

COL. SMITH HARD HITTER

Soldier Declares Obedience to Law is Obligation of Citizenship

Col. Dan Morgan Smith, soldier in the World war, and a lecturer of national fame, addressed an audience that jammed the First Methodist church Sunday afternoon. He is a brilliant speaker, a big man, with his voice, big ideas, and his talk on the war was said by those who have heard them all to be the greatest war story ever told in Salem.

All Are Warriors
They're all warriors, the Swedes, the Italians, the Jews, the Indians, the Irish, the Dutch, the Belgians, who served under the allied flags and especially under the Stars and Stripes, as Col. Smith saw them. He had one squad of eight Ole Olesons. The picture of what happened to Lieutenant Ole, and three Sergeants Ole, was splendid tribute to four of the eight "Americans" who died on the field of battle.

Audience in Tears
And the audience cheered and wept for, and loved the little Jewish runner who carried Col. Smith's message asking for more ammunition, and died in his arms from the hall of machine gun bullets that caught him as he got almost back to his buddies who needed the ammunition with which their one battalion finally whipped four Hun regiments.

The speaker is a large, portly man, with a figure that looks not at all like the average prohibitionist. They would pass such figures by in the military draft—until they study the iron jaw and the spirit that lives behind the steady eyes. Col. Smith, however, is a really prohibitionist, working with the World League Against Alcoholism and his address was a powerful arraignment of the bootlegger and his pals, the booze hounds who help him to violate the laws.

Law Obedience Obligatory
The speaker made the point that just as the nation failed and should have shot the slackers who tried to dodge the war issue by saying that they didn't vote for war and so were not bound to obey the call to national loyalty, so the nation should treat those who deny their obligation to obey the 18th amendment because they didn't vote for it. The application of the theory that patriotism and loyalty to the nation's laws in time of war is only the same kind of an obligation as obeying the laws in time of peace, was excellently made, and made a powerful impression.

MUST FILE CLAIM BY DECEMBER 15

Opportunity for Vocational Training for Service Men Soon to Expire.

Every ex-service man who believes that he has a claim for federal vocational training should get in his application at once. If he does not do so by December 15 he will be automatically and irrevocably barred from future benefits along this line.

Under the "deficiency bill" approved June 16, 1921, the men were allowed 18 months to file their applications. A year is allowed after the notification is given that the application is accepted for the applicant to start the vocational training work. It gives that much longer time for the soldier to get ready for the training work if he desires it. But if the application isn't in by December 15, there will be no further opening of the case.

This application for vocational training should not be confused with the application for compensation, though they are now made out on the same printed

PILES

Cured without Knife, Operation or Confinement

THOUSANDS of reputable and responsible Northwest people can testify to my unflinching skill in curing Piles. Why suffer the pain and discomfort when my non-surgical method will cure you to stay cured?

I remove all doubt as to results by agreeing to refund your fee if I fail to cure your Piles, no matter how severe or chronic the case. Write or call today for my FREE booklet.

DR. CHAS. J. DEAN
235 AND MORRISON PORTLAND, OREGON
MENTION THIS PAPER WHEN WRITING

form. The time fixed for filing disability claims is five years from the date of discharge, or five years from the date of disability, if the disability is incurred after discharge from the military service.

The Red Cross is the best agency for the handling of all such claims. Every ex-service man who feels that he has the least foundation for a claim against the government should take his facts to the Red Cross, and be advised as to his rights. The time is short for filing some of these important claims. It would be grievous wrong to himself and his family—and to the nation—for any deserving soldier to neglect it until the time is past, and then have him suffer on through the years and feel that the country is ungrateful or forgetful. Only the soldier himself can actually know the facts. It is up to him to take them to the authorities at the appointed time.

RECOVERS FROM RHEUMATISM

"Had rheumatism five months that would go from my left knee to my back. Tried many remedies without relief. Finally used Foley Kidney Pills and in fifteen days was entirely cured," writes W. J. Oliver, Vidalia, Georgia. Backache, rheumatic pains, dull headache, dizziness and blurred vision are symptoms of kidney disorder. Foley Kidney Pills quickly relieve kidney and bladder trouble. Sold everywhere.—Adv.

OLD RAG RUG IS AGAIN IN VOGUE

Former Means of Income Again Appears for Farm Women of America

WASHINGTON, Nov. 20.—With the return to vogue of the rag rug and "crasy" quilt, farm women in many sections of the country have found another means of adding to the family income. Thus the art of making these rugs and quilts, started in the rural sections in Colonial days, returns again to the farm.

Department agents report that the women and girls themselves started the rejuvenation of the art, and now extension agents are in Arkansas and Mississippi especially the farm women have taken up the rug making. One agent recently reported a woman near Little Rock was devoting her spare time to making pulled, or hooked, rugs, in designs she took from nature herself, using flowers and forest leaves for her models, and is finding a ready market at good prices for her output.

In another part of the same state another woman, using a wooden loom brought from England many years ago, not only is making rugs, but is weaving beautiful woolen coverlets of unusual design.

In addition many of the popular rag rugs are being made, including the braided and crocheted types. Crazy quilts and counterpanes of applique work are also being revived. The women, however, are not confining their efforts toward the manufacture of the articles but are teaching their neighbors, and have even organized classes for the renewal of the pioneer art.

Grade Crossings Allowed By Service Commission

The public service commission issued an order yesterday allowing Benton county authority to construct a highway crossing at grade over the Southern Pacific tracks at railroad station 2332 plus 52 to afford more convenience in reaching a warehouse.

Another order of the commission allows Benton county authority to construct a grade crossing over the Southern Pacific tracks on the Albany-Corvallis road about two miles from the Albany bridge.

A third order of the commission refuses to require the Southern Pacific company to continue its station at Liberal, Or., as demanded in a complaint of the citizens of the district, but it requires the railroad company to provide for handling bills of lading and otherwise accommodating its patrons there by installing a drop box. It is held that public necessity does not require a continuance of the station, which the railroad company proposes to discontinue.

Governor Denies Ku Klux Run Louisiana Government

WASHINGTON, Nov. 20.—Governor Harker of Louisiana denied in a statement tonight that the Ku Klux Klan "had reduced the sovereign state of Louisiana to the vassalage of the invisible empire," as stated in some newspaper dispatches from Baton Rouge. There had never been the remotest idea on the part of anyone in Louisiana, he declared, of appealing to the federal government "to go into the state of Louisiana and take over the administration of government."

TEXAS LEADS IN AID ROADS

Ten Thousand Miles of Federal Highways Built During Last Year

WASHINGTON, Nov. 20.—Ten thousand miles of federal-aid highways were completed in the last fiscal year, bringing the total mileage to 19,308, says an announcement of the bureau of public roads department of agriculture. The year's work constituted a new record.

Texas leads in miles of completed federal-aid road with 1,733 miles, while Minnesota is second with 1,416. Texas also is first in mileage under construction with 1,408 miles, and Nebraska is second with 970 miles. Iowa is third with 945 miles.

Allotments Heavy
Texas and New York receive the largest allotments of federal aid, which is distributed on the basis of population and mileage of state highways.

Aside from the federal-state highway work, the bureau of roads has completed 1,352 miles of road in the national forests, and there are under construction 617 miles, the whole to open up regions of great natural beauty.

Big Program Ahead
Based on available data, bureau officers state, the sum to be spent this year on highways will total \$742,000,000. The figure includes federal-aid roads and projects built in addition by the states and smaller municipal units without the aid of federal funds.

More than 30 miles of bridges have been built under the federal-aid highway program since 1916. One of the largest of these bridges, that from Mandan to Bismarck, N. D., is more than three and one-half miles long and cost \$1,428,000.

Additional Impetus Given
Highway building over the country is to be given additional impetus, as the result of assistance offered by the federal government. The bureau of public roads has addressed a memorandum to all the state governments, and road builders and highway engineers are urged to write to Washington to obtain allotments of explosives, building for use both in construction and maintenance.

ENTIRE FAMILY HAD "FLU"
"Keep right on using Foley's Honey and Tar. It will give quick relief," said the doctor, when the entire family had the "flu." "Never saw anything so good," writes Mrs. A. B. Griffith, Andrews, Ind. Neglected coughs and colds often lead to serious complications. Foley's Honey and Tar gives quick relief. Free from opiates (ingredients printed on the wrapper). Largest selling cough medicine in the world. Sold everywhere.—Adv.

CITY COUNCIL HAS VERY BUSY SESSION

(Continued from page 1.)
suggestion of Alderman James McClelland, who advised that an investigation be made of "what was inside some of soft drink dealers barrels," the matter of granting the applications was left to the license committee.

A motion made by Alderman Thompson that the city refuse to grade streets until there was sufficient money in the treasury to gravel them was lost, it being contended that the graving might not take place until some time after the grading when there would be plenty of funds in the treasury.

WHY STAY FAT? YOU CAN REDUCE

The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. Marmola Prescription Tablets overcome all these difficulties. They are absolutely harmless, entail no dieting or exercise, and have the added advantage of cheapness. A cure is sold at one dollar by all druggists the world over, or send the price direct to the Marmola Co., 4612 Woodward Ave., Detroit, Mich. Now that you know this, you have no excuse for being fat, but can reduce steadily and easily without going through long sieges of voracious exercise and starvation diet or fear of bad effects.

Japanese Oil Industry Suffers from Competition

TOKIO, Nov. 20.—The oil industry in Japan, which made noticeable development under the protective policy of the government, is suffering greatly from the competition of foreign oils. Under ordinary circumstances the demand for oil rises at this time of the year and the price shows a rise, but this year there has been no particular demand. The consequence has been that the stock continues to increase and the quotations to fall instead of rising.

GUARDSMEN TO BE EXAMINED

Nine Candidates for West Point to Take Tests in Salem Today

Examinations will be held here today for the purpose of selecting a candidate for the Oregon national guard to take the final examinations for entrance into the United States Military academy at West Point, to be held next March.

Col. Robert McCleave of Portland will conduct the examinations, assisted by Major James S. Dusenbury of Salem, Captain William Kettle of Woodburn and J. A. Churchill, state superintendent of schools.

Those who will take the examinations are: Corporal Donald Peterson, Company I, 162nd infantry, Silverton; Corporal Jesse F. Dressler, Company A, Medford; Corporal Harold G. Savage, 455th company, Marshfield; Private Ralph R. Peasley, hospital company, Lebanon; Sergeant Clarence S. Howe, Company G, Portland; Sergeant Leon M. Erickson, Company E, Portland; Corporal Neil Burdick, Company B, Portland; Sergeant Cecil W. Kennedy, Howitzer company, Portland; Private Clifford W. Rich, 493rd company, Albany.

EDUCATION IS DONEY'S THEME

Need of Christian Alliance in Learning is Pointed Out in Sermon

Dr. Carl G. Doney, president of Willamette university, occupied the pulpit of the First Methodist church Sunday morning, where he delivered a powerful sermon on the need of Christian higher education.

He pictured all the unrest of the world today, and then summed it up by saying that it is all the product of "education." Education, however, he showed to be not an evil in creating an atmosphere of unrest, but a means of advancement.

Corvallis Fire Engines Blocked in Traffic Jam
Those who took in the game at Corvallis, Saturday—and there was said to be not far from 5,000 cars in the caravans that crowded in from everywhere—will not soon forget the traffic jam that these miles of cars created.

The streets through the college grounds and down to town, are not very wide. There is no such thing as really hurrying the traffic. It took the better part of an hour for the line to get clear of the grounds with the cars at hardly greater than a car-length interval of space.

A fire alarm that called the two big fire trucks up past the line of autos added to the congestion. A few of the greedy drivers who couldn't wait for their place in the line had double lined the road, and there wasn't

room for the fire department to get by. They had to skurry in to the parking strips, for the fire trucks to get by. It was a spectacular jam, and it wasn't the luck of the gods that it wasn't a big fire, for there was time for almost the whole group of college buildings to have burned to ashes while the fire boys were blockaded and helpless.

Museum of Achievement Established at Tokio

TOKIO, Nov. 20.—A museum of "Today and the Future," with exhibits that start from the present and not from the past was founded October 1 as a part of the celebration of the formal establishment of Greater Tokio. On that day the city limits were extended in all directions and the area under municipal control to include towns as far as Yokohama as Omori.

No Place for a Has-Been

High Price of Land Keeps High Cost High

OSAKA, JAPAN, Nov. 20.—Great efforts are being made by the government and the people of Japan to bring down the cost of living, but leading economists agree that it is difficult to bring about a permanent reduction of the price of agricultural products as long as the value of farm lands remains high.

There are about fifteen million acres of agricultural lands in Japan, of which approximately one-half is paddy field, which is exclusively devoted to the growing of rice. The average value of the rice fields in Japan is as high as \$1,240 per acre.

Bible School Space is Added by Local Church

The First Christian church has begun the construction of additional class rooms for the growing Bible school conducted by the congregation. A second story will be added to the present room, giving larger floor space for departments and separate classes. The graded system is used and the new equipment affords facilities for more efficient service. The new addition will give over 20 rooms for class purposes and also assembly rooms for departments, making the plant one of the best in the state for Bible school work. The new addition will be ready for use by the first of the year.
