

REPORT MADE BY DALZIEL

Records of Department of
Weights and Measures
for Two Years Given

Shortage of funds in some counties comprising parts of districts under the law creating the department of weights and measures often hampers the district deputy sealers in collecting their salaries, which are pro rated among the counties. For this reason, W. A. Dalziel, deputy state sealer, in his biennial report to State Treasurer Hoff, recommends that the salaries of the district deputies be paid out of the general fund of the state.

Expense Allowance Small
The report further recommends a substantial increase in the expense allowances of the district deputies so that each may pay for the upkeep of the automobile which he is required to furnish. The present allowance is said to be inadequate to meet this expense.

Because of many complaints that have reached the department in the last year relative to sales of shelled oysters, Mr. Dalziel recommends that the law be amended to eliminate the "swelling process."

Another recommendation is the creation of a standard peach box. It is said that sale conditions for this commodity are now very unsatisfactory.

Inspection Record Shown
Some other minor recommendations are made to eliminate conflicts in the law.

Continued inspection has been made of food commodities sold in cans or in package form, says the report, with the result that practically all packages or cans are properly marked, considered of untold value to the consumer. It is reported that the number of inspections made during 1921 and 1922 shows an increase of over 6 per cent in scale inspections

and a larger percent increase in the inspection of liquid and linear measures over the preceding biennium.
Statistics in the report show 20,457 scales inspected, 48,403 weights inspected, 5239 linear measures, 2981 oil pumps and 2924 gas pumps.
Miscellaneous Figures
Miscellaneous inspections are as follows:
Pounds butter, 2631; sacks of flour, 114,048; package goods weighed, 12,022; boxes berries inspected, 274,976; sacks mill feed, 33,137; pounds sugar, 18,057; pounds candy, 2481; pounds salt, 3000; boxes apples, 3655; miscellaneous fruits, 6593; loaves bread, 1477; pounds lard, 12,036; pounds rice, 1000; sacks potatoes, 191; cords wood measured, 2042; pounds hops weighed, 1,105,743; pounds cement weighed, 90,000; tons hay weighed, 73; milk bottles inspected, 47,828; gas tests for gravity, 305; pounds coal weighed, 20,250; pounds oats weighed, 322,537; pounds cattle weighed (13 cars), 364,000.

Serious Charges Made in Divorce Complaint

The story of a bride who discovered too late the standard of living to which her husband was accustomed is told in the divorce complaint filed in the circuit court yesterday by Lulu Ogrady against William Ogrady. Six days after their marriage the defendant states she left her husband in disgust. No sooner had they been married she avers that he took her to Portland, forced her to live in a cheap rooming house infested by gamblers and moonshiners and, when she refused to truck with them, accused her of being "a bum sport." In addition, she states personal indignities were heaped upon her. A divorce is asked and also whatever other relief the court may deem justifiable. The Ogrady's were married October 14, 1922 at Goldendale, Wash.

No Longer a Joke
In these days the old invitation, "Name your poison," isn't so jocular as it was, because it is no joke nowadays.—Arkansas Thomas Cat.

KOZER SEES WAY TO TRIM COSTS

Secretary Would Have All
Purchases Made by State
Board of Control

Sam A. Kozar, secretary of state, believes that money could be saved to the state if the state board of control were made the purchasing agent for office supplies for all state activities, and not only for those state institutions that now come under the jurisdiction of the board. In a statement made yesterday Secretary Kozar recommends that the law be so changed that this function will be given the board of control, including purchases for the legislative assembly.

"A casual examination of the prices paid for a number of standard articles reveals a wide discrepancy in many instances," says Mr. Kozar, "and it is the results of such examination that suggest to me the wisdom of enlarging the scope of the present law so as to include the purchase of the supplies for the many state offices departments and institutions that are not now included under it."

"Believing that the centralization of the purchasing of all supplies, furniture, equipment, etc., for every state activity, whether it be a state office, board or commission, state institution for the care of defectives or incorrigibles, or for higher education or of any other character, will result in a material benefit to the state, I strongly recommend that the law authorizing the board of control to purchase all supplies, etc., for the institutions be so amended and broadened as to include the other institutions, offices, etc., not now included."

ARMENIA INVOLVED IN EAST TURMOIL

(Continued from page 1)
for a general collective guarantee that Turkey will not be subjected to foreign aggression. The Turks decline to grant jurisdiction to the straits control commission over the zones of demilitarization, as requested by the allies. There is a general expectation, however, that the straits question will be solved, although Russia's ultimate attitude remain a mystery.

A Common Conclusion
There is a disposition among many persons to conclude that a man does not work unless he wears a long, tired, stinky look and a pair of green overalls.—Arkansas Thomas Cat.

YESTERDAY IN WASHINGTON

Neither the senate nor the house was in session.
The semiweekly meeting of the cabinet was devoted mainly to discussion of the effects of the new tariff law.
Advisability of supporting in modified form the Borah proposal for an economic conference of world powers was considered by senate Republican leaders.
Chief Justice Taft announced that senior circuit judges would meet here Thursday to discuss means of relieving docket congestion in the federal courts.
Administration leaders in senate were reported opposed to the McKellar shipping bill amendments, which call for the abrogation of commercial treaties discriminating against the United States.
