuddeback tried for a third kick but failed.

**Cardinals Fight Hard**  
In the fourth period Washington intercepted a Cardinal forward pass and the Huskie drove down the field, one big gain being made when Hall broke through tackle for sixteen yards. The Cardinal line, battered back to its five yard line, fought desperately and forced Washington to make four plunges before Ziel could get across with the ball. A bad pass lost for Washington the chance for the extra point.

Dr. Anna McGrath, one of the youngest internes at the Norwegian Hospital, Brooklyn, N. Y., can perform a man's task in a man's way. She goes out on calls whether they come in at midnight or at 3 in the morning, but looks as healthy as though eight hours of sleep were hers nightly instead of four. Dr. McGrath is said to be the only regular woman ambulance surgeon in America.

and defects in the different parts of the machinery than by striking the metal with a hammer and then comparing the noise of the vibrations with the piano notes. The man operating the piano must have a trained ear for music, seeing that it is his business to listen for the slightest discords. If the metal rings harmoniously with the piano note all is well; the least flaw will result in a discord. Defects that are hardly to be noticed by the ordinary method of hammering are at once evident when the piano test is employed. A locomotive that rings true all over, each note which it yields synchronizing properly with the same note as given by the piano, is certainly fit to take its place in service on the railway. — Scientific American.
