

## WILSON FUND HELD ASSURED

Friends of Ex-President to Raise \$1,000,000 to Perpetuate Ideals

WASHINGTON, Dec. 28.—The friends of Woodrow Wilson who are raising a \$1,000,000 fund for the perpetuation of his ideals celebrated his 66th birthday today by sending him word, through a delegation which called at his 3 street home, that the success of the movement was assured.

**Senate Is Pleased**

At the same time the senate adopted a resolution offered by Senator Harris, Democrat of Georgia, expressing "pleasure and joy" at his recovery toward health. The resolution was put through quickly with a chorus of ayes from the Democratic side of the senate, many of the Republicans engrossed in other matters apparently paying no attention to its purport.

The former president spent his birthday quietly. For an hour or more a group of men and women stood in the rain in front of his home, hoping that he might appear to greet them, but all they saw of the war-time president was a glimpse of him as he drove off in his limousine late in the day for his daily ride.

**Many Friends Call**

During the messages of felicitation came to Mr. Wilson from all parts of the world. A few close friends called to extend greetings, the delegation representing the Woodrow Wilson foundation arriving at 3 o'clock for a 40-minute visit.

In the group were Hamilton Holt and Mrs. Chase Simonson of New York city, Mrs. J. Malcolm Forbes of Boston and Miss Caroline Runtz-Rees of Greenwich, Conn., all members of the foundation's executive committee.

The delegation told Mr. Wilson that contributions to the fund already had passed \$800,000, two probably now approximated \$900,000, and would in the near future ultimately reach the \$1,000,000 goal. The former president was reported to have expressed satisfaction over the success of the movement and its purposes.

**Health Good**

Those in the delegation declined to disclose the nature of their conversation with Mr. Wilson, aside from saying they had chatted informally on a number of

topics. He was in excellent spirits, they said, and apparently was in better health than at any time since he was stricken with illness. Mrs. Wilson and Miss Margaret Wilson, the former president's daughter, joined him in receiving the visitors in the library.

## \$30,535.10 in Delinquent Taxes Come This Week

Marion county will have the highest percentage of paid up taxes in the county this year, according to county officials. Marion county also ranks well in the lead in the amount of delinquent taxes collected, officials said.

A total of \$30,535.10 in delinquent taxes have been collected in the last two days at the county treasurer's office. These go back to 1914. Delinquent taxes for 1921 totaled \$16,928.22; for 1920, \$9,235.38; for 1919, \$3,585.29; for 1917, \$219.20; for 1916, \$36.18; for 1915, \$44.04; and for 1914, \$2.94.

## THE BIG MACHINE IS NOW GOING IN

Capacity of Salem Paper Mill Will be Materially Increased Soon

The big new machine of the Salem paper mill is being received in pieces now and the foundation is being laid for it. It will be put together and arranged in running order within the next six to eight weeks.

This will add materially to the output of the Oregon Pulp and Paper company, since the new machine is of about the same size as the first big one put in, and two or three times the capacity of the smaller machine put in later.

**Is 180 Feet Long**  
The new machine will be 180 feet long. It will make a sheet

**From Watertown, New York**  
The first big machine was made by Bagley & Sewall of Watertown,

of paper 16 inches wide. It is being put in on the third floor, and will run north and south, in the west end of the great building, beginning alongside the smaller machine, to the east of it, but running clear through the new addition recently constructed on the south side of and forming a part of the main machinery building. The first large machine runs east and west on the south side of the main machinery building, on the second floor, with room left on the north side of that room for a companion machine, which will be put in some time in the future, perhaps soon; but this will depend upon the construction of a further addition to house the various small machines that now occupy that space.

The roof is now on the new addition.

A part of the roof of the original main building had to be raised to accommodate the new paper-making machine now going in, and some other alterations were made.

New York, and the machine now going in was manufactured by the same concern. W. D. Carnes erected the original machine. He is in Salem now and is in charge of the erection of the one now going in. He recently erected a paper making machine at Port Angeles, and others at different points out here, since he was in Salem before. Mr. Carnes is a brother of D. F. Carnes, employed

a number of years ago on The Statesman.

All the workmen at the big paper mill take a great pride in their work, and they are pleased to witness the constant expansion, and they are expecting to see this continue for a long, long time.

The Fascisti give no medicine to communists whose presence is not desired. Why not try the bath?
