

HEALING REPORTED BY EVANGELIST

Several Persons Testify to Cure of Bodily Ailments At Armory

The largest crowd yet seen at the meetings held by Evangelist Betts gathered Tuesday evening at the armory. The service was one especially set aside for the healing of sick bodies. Many testified of healing during the former services. One woman told of being instantly healed last Saturday night from excruciating pain caused by necrosis of the jaw bone. Others testified of being healed of cancer, deafness, asthma, leakage of the heart, tubercular glands, etc. There were many wonderful healings performed on

the platform before a large audience. Yesterday was family day and for shut-ins. Great interest is being shown during these meetings, which continue over Sunday. The testimony of a young woman is as follows: "I truly praise the Lord for what He has done for me. He has healed me of 13 different ailments. I have spent hundreds of dollars to doctors for my body. I had continual pain, and could hardly go to bed without the hot-water bag. Now I have no pain at all. I have been to several specialists for my ear which was deaf, caused from a mastoid operation. Now I can hear the tick of my wrist watch with that ear. When I was prayed for Sunday night, I promised God I would go into the highways and byways — anywhere — telling others of Jesus' power to save, sanctify and heal."

The first 11 verses of St. Mark were read, giving the account of Jesus healing the palsied man. These verses brought out the thought that forgiveness of sins

comes before the healing of the body. Dr. Betts said: "The Son of Man is the same yesterday, today and forever. He died for spirit, soul and body. These healings that you have seen and heard of here are not of man. It is the power of God."

Many sought salvation as well as healing for their bodies after the service.

A Tale of Toothache

Toothache is probably the most universal disease and, according to recent calculations, 92 to 95 per cent of civilized humanity suffer from it at some stage of life. Eminent medical authorities have recently discovered that the causes of toothache are to be found in two types of bacilli which attack the teeth, produce decay and thus bring on aching. It used to be thought that that toothache was a disease of civilized man and that its appearance was evidence that he has degenerated. But recent investigation has proved this view to be entirely wrong. Artificial teeth have been found in Egyptian tombs; specimens of "bridge-work" have been excavated in Etruscan graves; and the grim but familiar forceps figures among Roman remains.

SUNNYSIDE FOLK ARE ENTERTAINERS

Real Holiday Luncheon Served Federation After Speech by Dodson

Almost everybody in Sunnyside school district was out last night to attend the regular monthly meeting of the Marion County Community federation. It was the foggiest night of the year, and as muddy as aboriginal Oregon, but they turned out en masse.

W. D. B. Dodson, manager of the Portland Chamber of Commerce, was the speaker of the evening. He rates as an authority on community cooperation, and the address he gave was of absorbing interest. He is working up the Portland program of publicity and of state cooperation and development of production. This includes a limited expenditure of money for actual outside advertising, but much more money in developing the business and social sense of the state, the hearty cooperation of the producer and the dealer, the working together to make the home folks prosperous through getting a stable and profitable market for their goods, and making Oregon one big family that will work together for the profit of all. The Sunnyside women served a fine luncheon after the speaking—fried chicken, pressed chicken sandwiches, cake, salads, pie, and other good things. The social hour during the lunch was one of the gayest events that the county federation ever held.

SCHOOL BAZAAR IS BIG SUCCESS

Successful Event Held at Aumsville Under Supervision of P-T

AMUSVILLE, Or., Dec. 20.—The Amos M. Davis high school at this place, the building that was recently dedicated in honor of Mr. Davis, held a bazaar Friday of last week which was a very decided success, both as an entertainment and financially. A dinner was served in the cafeteria department, after which a pleasing program was given. An auction next took place, when sales were made of all kinds of fruit, vegetables and many farm implements. The little games of chance, such as the doll-rack and fortune-wheel, which are usual at large carnivals, were enjoyed.

A notable feature among the booths was the one conducted by H. L. Wright, one of the school directors, where many wares were on sale including the ubiquitous "hot-dog sandwiches." A pleasing background was noticeable at this place, made by using a highly colored Albers' Brother's sign about eight feet in diameter, representing the "Old Miner" turning his pancakes, for which company Mr. Wright is agent in this part of the state.

Mrs. Cornelia Davis, widow of Amos M. Davis, deceased some years since, endowed the school with about two-thirds of the cost of constructing the building, and now offers the district an additional \$450, when a like amount is raised by the school, for the purchase of a moving picture machine, printing plant, and other needed equipment, which when installed, with the radio now in use, will set the school

among the first in this part of the state. The recent event was under the supervision of the Parent-Teacher association, and the amount realized was approximately \$300.

Punchy Answer

A professor was putting a young medical student through his paces.

"Supposing," he began, "there was a gunpowder explosion and a man was blown into the air. You, as the nearest doctor, being called in, what would you do?"

"Wait for him to come down," was the prompt reply.

The instructor snorted angrily and then barked:

"If I raised my right foot and gave you a kick, what muscles would be brought into play?"

With a steely light in his eyes the young man retorted: "The flexible and extensive muscles of my right arm."

GRANDCHILD HAD CROUPY COUGH

"My grandchild could get no relief whatever from a very bad croupy cough," writes Peter Landis, Meyersdale, Pa., "until I gave him Foley's Honey and Tar. It is a great help for chest and throat trouble." Coughs, colds, croup, throat, chest and bronchial irritations quickly relieved with Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Stood the test of time serving three generations. Sold everywhere.—Adv.

CHRISTMAS TREE STILL IN NEED

More Supplies for Grow-ups and Candy for Tots Wanted by Army

More money and candy and toys and fruit and everything is needed for the Salvation Army Christmas tree and Christmas dinner campaign.

The tree is to be given to the public at the Armory Saturday evening at 6:30. This is for everybody, especially the children, and most of all for the Salem children who are likely to miss Santa Claus in their own homes. If any Salem child fails to have at least this one Christ-

mas treat, it will be his own fault, or at least misfortune; for it is free for all comers. The Christmas family baskets are to be distributed Saturday afternoon to families all over the city that are known to be in want. The baskets are generously supplied and are to cost between \$5 and \$6 each. The larger families will have the larger supplies. Gifts of food of almost any good kind will be welcome. The Salvation Army phone is 1830, and generous people who wish to help those who need help, are urged to phone in their contributions. The time is short—only two more days.
